

MILKMAN IS CUT TO BITS WHEN HIT BY TRAIN AT DAUPHIN

Northern Central Special Smashes Into Wagon and Kills John Brightbill Instantly

MANY WITNESS THE ACCIDENT

Part of Wagon Carried Four Blocks; Coroner to Make Investigation

John U. Brightbill, aged 40 years, a dairyman residing near Linglestown, was instantly killed and his body cut to bits, when a fast special train hit his milk wagon on a Dauphin crossing at 10.45 this morning.

His horse was killed and the wagon was carried by the engine to the station four blocks away.

The special was running nearly sixty miles an hour, and was bringing a number of Northern Central railroad officials to Harrisburg. Brightbill is survived by his wife. His mangled body was brought to Harrisburg at noon, and placed in the Pennsylvania Railroad morgue.

Twenty People Saw Accident

At least twenty persons witnessed the accident. Brightbill, who has many customers in Dauphin, was completing his daily deliveries. He was on his way to upper Dauphin, going by way of the crossing at Swatara and Railroad streets. A freight train was running north and had just passed, when Mr. Brightbill started his horse. Men and women on the opposite side of the crossing, who saw the approaching special, waved their hands, but their signals were not seen by the milkman. The milk wagon with its occupant reached the crossing just as the special sped by.

Mr. Brightbill was caught by the cowcatcher and his head and legs were severed from his body. The train was not stopped until the Dauphin station was reached.

Coroner Eckinger was notified and will investigate. One year ago Brightbill's wagon was struck on the same crossing. The horse was killed and the wagon demolished, the milkman escaping.

Allies and Germans Battling in Northern France Without Result

Both Sides Agree Fight Is Raging and That There Has Been No Decisive Advantage on Either Side; Army of Crown Prince Being Slowly Driven Back; Terrific Battle Is in Progress at Cracow; Latest German Casualty List Contains 9,600 Names

French and German reports agree that the fighting on the western end of the battle line in Northern France continues without decisive advantage to either side.

In an announcement made at 3 o'clock this afternoon in Paris the French War Office says that a violent action progresses in the region of Roye where the allies have repulsed all German attacks on the left wing.

A statement from German army headquarters issued last night said that the right wing of the German army in France had repulsed renewed efforts on the part of the allies to flank.

To the south of Roye the French have been dislodged from their positions, it was declared. General advances, in the Argonne region were recorded while the situation on the center was reported as unchanged.

To-day's French statement says that the army of the Crown Prince has been driven back in the Argonne district and that slow but continuous progress is being made by the allies in the Woerwe district. Nothing, it says, is to be noted on the line from Rheims to the Argonne region.

Reports from the eastern area of the war continue conflicting. Glowing accounts of Russian successes with a new invasion of East Prussia emanate from Petrograd and other pro-Russian sources. On the other hand it proclaimed that the German army which drove the Russians from East Prussia is making a serious invasion to the east and that an important engagement along the river Niemen is eminent while other German and Austrian forces are checking the westward movement of the Russians in Russian Poland and Galicia.

BATTLE RAGING AT CRACOW

The most dependable reports indicate that the really great battle is being fought at Cracow where an unnumbered Russian force is attacking the Germans and Austrians there united in immense strength.

According to Austrian reports the invaders of Bosnia are being scattered while the counter invasion of Serbia proceeds satisfactorily.

A new German casualty list adds 9,600 names to the dead, wounded and missing. The wounded include Prince Joachim, the Emperor's youngest son.

According to Rome advices, a cabinet crisis is approaching to differences as to the attitude of Italy.

Tokio announces that another Japanese mine sweeper has been sunk by a German mine in Laoshan Bay, China. The Japanese army is said to be continuing its preparation for a general assault on Tsing-Tau. The Japanese are being shelled by the forsts and the German warships in the bay at Kiao-Chow.

"East of the river Meuse French troops from Toul undertook energetic night attacks but were repulsed. Before Antwerp fort Wavre-St. Catherine and the redoubt Borpevelit, with the intermediate works were assaulted yesterday afternoon at 5 o'clock. Port Waelhem has been invested.

"The western and important outer equipment of the Termonde fortifications is in our possession.

The Belgians allowed the Germans to approach Waelhem to-night. The forts then opened fire, compelling the Germans to retire with losses.

"Termonde was also attacked during the night but the Belgians blew up a bridge and repulsed the Germans. A Taube aeroplane flew over Antwerp at 4 o'clock this morning, too high for our fire."

Allies Successfully Hold Germans Back

By Associated Press

Paris, Oct. 3, 3.53 P. M.—The official announcement issued this afternoon declares that the recent attack of Germans at Roye has been repulsed by the allies.

"The text of the statement follows: 'First—On our left wing the violent action which has been progressing since yesterday continues without interruption particularly in the region of Roye where we have repulsed all attacks although upon this part of the front the enemy has been reinforced by new additions taken from the enemy's center as has been previously noted.

"Second—Upon the center nothing is to be noted from Rheims to the Argonne region.

"In the Woerwe district and upon the heights of the Meuse our progress is slow but continuous.

Heavy Reinforcements Saved Gen. Von Kluck

By Associated Press

New York, Oct. 3.—Dow Jones & Co., a Wall street news agency, put out the following dispatch on its new tickers here to-day:

"Bordeaux, Oct. 3.—Minister of War Millerand declared to-day that only the steady arrival of heavy reinforcements had averted disaster for the army of General von Kluck and the entire right wing of the German front. He said that early in the week the forces of General von Kluck were in desperate straits and that part of them had been forced to withdraw from advanced positions to a point northeast of St. Quentin by a raid of French cavalry.

"General von Kluck, minister Millerand said, had called for reinforcements, but the arrival was delayed, and they arrived only in time to prevent a general withdrawal of the German troops.

"General fighting continues about Roye, the minister of war continued, and the Germans are attacking fiercely. They are making desperate efforts to capture Roye, which they consider an important point. The Germans are being steadily reinforced. They must stem the movement against them or retreat. The menace of a steady pressure against the lines is becoming terrible."

President Judge Kunkel Offers Sage Advice From Bench in September Quarter Sessions

Some sage advice to the youth who contemplates matrimony was handed from the bench to-day by President Judge George Kunkel in receiving the report of the September grand jury at the close of quarter sessions.

The grand jury concurred in the recommendations of a previous grand jury in suggesting the establishment of a county workhouse for defendants in wife desertion and nonmaintenance cases.

"The fault in our opinion," declared Judge Kunkel, "lies in the fact that at the time of the marriage the young

man does not fully appreciate his responsibilities. Even young man and young woman about to enter matrimony should be fully impressed with the duties and obligations of the marital bond. Our mind there is no reason why the taxpayers of the county should be asked to support the wives and families of delinquent husbands.

The grand jury also recommended that jail prisoners be compelled to work on the county highways. All told 159 true bills were found and sixty-one were ignored.
