Insubordination Charges Against Patrolman

While it was generally predicted in municipal circles that Council would dismiss Patrolman Andrew E. Murphy from the city police force after the public hearing this afternoon on charges of insubordination, conduct unbecoming an officer, etc., it was understood that Mayor John K. Royal's suggestion for a successor would not be considered. Jacob Kinley was named by the Mayor to succeed Murphy.

Just "who would be who" as to the presiding officer at the public hearing afforded ample cause for widespread discussion, too, in view of the Mayor's repeated declarations that he would not preside. He has insisted that he and Col. Joseph B. Hutchison had already heard Murphy on several occasions.

BIG REGISTRATION BY REPUBLICANS

Belief That Total Will Run Close to \$13,500 With Republicans Far in the Lead

Returns made to the County Commissioners to-day show that, with one district to hear from, 13,208 persons personally registered for the November election.

The registration last year was 11,-815, being run up because of the great interest in the municipal election when the first Council was elected under the third class city act.

Republican leaders to-day declared that the classification of the registration, which was begun to-day and will require the checking up of every name, will show that the number of Republicans registered is far and away ahead of all other parties. The registration for the first two days showed 4,550 Republicans and 2,275 Democrats with less than 500 Wash-

Germans Gain Ground at Several Points in Western Theater of War

Brief Announcement Made by French War Office This Afternoon; Battle North of Oise Continues Without Decisive Result; Berlin Dispatches Make No Reference to Turning Movement of Allies

The Allies have been obliged to give ground to certain points on the western side of the battle line. This is announced in a statement issued by the French war office at 3 o'clock this afternoon.

The announcement is brief containing only the additional information that the battle continues with great violence to the north of the Oise without decisive results; and that there is no change on the remainder of the front.

A wireless dispatch direct from Berlin to-day brings a long German official statement in which, however, there is no reference whatever to the great engagement in which the allies are attempting to turn the German right wing in northern France and reach the German line of communication to Belgium.

The German war office declares that in the siege of Antwerp forts Lierre, Waelhem and Konigshoyckt have been taken, opening the way for an attack on the inner circle for fortifications and the

As indicating the activity of the London censorship it may be noted that to-day's wireless message is the first to bring to this country, the German official claim that three forts a Anwerp have been reduced. The fact that such a claim had been made was betrayed by a reference made to it in a general summary of the war situation from London last night, showing that the German official announcement has been received in London thought it was not permitted to reach the United States textualy.

DENY FALL OF FORTS

Belgian denials that any of their forts had fallen came from Antwerp by way of London yesterday and again to-day an official Belgian announcement which passed through the hands of the British censor declares that the situation of the fortified positions around Antwerp remains unchanged to-day.

The German war office says that the Russian left wing was defeated after a furious battle of two days of the Niemen river.

There has been nothing official from Petrograd but the most ecent reports officially from the Russian capital set forth that the German and Austrian forces all along the fighting area from the Baltic to Hungry were being checked, driven back or rounted.

The returns of the German imperial bank last week are described in a Berlin dispatch as showing an increase in specie of \$10,250,000 over the last previous report.

Entering the drawing-room they found a company of Wurtemburgians petrified in action. Some were at the windows taking aim with their fingers still pressing the trigger, while others were at the tables, where they had been playing gams with cards in their hands, while still others had cigarets in their lips. An officer stood with his mouth open as if in the act of dictains an order and all the cropses looked absolutely lifelike."
