COMMERCE CHAMBER TAKES FIRST STEP

(Continued From First Page)

GEORGE B. TRIPP Retiring President of Commerce Chamber

quainted with what we have done thus far and the opportunities for future improvement; therefore he resolved, that the achievements of Harrisburg and its growth be fittingly celebrated by an historical pageant and water carnival, which will refresh the memories of all citizens as to the historical happenings in Harrisburg and enable local citizens and outsiders to inspect the street, park, river front and other improvements. Be it further resolved, that the board of directors of the Chamber of Commerce be authorized and requested by the membership to form a general committee charged with the duty of arranging ways and means for the carrying out of a historical pageant and water carnival; that this committee be requested to endeavor to secure the co-operation of the city government and all local civic organiza-

tions in making the event an inspiring success. The Jennings resolution was adopted by the Chamber and preliminary work in preparing the plans for the big historical pageant and water carnival will be started in the near future. Just what the historical pageant will include has not even been thought of in detail as yet, of course, but it will include the scenes of the founding of Harrisburg, heroes of the stirring days of the Civil War, the burning of the Capitol, and so on. The water carnival will include motorboat, sailboat, rowing, canoeing, tub races and all the other popular aquatic sports. The event will be heralded throughout the United States and preparations will be made for the entertainment of many thousands of visitors during the big celebration.

President Tripp's Report The feature of the annual business meeting was the report of the retiring president, George B. Tripp, who is leaving Harrisburg for New York city. Mr. Tripp pointed out the the Harrisburg Chamber of Commerce since its organization, January 20, of this year, has accomplished as much and more than similar organizations in other cities of the size of Harrisburg. He spoke of the publicity work being done; the activity of the Chamber in preventing the passage of a municipal measure raising the mercantile tax rate from one-fifth to one mill; the Briggs street opening controversy, which is being amicably adjusted thanks to the efforts of the Chamber; the procuring of the passage of the "Hardscrabble" ordinance after other organizations had failed to get this measure through for years; the blasting of the dangerous rocks from the river this summer; the Fourth of July celebration planned by the Chamber, which proved so successful; the aid given the Wharton extension school; the doing away of the soliciting nuisance, and last, but not least, the decorating of the city for the big firemen's convention now on.

Traffic Committee on the Job President Tripp stated that a traffic committee composed of representatives from the Pennsylvania Reading freight departments and the Chamber are looking after complaints with regard to rates, delays of shipments and other matters which affect Harrisburg as a distributing center. In part Mr. Tripp said in conclusion: "The record of definite achievement demonstrates that the Chamber of Commerce is an efficient organization alive to the present day needs of Harrisburg; that it has taken the initiative when action by it could help the city and not waited to be prodded into activity." Elect Directors; Hear Reports Reports of various committees followed. Mr. Tripp's report as well as the election of five new directors, who are George W. Bogar, Charles W. Burtmet, William B. McCaleb, George W. Reilly and David E. Tracy. The committee on industrial development stated that investigations have brought out the fact that sufficient help can be secured in and about Harrisburg for

any new enterprise that might want to locate here. The committee on membership urged the increasing of the size of this committee to insure greater increases in membership during next year. Donald McCormick, the treasurer, reported as follows: Assets, \$4,196.51; liabilities due to firemen's convention, \$2,050; balance, \$2,271.51.

Elect New Officers Soon Officers for the new year will be announced by the reorganized board of directors before the next regular meeting of the Chamber. The directors, in addition to those elected last night, are W. M. Donaldson, S. Herman, Donald McCormick, F. B. Muser, G. F. Watt, J. William Bowman, Henderson Gilbert, David Kaufman, W. M. Ogelsby, George B. Tripp. A successor must be elected to Mr. Tripp.

Summary of Improvements Extremely interesting is the summary of Harrisburg's improvement loans and accomplishments as given by Mr. Jennings last night. This summary is as follows: Ordinance of 1902, authorizing the creation of a loan in the sum of \$1,000,000, distributed as follows: \$310,000 for the extension, improvement and filtration of the water supply; \$355,000 for extension and improvement of sewer system; \$85,000 for the construction of a dam in the Susquehanna river to form part of the improved sewerage system; \$250,000 for acquiring land and property for parks and for making park improvements; \$100,000 for creation of a fund out of which the city may defray the cost of paving the intersections of streets heretofore authorized to be paved.

Ordinance of 1905, authorizing the creation of a loan of \$400,000, distributed as follows: \$200,000 for reconstructing Mulberry street bridge; \$100,000 for extension and improvement of sewerage system; \$75,000 for paving of intersections of highways; \$25,000 authorized to be paved and curbing in front of nonassessable property in highways heretofore paved and that may hereafter be paved. Ordinance of 1910, authorizing creation of loan of \$641,000, distributed as follows: \$100,000 for improvement of sanitary condition of Paxton creek; \$100,000 for sewers; \$100,000 for paving of intersections of highways and in front of nonassessable properties; \$315,000 for intercepting sewer along Susquehanna; \$25,000 for construction of bridge over the Philadelphia and Reading Company's right-of-way at Thirtieth street. Ordinance of 1914-1915, authorizing the creation of a loan in the sum of \$300,000, distributed as follows: \$100,000 for sewers; \$25,000 for bridges; \$25,000 for sale of safety in Market Square and comfort station; \$25,000 for purchase of apparatus for Fire Department; \$25,000 for municipal asphalt repair plant; \$100,000 for

HEAD OF BALDWIN WORKS SAYS TARIFF CAUSES DEPRESSION

(Continued From First Page)

manufacturing business dependent upon the railroads. America's lack of foreign trade and merchant marine. The European war. With relation to the tariff he said: "A change of the tariff was demanded by the American people, but it was extremely unfortunate that a party put in power with such drastic ideas of tariff reduction. The tariff was lowered to an extent deemed unwise by a majority of the leading business men and manufacturers of the country, and the result has been uncertainty and depression." He said traffic business throughout the United States has fallen off ten per cent.; manufacturers have fallen off from twenty to twenty-five per cent.; the industries dependent upon railroad prosperity are now doing badly; the Confederate flag, swept the American merchant marine from the seas; ever since the days when the iron and the steel steamship super-

Tariff Has Disastrous Results "And I wish to say," went on Mr. Johnson, "that the new tariff was accepted by the business men of this country in good faith. They were determined to give it a fair trial and that trial has had disastrous results to this nation." Speaking of the Interstate Commerce Commission, Mr. Johnson said: "This body has betrayed the sacred trust placed in its hands, which was the just control of the railroad. This hostility to railroads is not confined to this branch of business, but to every branch of trade activity."

Foreign Trade Lacking In regard to the foreign trade and the war Mr. Johnson said in part: "Now, it is a fact that, with the invincible spirit of American business men, conditions were improving last July and August, and business was distinctly better than it has been during the preceding six months, when, like a thunder clap from the skies, the nations of Europe plunged themselves into war. The finances of the world were paralyzed and most lines of industry in this country, as in other industrial countries, were stopped. The first thought that occurred to American business men was that Europe at war must call upon us for foodstuffs, for raw materials, for manufactures, and then we discovered that we were a department store trying to do business with the delivery wagons of a compe-

tor, or hired wagons from a lively stable, and that lively man whom we were trying to employ, was for the time being, out of business."

Trade Follows the Loan "Now, there are two formidable questions which must be solved as part of this important question of foreign trade. The first is that of finance. Of present we have no dollar exchange with any South American country. We have often heard it said that trade follows the flag. There never was a greater mistake. Trade follows the loan and until we can take the place of Europe as the financial help of these countries to the south of us, I don't see how it is possible for us very largely to change the present balance of trade against us. Upon the investment banker depends our trade with these countries to the south of us. The time is absolutely ripe to-day for the bankers of the United States to create a loan in any one of those countries for any South American country, place upon the condition that not a dollar shall go out of the United States but that the money be used, first to liquidate the debts of those nations to ourselves and, second, that the money shall be paid out for goods manufactured in the United States."

Transportation Problems "The next thing upon which our foreign trade depends, is that of transportation, and this is a question we have had with us for many years, ever since the British privateers, sailing under the Confederate flag, swept the American merchant marine from the seas; ever since the days when the iron and the steel steamship super-

Act Quickly

Delay Has Been Dangerous in Harrisburg

Do it right thing at the right time. Act quickly in time of danger. In time of kidney danger Doan's Kidney Pills are most effective. Plenty of Harrisburg evidence of their worth. Mrs. L. W. Moore, 825 North Third street, Harrisburg, says: "My back always felt weak and pained me almost constantly. At times sharp pains darted through my kidneys. My kidneys were weak and I had very little control over them. I felt all run down and my nerves were in an awful condition. One of my family had taken Doan's Kidney Pills and had been benefited so wonderfully that I decided to give them a trial. I am glad to say that they have done me a great deal of good. I am still taking them and am improving right along. Considering the condition I was in before I began using Doan's Kidney Pills, I can't help speaking a good word for them." Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Moore had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

How Famous Actresses Banish Superfluous Hair

Betty Lorraine, the popular actress who won fame in "The Little Parisienne" and other Comedies writes: "Theatrical women are now using a remarkable prescription that acts like magic in erasing all trace of unsightly hair growth. It is Mrs. Osgood's Wonder. Unlike the electric needle, it can be used with perfect safety. Unlike civil-amending depilatories, it doesn't burn the skin. I used it first over a year ago and have not had a trace of superfluous hair since." Mrs. Osgood's Wonder is quite inexpensive and is sold by Kennedy's Drug Store and other up-to-date drug stores. Signed Money-Back Guarantee in every package.

There's a reason smokers must have MOJA quality! There's a reason they willingly pay a dime for a smoke!

are all Havana and have a full, rich aroma that absolutely delights and satisfies any tobacco taste.
