BIG FOUR TEAMS READY FOR GAMES

Tech High Will Line Up Against Sunbury in First Home Struggle Tomorrow

On to-morrow's football schedule are many games which promise to be an uncertainty until the finish. The teams represented in the big four circle will meet teams to-morrow which last year put many a crimp in the clean scores of the big fellows.

Lehigh meets Yale. The game will be played at New Haven and promises some surprises. Harvard will have a tough proposition in Washington-Jefferson. Princeton will meet Syracuse, and the Indians play Cornell. Lafayette will try hard to put Penn down with another defeat. An interesting game is promised at Penn State with Gettysburg as their opponents.

In local scholastic circles the big game will be at Island Park between Tech High and Sunbury High. It will be the first appearance of the Tech team on the home field. The game starts at 3 o'clock.

Coach E. C. Taggart will take his Steelton aggregation to Lebanon for a game with Lebanon High.

Charley Deal, Braves New Third Baseman

Charley Deal, who was once the regular third baseman of the Boston Braves, will have the honor of playing that position in the world series. Red Smith, the peppery third baseman whom Manager Stallings bought from Brooklyn some weeks ago, broke his leg at Ebbets Field in Brooklyn on Wednesday. It put him out. While Stallings believes Deal will hold down the place, he has others for the job. Whitted, who is both an outfielder and an infielder, can be called on if necessary.

Deal, who played with the Detroit Tigers and the Providence and Rochester teams before Stallings took him to Boston last Fall, suffered from lameness during the early part of this season, which made it impossible for him to hit or run. For that reason Manager Stallings made the deal with the Brooklyn club for Smith's services. Smith promptly strengthened the Braves where they had been weak and Deal enjoyed a long rest on the bench, slowly but surely recovering from his ailment.

HERSHEY SCHOOL TO BE DEDICATED

Impressive Ceremonies at Hand—Some Building Erected by Chocolate Manufacturer

Hershey, Pa., Oct. 9.—Dedication exercises of the Hershey Consolidated public schools will be held on Tuesday, October 14. Consolidation of the schools was begun in Derry township a few years ago, but the old building became inadequate to accommodate the pupils. M. S. Hershey, who has the keenest interest in all things that uplift, offered to construct and to equip the handsome building now occupied by more than a hundred happy and grateful children of Derry township.

The building is constructed of Lancaster red brick and trimmed with granite. Light blue native limestone forms the base. The length is 220 feet, with wings at each end extending back 100 feet. The main width is 75 feet, including a corridor 13 feet wide, a garden, an office, two store rooms, rest room, library room, four toilets in addition to three private toilets for teachers. The basement is occupied by a gymnasium, four play rooms, two lunch rooms, boiler room, janitor's tool shop, fan room and two toilets. The direct heat is steam and the air is kept pure by fanning the filtered air at 70 degrees into the rooms, and by exhausting the vitiated air by another fan in the loft.

The interior of the building is finished in mission with a greenish tint. The entire cost of building, equipment and grounds is \$120,000. The architect was C. Emlin Urban, and the contractor Titzel Construction Company, both of Lancaster.

The program arranged is as follows:
 1.30 o'clock p. m.—Music, Hershey Band; invocation, the Rev. N. L. Linebaugh; address of welcome, John E. Snyder, chairman; music, "My Own United States," Hershey schools; address, Dr. N. C. Schaeffer, Superintendent of Public Instruction; presentation of school property, M. S. Hershey; acceptance, A. B. Shenk, presi-

NO ARMY-NAVY GAME IS LATEST STATEMENT

Annapolis, Md., Oct. 9.—Negotiations for a football game between the Army and Navy teams this year have been abandoned. This was announced by the Navy Athletic Association late yesterday.

Captain William F. Fullam, superintendent of the Academy, in a statement issued at the same time, announced that he personally approves of the action of the Navy Athletic Council. Said Captain Fullam:
 "From the viewpoint of the best interests of the Naval Academy and the midshipmen, there are insurmountable objections to playing in New York or at any point which cannot be reached in three or four hours from Annapolis. Playing at New York involves an expense of from seven to eight thousand dollars for the midshipmen's travel. They last year arrived only five minutes before the game and might in any year fail to reach there in time. The superintendent approved the proposition to play at the midway point unreservedly and also to play on the home grounds, the batallions not to accompany the team in the latter case. The objections to Philadelphia and to the home grounds are not considered reasonable.

"It is needless to say that the Navy team will play the game wherever it is ordered to do so by proper authority, but if the opinions of the superintendent and the council are consulted they can only state their opinions frankly.

MANY APPLYING FOR 1915 AUTO TAGS

State Highway Department Will Receive the Applications Now For Issue Later

Automobile owners and drivers and motorcyclists are urged to send in their applications for licenses for 1915 at an early date, according to a statement issued by the State Highway Department today.

Applications will be received by the automobile division from this time forward and beginning December 1, license plates for 1915 will be shipped out to applicants. These licenses will not be valid until January 1, 1915. It is hoped that by urging applicants to send in their requests early the congestion which has occurred in previous years will be avoided.

Since there can be no possible excuse for failure to apply for new license plates it is expected, in view of this notice, that the leniency shown last year to those who were tardy in applying for licenses will be withheld next year.

WORLD SERIES GAMES

If you are a regular dyed-in-the-wool baseball fan you are going to take a few hours off this afternoon and go down to the Chestnut street auditorium and see the first game of the world's series between Boston and the Athletics, reproduced on the big Wizard and played on the Wizard.

Harrisburg knows this board and also knows that it is the next thing to sitting in the bleachers in Philadelphia, to be able to see a game reproduced by the Wizard.

Every play is recorded in less than a minute after it is made and the workings of the board are so complete that once a person becomes interested in the game it is hard to remember that one is not looking at the real thing, in fact the spectators become as enthusiastic as they do in the grandstand or bleachers at the ball park.
