GYMNASIUM CLASSES AT P. R. R. Y. M. C. A.

Plans For Winter's Work Includes Many New Features; Will Start October 15

Gymnasium classes at the P. R. R. Y. M. C. A. will start Thursday October 15. Due to the introduction of Junior and night classes, increased interest is manifested in the program planned for the winter. Physical director Horace G. Geisel will be in charge. New equipment has been ordered and the gymnasium is undergoing a thorough renovation. The schedule follows:

Night men's class, Tuesday and Thursday mornings, from 9 to 11 a. m.
Junior class, Tuesday and Thursday afternoons, from 4 to 6 p. m., and Saturday mornings, from 9 a. m. until noon.
Senior class, Tuesday and Thursday nights, from 8 to 9:30 p. m.

In addition to regular class hours, the gymnasium will be open for individual work every day from 8:30 a. m. until 9:30 p. m.
The graded gymnastic exercises, standardized by the international committee of the Y. M. C. A. will be used throughout the winter. The members of the different classes will be divided into elementary, intermediate and advanced grades, according to ability and experience. Regular attendance will be a big factor in advancement.
The basketball league, which was

such a success last year, will probably be a feature this year, and will start its schedule about December 1.

The bowling alleys are already in use, although the bowling league will not organize until the first week in November. One of the most popular of the additions to the equipment has been the natatorium. It has had a successful year, and has been very well attended. Now that outdoor swimming is impossible, it will be used more than ever, for the room is kept at an even temperature of 80 degrees, and the water is heated to 76 degrees. Several meets are being planned with the swimming teams of other associations, and the season will be opened by a local meet, in which only members of the Harrisburg association will participate. This meet will be held November 20, and will be a great help in choosing the swimmers to form a representative team.

Heavy Bottle Shipment.—If the European war has hit any branches of American industry, it has spared the one in which Glasboro, N. J., is most vitally interested, for the glass business there is thriving. The Whitney Glass Works is shipping 2,272,752 bottles in one huge consignment to the W. F. Rawleigh Medical Company, at Freeport, Ill. No shipment of bottles from Glasboro has ever approached this in magnitude. A special train of thirty cars has been loaded with the bottles, all of which were blown by automatic machines. A special through schedule has been arranged for the 1,200-mile trip.

Express Rate Hearing Will Start October 30

Special to The Telegraph
Washington, D. C., Oct. 9.—Investigation of the plans for classification of express matter will start October 30, according to the announcement of the Interstate Commerce Commissioners yesterday.
The suggested changes are regarded by experts as more scientific than the present classifications, and it is unlikely that, in the main, they will be approved by the commissioners.

The goal has been set at 1,200 present at this service and leaders confidently expect that it will be reached, if not exceeded. H. B. McCormick, the newly elected superintendent of the school, said this morning: "If you are not in Sunday school, why not join the Pine Street school, which is the study of the Word of God?"

Antwerp Holding Out Belief in England

London, Oct. 9, 10:05 A. M.—So far as England knows this morning Antwerp, the latest of the cities of Belgium to be beleaguered, is still holding out against the German onslaught. King Albert has withdrawn from the city toward Ostend where the administration is now fully established but practically he entire Belgian field army has remained to resist as long as possible the fire of the great German guns, the horrible effects of which were made plain at Liege.

TELEGRAPH IS SERENADED BY CRACK SPRING CITY BAND

Once more the Telegraph was well serenaded this morning by one of the crack bands of the State which made Harrisburg famous yesterday—the Spring City Band, of Spring City, Pa. The Spring City band stopped at the Telegraph building with the crack fire-fighting organization for which they played, the Liberty Steam Fire Engine Company, of Spring City. Firemen and band were guests of the Allison Hook and Ladder Truck Company.

The band contains twenty-five pieces and the leader chose an attractive program. Allen Kast is chief, Ellis Hunter is foreman and Charley Evans and Harry Bowman are first and second assistant foremen, respectively.
The Spring City visitors made an excellent appearance in yesterday's parade and the sight of them again this morning attracted more favorable comment. And the band played at its best.

TIMBERLAKE ASKS PARDON OF STATE

Violated Parole and Faces Long Term in the Eastern Penitentiary For Offense

An unusual case with a Dauphin county end was listed to-day for argument before the meeting of the State Board of Pardons on October 21. Ray Timberlake asking a pardon for a violation of parole, which, it is contended, was for the purpose of seeing his mother. Timberlake was convicted here of theft and given a sentence in the penitentiary. He was released on parole and it is alleged that he did not show up to report at one time because he had gone away to see his mother and had forgotten the day. The inspectors reported him for a violation and he was taken back to the prison for the full term.

Another Dauphin case is that of Florence Wilson, convicted some time ago.

The company had given notice that it would not furnish steam, but it was charged that the notice did not give time enough to make provisions for shutting off of that supply.

Big Hearing Started.—Hearings were begun by the Public Service Commission to-day on complaints of a number of boroughs adjacent to Philadelphia to the rates and service of the Springfield Consolidated Water Company, which supplies large districts in Montgomery and Delaware counties. The hearing bids fair to be the most extended ever undertaken by the commission. It is prepared from the water company and exhaustive statements of valuations were submitted at the session to-day. The commission also heard complaints from the borough of Greensburg about the service and rates of the Westmoreland Water Company and arranged for an inventory to be made by engineers. It will adjourn to-day for the week.

Defenders Inspired by Presence of King

By Associated Press
London, Oct. 9, 4:11 a. m.—The fierce resistance of Antwerp's defenders on the Scheldt was partly inspired by the presence of King Albert himself, says the Ghent correspondent of the Chronicle in a dispatch under Thursday's date. The repeated German attacks aimed at the line of defense proved futile and the German attack was attended with terrible losses.

The batteries were engaged in a brisk duel while on our side the Belgians were also hard at work. This continued for some hours. The Germans for a time did not succeed in lowering the Belgian batteries, and it was amusing to watch their shells exploding as a rule in any but the right place.

Early in the afternoon, however, they sent an aeroplane over the Belgian lines and positions and very shortly afterwards their shells began to drop in inconvenient places. The Belgians found that they were being overpowered and orders were given to withdraw from their positions.
