The Frolaset Is the One Ideal Corset That Laces in Front

Attractiveness in clothes is made often dependent upon the correctness of the corset than upon the costliness of the costume.

The woman who follows style tendencies usually knows the kind of corset to buy. She no longer buys according to size, but rather according to design and adaptability to her individual type of figure.

The Frolaset Corset is the one ideal corset that laces in front, and we heartily commend it to well-dressed women because we believe in selling the best merchandise that it is possible to buy.

If you are not familiar with the Frolaset will you not permit us to show you some of its new models. Prices range from \$3.50 to \$15.00
