To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. You Smoke a "Better" Tobacco —Why Not Smoke The Best?

THE tobacco you now smoke you consider "better tobacco than you ever smoked before." Naturally, you kept trying until you found a "better" one.

But it stands to reason that since there is a difference in tobaccos, you may be missing still greater pleasure in a still better smoke—in the BEST smoke, in fact.

Tuxedo is the best smoke because no better tobacco leaf grows, and no process of treating tobacco leaf equals the original "Tuxedo Process."

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

We know that Tuxedo is made of the BEST tobacco—rich, mellow, perfectly aged Kentucky Burley. None better can be bought, because none better is grown.

It is treated by the famous original "Tuxedo Process" for removing the sting and bite of the natural vegetable oils.

Tuxedo was born in 1904. Its first imitator appeared two years later. Since then a host of imitations have sprung up.

No other tobacco can give the unique pleasure of Tuxedo because no other maker has yet been able to equal the Tuxedo quality.

## No--All Coal Is Not Alike

We should say not.

The average person thinks that because coal all looks very much alike that it is alike.

All coal is black and that is about as far as the similarity of the different grades of coal go.

Our pure Lykens Valley Coal is very free burning. It is what people call soft. Where the draft is not strong Lykens Valley Coal is the kind to use. It burns up quickly and gives an intense heat—just the kind for baking.

Our Wilkes-Barre or Lehigh coal is what you want for your furnace where you need a hard coal because of the strong draft. Then there are many other kinds.

Tell us your conditions and we can satisfy you.
