**Henderson Corsets  
Back and Front Laced**

We have recently received a magnificent showing of seasonable corsets, in all of those new models that are in demand by those women who care for their figure appearance.

Particular attention is called to the slightly higher bust—the straight flat back, the effect of which is to produce perfect poise and erect carriage—the removal of the boning over the hips which has found general favor among very many of our patrons—all of these characteristics contribute to the natural, supple, figure lines.

Our corset department is known as devoted to the best type of corsets and we particularly feature Henderson corsets at \$1.00 and above.
