Carnegie Is Held by

Philadelphia, Oct. 26.—Further argument designed to show why the United States Steel Corporation should be disintegrated on the ground that it is an unlawful trust, as charged by the government, was made in the United States District Court here to-day. Henry E. Colton, special assistant to the Attorney General in the government's dissolution suit against the big steel concern and its subsidiaries, was the first speaker.

David A. Reed, of Pittsburgh, of counsel for the Steel Corporation, followed Mr. Colton. He defended Andrew Carnegie's action in disposing of his interests to the Steel Corporation when it was organized.

Counsel pictured the meeting be-

when it was organized.

Counsel pictured the meeting between Andrew Carnegie and the late J. P. Morgan when the deal was closed for the sale of the Carnegie properties. James H. Reed, of Pittsburgh, was at the meeting and counsel quoted him in describing the parting between Mr. Carnegie and Mr. Morgan.

VALUE OF CITY PARKS

Secretary of American Civic Association Regrets Abolishing of the Former Park Commission Here Richard B. Watrous, formerly of Harrisburg, secretary of the American Civic Association, at Washington, says of a hustling western city:

"That Spokane with its population of 120,000 people and with a total area of 39 square miles should in the short period of eleven years have secured and developed 1,934 acres for park purposes is a splendid example to other American cities. It is easy to understand that Spokane had a death rate in 1912 of only 8.47 per thousand. It is easy to understand that Spokane had a death rate in 1912 of only 8.47 per thousand. It is easy to understand that spokane is a pleasant place to live in and that it is a place transcontinental tourists are glad to stop off at and enjoy. Great wisdom has been exercised by the park commissioners, backed as they have been by popular vote and approval, in the creation of a park board and in securing by legislative enactment a definite tax levy for the support of its parks, and when in 1910 the city of Spokane adopted a new city charter providing for the commission form of govern-

"An instance of where a distinct loss to park administration was suffered by this action is afforded by the city of Harrisburg, which had and now does not have an unusually competent board of park commissioners who, during a period of ten years, had built up for Harrisburg one of the notable park systems of this country both in extent of area and in completeness of its development. Spokane has also shown its good sense in retaining as its advisors in the development of its parks such competent men as the Olmsted Brothers, of Brookline, who are landscape architects of national reputation."

SPLENDID VAUDEVILLE BILLS AT COLONIAL; MATINEES A DIME

Wilmer & Vincent hit the nail on the head last week when they changed the Colonial Theater into a Keith vaudeville house, running four Keith

acts and moving pictures at low prices.

The bill to be offered for the first three days of this week includes four excellent acts. Bernard and Scott have been featured in all of the big vaude. vilel houses of the country. Florence Scarth is one of the prettiest girls on the stage. This team does an excellent flirtation act.

The "Fun Shop" is the title of miniature musical comedy in which some sprightly boys and girls do songs, dances and comedy. Dorothy Brenner and company present "The Candy Shop" and Joe Kennedy is a real comedian on roller skates.

The above acts are on the bill at the Colonial for the first three days of this week. Beginning to-day the matinees at the Colonial will be 10 cents, children 5 cents. After this week there will be no more morning and supper hour picture shows at the Colonial. The regular vaudeville will begin at 2.30 and the first evening per-formance will begin at 7 o'clock. The doors will open a half hour earlier.— Advertisement.
