HAMBURG'S THIRD STATE OPERATION

Great Sanatorium Adds Luster to Pennsylvania's Humanitarian Enterprises

MUCH PRAISE FOR DR. DIXON

Opening of Institution Attracts National Attention to What He Has Done

Doors of the State's third great tuberculosis sanatorium were opened to patients at Hamburg to-day. The magnificent institution, which has been in the course of construction for the past year, is now ready.

The enormous demand and need for sanatorium treatment by the 20,000 patients now being treated in the State tuberculosis dispensaries has made the construction of this new institution necessary.

The general architectural treatment of the buildings is in the mission style. They are constructed of hollow tile and concrete.

The administration buildings occupy the center of the group and form a Greek cross, which is flanked on either side by great wings of buildings.

An ingenious arrangement of the wards permits the care of either advanced or incipient cases, as the demand may dictate. The roofs of the wards, some 22,000 square feet in area, have been paved to permit patients to enjoy rest and recreation in the open air without leaving the buildings.

The grounds surrounding the sanatorium comprise some 311 acres, the greater portion of which is under cultivation and will supply much of the poultry, eggs and vegetables required.

A pure mountain stream, which flows through the State's property provides an adequate water supply and a complete sewerage filtration plant has been installed.

Hamburg, like Mont Alto and Crescon, will provide for those patients attending the dispensaries who are in need of sanatorium treatment. Since the first sanatorium was opened over 12,000 patients have been treated. Of these over 12,000 have been cared for at Mont Alto.

While no hard and fast rule will be adhered to in admitting patients, generally speaking, those from Philadelphia and the eastern portion of the State will be cared for at Hamburg. Crescon will care for those from the west and Mont Alto those from the central section of the Commonwealth.

In speaking of the tuberculosis work Dr. Dixon says: "We believe that our dispensaries are doing a great work and that they are justifying their existence by tangible results, even though the greatest part of their value lies along lines which can be made apparent only after the passage of years.

Between July, 1907, and March 31, 1914, our dispensary physicians examined 86,697 applicants for treatment. Of these 68,107 were found tuberculous and enrolled as patients, and 239,915 visits to the dispensaries. Our nurses made 695,129 visits in the homes of patients. During that period 11,811 patients were sent to sanatoria and 4,196 were discharged from the dispensary service with the progress of the disease arrested.

NOTE FOR BEST MAN, URGES MINISTERS

Gubernatorial Candidates Against Liquor, So Study Characters of the Two

Men as well as the issues of the present political campaign were discussed by pastors of local churches yesterday. The ministers pointed out that both the candidates for Governor are in favor of local option and that the men should vote according to the dictates of their conscience for whichever they think the better man.

The liquor traffic, the ministers said, is one of the vital issues of the election. The voters were advised to think seriously before voting and then to use their political liberty for what they deemed the best. It was pointed out that the platforms should be carefully studied so that the voter can see just what the party represents and in what manner in which they will decide the issues at stake.

The following were some of the pastors who spoke to their congregations yesterday about the election: William N. Yates, Fourth Street Church of God; J. A. Lyter, Derry Church United Brethren Church, and A. S. Williams, Curtin Heights Methodist Church, who spoke on "Using Your Political Liberty."

HEINZ ENDORSES DR. BRUMBAUGH NOW

Famous Pittsburgh Sunday School Worker Declares in Favor of the Big Educator

Pittsburgh, Oct. 26.—H. J. Heinz, for years president of the Pennsylvania Sunday School Association, to-day paid a glowing tribute to the worth of Dr. Martin G. Brumbaugh, the Republican candidate for Governor. Mr. Heinz is one of the foremost advocates of local option in Pennsylvania and one of the most widely known Sunday school workers in the world.

In speaking of Dr. Brumbaugh Mr. Heinz said: "From the first announcement of Dr. Brumbaugh's candidacy for the governorship of our Commonwealth I watched the campaign, and observed with great pleasure the respectability which it met among so many of our people, and I was particularly gratified with the large vote he received at the primary."

It is evident that many other citizens of Pennsylvania entertain the same view that I do, namely, that he is the best equipped man seeking the office. "His training for the duties of the executive office cannot be overlooked. In his successful superintendency of the public schools of Philadelphia, he has been called upon to do more than deal with educational problems, important as they are, for his position has been one that has required the exercise of executive ability, and no man could have succeeded as he has done unless he possessed executive ability of a high order.
