Some Beauty Secrets Worth A Fortune to Every Woman

aleska Suratt, America's Self-Made Beauty-Actress, Tells How Sur-passing Beauty May Be Simply And Easily Attained

By Miss Valeska Suratt

Time is the essence of all things. Every day that is gone is gone forever, never to return. Make the most of every day. Many women spend years trying to beautify themselves and before they are through wrinkles come to eradicate all their previous efforts. The methods employed at the present day for removing wrinkles and beautifying the complexion are meager indeed. The ordinary prepared creams used for this purpose are merely weak subterfuges, as many women know only too well. It comes with much surprise, then, to hany women to realize that real beauty is a matter of but a few weeks' faithful effort, as a resort to the following for-

mulas will fully prove. I will give here the recipe for a cream that is, astounding in its quick results in clearing the skin of all impurities and blemishes, such as red spots, freckles and the like. This is made by mixing one tablespoonful of glycerine, one cured at any drug store, and a pint of water. This makes a satiny cream. Used every day liberally, it soon renders the skin as velvety, pury and spotless in tint, as the petals of a rose. It never falls.

BERENICE T. M.—I know many women of over 45, who have made women of over 45, who have made with the service of the success of the service of the service of the success of the service of the service of the success of the service of

MISS CHAGRIN—Soap is not effective as, a thorough remover of dandruff, and it is only a partial cleanser. A surprising head wash is a mixture of a teaspoonful of eggol in half a cup of hot water. As it contains no alkali whatever, it actually dissolves all fatty accumulations, and dandruff completely disappears. It cannot be surpassed as a cleanser. It is also economical, since you can obtain enough eggol at small you can obtain enough eggol at small you a dozen or more of these luxurious shampoos.

REBECCA T. S.—The growth of hair can be quickly forced and its falling stopped. To use mere hair tonic for this purpose is a waste of time and money. A mixture of half a pint of water, half a pint of alcohol (or one full pint of bay rum instead of the water and alcohol), and one ounce of beta-quinol, applied liberally, makes a hair-forcer of extraordinary power. It is also far more economical than the ordinary hair treatments used and which are not so effective. It makes hair grow quickly, and I have never known it to fall to do the work. It gives the hair wonderful life, it grows more fluffy and thick and there will be no more wisps of hair coming out of your brush or comb. Without any question it solves the hair problem.

MISS F. O. N.—You can get rid of lackheads in a few minutes by simply prinkling on a sponge, made wet ith hot water, some neroxin which his, rubbed on the blackheads, retoves them almost as quickly as it akes to tell it. All blackheads, little nd big, disappear. Do not pinch out lackheads.

THEODORA M. O.—No one can assure you positively that you can develop the bust. Some use mechanical contrivances, but these are dangerous. However, a mixture of two ounces of ruetone, half a cup of sugar and half acup of sugar and half acup of sugar and half a cup of sugar and sugar and vigorous development. This true ment has resulted very successfully in many cases, and it is perfectly safe.

THEODOSIA M. G.—You can stop excessive arm-pit perspiration very cup of the cup of the propose. It keeps the pegptation of the purpose. It keeps the pegptation constantly under control, revents fading and ruining of garments at the arm-pits and it immediately destroys not only all perspiration odors at the arm-pits and it immediately destroys not only all perspiration odors but other body odors as well. It is also unexcelled for perspiring feet. Hydrolized tale can be secured at any drug store and is very economical.—Advertisement.
