

HUSBANDS LET THEIR WIVES GO TO JAIL

Youthful Brides Before Court on Charges of Forgery; Incendiary Gets Stiff Sentence

Two pretty girl brides of but a few months pleaded guilty to charges of larceny and forgery at yesterday's sentence court; in both instances their stories were similar—each little wife's husband had refused to help her and had allowed their wives to go to jail. One unusually pretty wife who had been arraigned on charges of forgery sobbed throughout the time she stood before the court. Finally she leaned her head on her arms, before the Bench and sobbed her story. Her husband earned barely enough to support the two of them—with dreary winter prospects ahead and the possibility of a third member of the family in the near future—and she had passed a forged check to obtain money with which to go to Lancaster where she expected to get assistance. Before her case is finally disposed of the district attorney will learn something of her relatives.

A Sale of Women's & Misses' Apparel That Offers Unusual Opportunities to Save When the Garments Are Most Needed

OUR buyer, while in the New York market, picked up some very striking specials—actual bargains—not garments that for any reason are undesirable. The suits are the last word in style; the coats are the kind most sought for by critical women; and the dresses are copies of the finest costumes the season has brought forth.

The low prices at which we are able to offer these garments is the result of manufacturers needing money—spot cash. It is an open secret that manufacturers of women's garments have had rather a trying time this season because of backward weather conditions and the uncertainty of styles. Any manufacturer with material on hand is glad to turn it into garments at moderate cash prices, and many who have made up garments on hand are willing to unload them at a very low figure—for spot cash.

The purchase-amount runs into the thousands, and the lot represents women's apparel to the value of almost double that amount. We shall pass them along at just the same rate—one-fourth to one-half less than value.

Two hundred students in the Freshman, Junior and Senior classes are enrolled to take the course which will probably be the most popular at the institution.

WASHING WON'T RID HEAD OF DANDRUFF

Dissolve It, That's Best Way

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it to the scalp when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this to-night, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

SIX FIRES IN THREE DAYS Record at Hagerstown

Special to The Telegraph. Hagerstown, Md., Nov. 3.—Six fires in five days was the record established in this city ending yesterday, when the barn of ex-City Councilman W. H. Startzman was badly damaged. The origin of the fire is not known, but it is supposed to have been started by a lighted match or cigaret being thrown into straw. The loss is several hundred dollars.

BIG SHIPMENTS OF FRUIT

Special to The Telegraph. Hagerstown, Md., Nov. 3.—Shipment of fruit over the Western Maryland Railroad from and through this section this year has been the largest in the history of the road, owing to new connections and bumper crops. The company so far has handled between 1,500 and 1,800 carloads of peaches and apples, and it is probable that nearly as many more carloads of apples will be handled before the end of the apple season.

SMOKE SHOULD GO UP THE CHIMNEY

The heat should circulate through the house. If it doesn't, then your coal money is literally being wasted through the chimney route. Kelley's favorite furnace coal—hard stove at \$6.70—gives more heat for the money because it is clean and absolutely high-grade.

Running on Schedule Time

Smokers have often commented on the fact that no matter when or where they buy King Oscar 5c Cigars the aroma always tastes the same. That is the result of safeguarding the quality to maintain its regularity. A railroad may have a straight track ahead for a hundred miles and good equipment, but it takes brains to move the trains on schedule time.
