OBSERVE ANNIVERSARY

By Associated Press New York, Nov. 3.—National and State issues conspired to bring the electors of New York State to the polls to-day in numbers that promised a vote like that of a presidential year. Fair weather prevailed. The first op-portunity to choose a United States senator by popular vote and the con-gressional contests aroused as much interest as the struggle for the gover-norship. Delegates were chosen also to a State constitutional convention which meets next year. The polls close at 5 p.m. and early indications of the general cities that used voting macondition. This is also the first com-plaint of the kind to be made. Numerous complaints about service of water companies are also on file, it having been found that in some lo-calities water supplies are low. STEELTON SNAPSHOTS By Associated Press Oklahoma City, Okla, Nov. 3.—Fair weather in Oklahoma aided in bring-ing out a heavy vote to-day. An un-usual feature of the elections was the heavy Socialist vote reported in cot-ton-growing counties. Because of a suit a few months ago that Thomas Pryor Gore. United States senator, said was intended to injure him po-litically, much interest was mani-fested in his contest for re-election on the Democratic ticket. Opposed to him were John H. Burford, Republican, and W. O. Cromwell, Progressive.

WHAT CATARRH IS

It has been said that every third person is troubled with catarrh in some form.

Science has shown that nasal catarrh indicates a weakened condition of the body; that the secretion of the mucous membranes are quickly affected, and local treatments in the form of snuffs and

treatments in the form of shuns and vapors do little, if any good. To correct catarth you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmfuldrugs. Tryit.
