More than a dozen uncon-scious men were carried down the fire escape and extension ladders. Fifteen panicky men on the top floor were quieted by firemen and they crawled perilously along a narrow edge to a wondow of a building ad-joining. Others from this floor and the one beneath were carried down ladders to the street. Within thirty minutes the fire was out. The British public,' however, is not left without some crumbs of comfort, as Berlin officially admits the loss of the cruiser Yorke, blown up by a mine near Jabe, one of the outlying defenses of Wilhelmshaven, while in shipping circles in London it is declared that the career of the German cruiser Koenigsburg in the Indian Ocean has been ended. Sir Percy Scott, England's greatest gunnery expert and a champion of the use of submarines as against dread-noughts, has rejoined the admiralty. As he has been known in the past as a supporter of Baron Fisher, it is ex-pected that he will uphold the new policies already inaugurated by Fisher.
