**War in Bible Lands Presents Problems**

Religious Factor Assumes New Importance in Region of Many Faiths.  
By the Religious Rambler

As outlined in this column many weeks ago, Turkey has become embroiled in the war, and a whole train of religious complications have ensued. Once more the blood-stained soil of the Holy Land will send to heaven the cries of the desolated and the dying. The ears of Christendom are keenly alert to news of the places about which we all learned from the Bible.

One of the earliest dispatches reported fighting at Gaza, where Samson carried off the gates of the city. Turkish troops have mobilized around the Gulf of Akaba and the Sinai Peninsula, and they are quite likely to have trouble with their commissariat as did the children of Israel when Moses led them over the same ground, more than three thousand years ago. Turkish troops have been concentrated at Mosul on the Tigris—which is across the river from ancient Ninevah—say the same day's dispatches, and are moving from there toward Egypt.

The average reader has no conception of the hundreds of miles of desert travel involved in this, and by troops inadequately equipped and provisioned. All of Palestine proper is astir with the movement of Turkish troops.

**How Jews are Involved.**  
Private advices which I have been receiving from the Holy Land indicate widespread distress and devastation caused by the wholesale deportation of all men, Christians and Moslems alike, between the ages of eighteen and forty-two. It appears that the Jewish colonists in Palestine are especial sufferers, and there have been actual deaths from starvation among those in the holy city itself.

The reason for this is clear. Most of the more than sixty thousand Jews in Jerusalem are from Russia, Roumania and Germany, countries affected by the war. Their source of livelihood has been the "portion" which they have received through the mails. War, and Europe's financial paralysis, has summary stopped this.

Very many of the colonists are old folk, who have gone to the Land of Promise to spend their declining years and they are unequal to the special exertions necessary to secure funds or to leave the country. Comparatively few of these Jewish settlers are Americans; but if relief goes to them it will have to be sent chiefly from this country.

One bright prospect appears on the horizon for those Zionists who may survive to realize it. Defeat for Turkey means disintegration. Palestine would then pass from Moslem control, probably into the hands of a commission of the powers with considerable self-rule for the inhabitants. Thus the vast burden of Turkish authority and exactions would be lifted from the Jews in the Holy Land. They would be free to colonize to the full extent of their ability. It might even be that at least a part of Palestine would become a Christian-Jewish democracy, with full religious tolerance. The site of David's temple, which is now the Moslem Mosque of Omar, may pass once more into the hands of the Chosen People, and worship be re-established there according to the laws of Moses.

The Christian dream of restoring the cross to the Mosque of St. Sophia at Constantinople is likely to be realized. Time brings dramatic changes, but the fulfillment of the magnificent enterprise of the Crusaders of the Middle Ages, after these many centuries, would thrill the imagination of Christiansom.

Meantime, though, the Christians in Turkey are destined to suffer severely because of the war. With Turkey in conflict with most of the great powers which have hitherto protected Christians from Moslem fanaticism, the Mohammedan population will, feel free to wreak their hatred upon de-Catholics, the Greeks, Catholics, the Armenians, the Chaldeans, Jacobites, Copts, Nestorians, Maronites and protestants (such are some of the many varieties of Christian faiths in the Holy Land), will all feel the bloody reprisals of fanatical Moslems. Added to the deadly blight of poverty will be the worse horror of persecutions and massacres.

**Americans Affected**  
No nation outside of the Levant has citizens and property more widely distributed over the Turkish Empire than the United States. The American Board and Presbyterian missionaries are found dotted over large parts of the extensive territory of the Turk, from Mardin to Constantinople. Whenever there is a mission there are native Christians and American property to be protected. And the missionaries traditionally stay by their

posts. Now that the capitulations have been cancelled by Turkey, who can tell what will befall?

Along the Mediterranean, in unfortified cities, are the great American mission schools, with Syrian Protestant College, of Beirut, at their head. In Sidon and Tripoli and Alexandretta and Meysina and Tarsus (a few miles in from the coast), and Smyrna there are important mission stations of the Americans. In most of these places there are also German missions. Both Haifa and Jaffa have German religious colonies; while on both ends of Mount Carmel are monasteries of the French Carmelites. The great American colleges at Constantinople are outside the city, and are the most needful, so long as the Dardanelles is held by Turkey.

There is possibility that a deliberate effort may be made to embroil the United States in the present strife by attacks upon its citizens and vested interests in Turkey. Certainly the complexity of the situation for this country is vastly increased.

**What of a "Holy War"**  
As I have more than one pointed out, the possibility of a general "Holy War"—the uprising of all Moslems everywhere against all Christians—is so remote as to be almost negligible. The knowledge is general among Moslems that the Sultan is not a true Caliph, for though he is the keeper of the green flag of the prophet, yet in his veins runs none of the blood of Mohammed or of his tribe of Korshid.

Moreover, the solidarity and simplicity of Islam has been broken by modern civilization. Every Moslem in Egypt knows that life and property are safer under British rule than under Turkish; and that religious freedom is complete, while prosperity is greater. Over ten thousand caravan fires on the road to Mecca the Indian and Egyptian pilgrims have contrasted the protection and assistance given them by Britain with the tyranny and extortion which they suffer in Turkey.

So, while Turkish Moslems may massacre Christians, and cry aloud for a "rehab" or holy war, yet the Moslems of other nationalities—Indians, Egyptians, Arabs and Malays—will be slow to jeopardize both their civil and religious liberty by attempting to make war against their own national rulers.

With enhanced interest and anxiety, the people of America will read the war news from the land which embraces the oldest empires of history.

of the school in the junior class were barred from the chemical laboratory because of the inability to get supplies on account of the war. The entire class is now working in the room, the necessary supplies having been received.

**Mummers to Hold Big General Meet Tonight**  
Interesting reports are being prepared for the general meeting in the interest of the Mummers' parade tonight. At the meeting delegates from all local organizations will report, and details will be taken up for the big time. Letters were sent out this week to organizations in surrounding towns. Everybody has been invited to join with Harrisburg in the big parade. The committee on prizes will meet early next week. The association will distribute \$1,000 in cash prizes.

**A Hint for Coming Maternity**  
In a little book designed for expectant mothers more complete instruction is given in the use of "Mother's Friend." This is an external embrocation applied to the abdominal muscles for the purpose of reducing the strain on ligaments, cords and tendons.

In thus bringing relief and avoiding pain great good is accomplished. It is so warmly recommended that it has a most beneficial effect upon the nervous system and thousands of women have delightedly told how they were free of nausea, had no morning sickness, and went through the ordeal with most remarkable success. "Mother's Friend" has been growing in popular favor for more than forty years. In almost every community are grandmothers who used it themselves, their daughters have used it and they certainly must know what a blessing it is when they recommend it so warmly. Strictly an external application it has no other effect than to ease the muscles, cords, tendons and ligaments involved hence is perfectly safe to use by all women. It is used very successfully to prevent caking of breasts.

"Mother's Friend" is prepared in the Laboratory of Bradford Regulator Co., 404 Lamar Bldg., Atlanta, Ga.

**Penny Will Fumigate All Cattle Cars Here**  
As a prevention of the spreading of diseases among cattle shipped over the Pennsylvania Railroad lines, special orders were issued to fumigate every cattle car reaching Harrisburg and the Enola yards.

On the arrival of a shipment of cattle at the local stockyards, the stock is to be removed to the stables and the cars are to be cleaned and fumigated. A thorough examination is also to be made of each head of cattle.

**31 OILS ANYTHING**  
**CLEANS, POLISHES EVERYTHING**  
**PREVENTS RUST EVERYWHERE**

3-in-One has been for 15 years the Old Reliable, largest-selling home and office oil. It is light enough to oil a watch; heavy enough to oil a lawn mower. On a soft cloth it becomes an ideal furniture polish. Makes a yard of cheese cloth the best and cheapest *Dishless Dishing Cloth*.

And 3-in-One absolutely prevents rust or tarnish on all metal surfaces, indoors and out, in any climate.

**Free 3-in-One.** Write today for generous free sample and the Dictionary of uses—both free to you. 3-in-One is sold everywhere in 3-size bottles: 10c (1 oz.), 25c (3 oz.), 50c (5 oz.), 75c (7 oz.), 1.00 (10 oz.). Also in patented Handy Oil Can, 25c (3 1/2 oz.).
