GREAT BRITAIN HAS HER INVING AT SEA

Russian Advances Excites Wonder and Admiration of British Observers

London, Nov. 10, 10.10 A. M.—The fog which during the past few days has hampered military operations along the Aisne seems to have blotted out also so far as the receipt of news is concerned the entire zone of continental fighting.

The direction in which German reinforcements are being moved, whether to the east or to the west, continues to be a prolific source of discussion which is not likely to be settled until the full report of the Russian operations along the German border is known.

The phenomenal speed of the Russian advance excites the wonder and admiration of British observers.

Petrograd reports lively fighting in the Caucasus, while from both Vienna and Nish have come dispatches setting forth the resumption of activities along the river Danube and the river Drina.

Both sides claim successes here, but neither indicates any decisive result.

In Western Belgium patrols of the allies are reported to have penetrated into the region of Ostend. This report, if correct, would indicate that the Germans have abandoned all attempts to proceed along the coast and are to-day concentrating their attacks on Ypres.

In South Africa General Christian De Wet has gained a small success over a detachment of government troops, while his colleague, General Beyers, has suffered a reverse.

The Berlin official reports claim an important victory over the Russians in east Prussia, who have been pushed back over the border by General von Morgen.

M'FARLAND TO TALK OF SHADE TREE ACT

Council Invites Former Commissioner to Discuss It; Acquiring Park Land

J. Horace McFarland, former city park commissioner and father of the shade tree commission act of 1907, will meet with City Council next Tuesday to explain the various provisions of the law.

The city commissioners, who have been considering for several months the advisability of appointing a shade tree commission here, are not entirely clear as to certain requirements and phases of the act.

At to-day's session of Council it was decided to invite Mr. McFarland to appear before the commissioners for the purpose.

One of the features which appears objectionable, according to Commissioner M. Harvey Taylor, is the possibility that one man may have to pay for the planting and care of a tree on the pavement in front of his house which throws a shade on his neighbor's property and not upon that of the man who pays.

Council also postponed action on the adoption of a resolution authorizing City Solicitor D. S. Seitz to acquire deeds from owners of unacquired park land between Kelker and Maclay streets upon agreement by the city to bear the cost of the paving assessment for the western half of Front street in front of the properties in question.

City Solicitor Seitz will meet with Council next Tuesday and discuss the problem. One property owner has objected to the filling out of the River front park because he has never given his assent to the city.

In offering an opinion on the subject at the request of Park Commissioner Taylor, Mr. Seitz suggested one of three plans for taking over the park land—condemnation which would cost from \$500 to \$1,000; sale of the ground by the sheriff's paving lien, costing about \$100; and the settlement of the paving assessment in exchange for the title to the park land.

Council decided upon suggestion of the Chamber of Commerce not to send a moving picture film of Harrisburg to San Francisco's 1915 exposition. Sealer of Weights and Measures Reed submitted his report, showing that 6,374 inspections were made, 564 were sealed, and 710 condemned.

HARD TIMES ARE RESULT OF BUSINESS PLOTS, SAYS BRYAN

Washington, D. C., Nov. 10.—Closed factories and hard times are not grim realities brought on by political and economic developments of the last two years. These deplorable conditions are the results of conspiracies by protected manufacturers to discredit the new tariff law. You can take the word of William J. Bryan, Secretary of State, for this.

American manufacturers, according to the Secretary's theory, deliberately suspended operations, cut off their own sources of revenue and discharged their men for the effect it would have on the elections.

The strange thing about Secretary Bryan's charge against American manufacturers is that, if what he says is true, the Wilson administration has made no move to expose the guilty persons.

DEMOCRATIC LEADERS (Wilkes-Barre Record)

The Democratic Philadelphia Record gave support to the State Democratic ticket this year but its heart was not in the fight. The most prominent Democratic journal in Pennsylvania has no liking for the Palmer-McCormick crowd of so-called reformers. It has said so on many occasions.

Before the campaign opened it pleaded with the reorganizers to step down and out and open the way for genuine reorganization of the party, but its pleas went unheeded. Now that the election is over and plain speaking cannot change the result, the Record reveals its true feelings and what it says is not at all complimentary to the leaders or their campaign managers.

Added to what the Record said a few days ago we find the following in Saturday's issue:

As a matter of fact the Democratic party of Pennsylvania had no platform of principle in the late campaign. The draft of a platform was prepared by the so-called leaders of the party in advance of the meeting of the State committee some months ago, and submitted to a subcommittee of the Democratic party of the State committee. Before the subcommittee could report the State committee was adjourned and no action was ever taken on the so-called platform. The leaders of the reorganized, so-called party, a bossed party were afraid to permit the members of the State committee to adopt the platform. They were afraid the committee might favor a platform offensive to some of the Republicans.

It was due to this hocus-pocus business that a local option plank was included in the platform against the wishes of a good many members of the State committee. During the campaign other Democratic newspapers had the audacity to say that local option could be achieved only by voting for the entire Democratic ticket, when in fact none of the candidates felt that they were bound to a platform received in abortion. The situation in Luzerne was typical of the situation in many other sections. Here too the cry was raised that the Democratic party was the local option party, and Republican candidates who had declared specifically for local option were hypocritically denounced, when in fact there was not a single Democratic candidate for the Legislature who stood squarely on the local option feature of the platform.

Plain Questions to Harrisburg People

Every Harrisburg Reader Will Admit the Soundness of the Logic

Would they confirm their statements after years have elapsed if their experiences did not show the remedy to be deserving of it? Statements like the following must carry conviction to the mind of every reader:

Mrs. M. E. Keller, 1322 North Second street, Harrisburg, says: "I can confirm every word of my former statement concerning the benefit one of my family has had from Doan's Kidney Pills. I took them myself several years ago and they benefited me so much that I know they are all they are claimed to be. I am glad to recommend Doan's Kidney Pills to others."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name that Mrs. Keller had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement
