WAR!

We are not responsible for the War in Europe--but we are responsible for the War on Patent Medicine in Harrisburg. We have been cutting and slashing the prices ever since we opened our store thirty years ago. It has certainly been some battle. At the same time we feel as if our fight has been successful. We have saved our army of customers thousands of dollars during this battle of cut prices. We hope this cut-rate war will go on forever, and as long as you allow us to be your commander-in-chief **WE WILL DEFEAT OUR ENEMY, "HIGH PRICES."** Our present army is not quite large enough. We want thousands of new recruits to follow our flag of low prices. This is our call to arms. Join our army for low prices and help us defeat the enemy, "HIGH PRICES."

LOVE, HAIR AND MARRIAGE

From the beginning of romantic history down to the present day, every story of love has spoken of the maiden's hair as one of her chief charms. Fair locks amply pay for the care and time used in keeping them beautiful and care is all that is necessary for developing and retaining hair beauty. In washing the hair it is not advisable to use a makeshift but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of carthrox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Advertisement.

On each evening there will be two vaudeville shows and the school talent, assisted by local persons, promise a fine program. An overture by the Tech orchestra will open the vaudeville show, and this will be followed by an acrobatic act. A local artist will furnish popular songs and dances for several of the acts.

THE JEWELS OF A STAR

Miss Fannie Ward, of "Madame President" fame, owns one of the finest private collections in the world.

A SIMPLE WAY TO REMOVE DANDRUFF

Prevent Falling Hair and End Itching Scalp.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it straggly, straggly, dull, dry, brittle and lifeless, and everybody notices it.—Advertisement.

Some of the finest jewels in the world are owned by Fannie Ward, star of "Madame President," who has the unique distinction not only of possessing one of the most valuable collections extant, but one which has associated with it a deal of interesting history. In Europe, India, Australia and South Africa the gems were gathered. In many instances, as in the case of all her gowns, Miss Ward designed the settings, purchasing wherever fancy dictated, but her collection contains many gifts from prominent persons the world over, gifts of homage to her beauty and talent.

Diamonds and pearls are Miss Ward's favorites, yet in the number, and less gems she possesses are several pigeon blood rubies, a wonderful turquoise coronet, and an embellishment of gems such as shown in the remarkable gown, cunningly devised of platinum to cover the whole torso, yet so linked that it may be taken apart and worn as separate coronets, tiaras and stomachers. Her rings are very unusual. Instead of the gold band she has circlets of tiny jewels set in platinum. One of her rings has a large pendant pearl hanging from it while another has an "old mine" diamond suspended in the same fashion. This stone, which originally was as large as a hazelnut, was sacrificed in the cutting so as to make it barrel shaped. It is the only stone in existence of that shape.—Advertisement.

PASSENGERS UNDER ARREST

London, Nov. 10, 8.35 A. M.—A telegram from Flushing states that the Dutch steamer Administratie de Bats, which left Antwerp with forty-five pas-

sengers, was stopped by German officials off Port Marie, near the Dutch frontier. The ship was thoroughly searched and all men between the ages of 18 and 30 years were arrested, although they had authentic passports.
