EXPLOSIVE DRAGGED AGAINST SUBMARINE

British Believe They Have Two German Vessels Which Have Menaced Their Navy

Special to The Telegraph London, Nov. 14.—The Standard publishes a report passed by the Press Bureau that two German submarines have been lost recently.

Two submarines which have been raiding in the English Channel have been satisfactorily accounted for.

One of these submarines has been carrying out a series of daring reconnaissance missions in the vicinity of Dover and a patrolling cruiser reported attempts by this German craft to send a torpedo against her.

Patrol flotillas from Dover began a search for this submarine. Naval men had reason to believe that the vessel was saving power by remaining on the bed of the sea for lengthy periods.

The keenest sort of vigilance was kept and due preparations made. During one of the extremely calm days for which the end of October was notable bubbles were seen rising and dredged over this area in a similar manner to mine sweeping, but using a powerful chain with explosives attached.

This chain was dragged to the bottom and caught the submarine if lying there.

After patrolling several times over this area, there was a heavy explosion. This was followed soon by rising of large quantities of oil to the surface. Those who took part in the operation have no doubt that a German submarine was blown up.

The other was trapped and sunk by shells.

RECESS SHOOTERS

Somebody Seems to Find Pleasure in Making the Bullets Whiz About Folks' Heads

Residents of the lower end of Steelton have complained to the police authorities about the amount of reckless shooting in this locality at night.

It is a nightly occurrence, say residents of this section of town, to hear the crack of a rifle or revolver and hear the whiz of a bullet flying through the air.

Most of the shooting, it seems, is done from the hill back of South Third street and in some of the alleys in the neighborhood of Chambers street.

While no person has yet been injured by flying bullets, travel in this section of town after 10 o'clock is not very pleasant, according to some of the residents.

In a number of places bullets have struck houses and in one case narrowly missed striking a man as he was sitting reading a paper by his fire.

Detective Irvin Durnbaugh and a number of police officers are on the lookout for the shooters and if anyone is caught using firearms prosecutions will be started.

Meanwhile it was indicated that Villahermosa and his army were being hurried to Tampico, where they would be the bloodiest yet of the Mexican conflicts.
