"Oh, Warren, I don't know what to do about it. Why, the thing is ruined, and I had planned to wear it over to the Stevens' to-morrow night," and Helen, with a little cry of despair, threw the dress down on a chair and began to wring her hands nervously. "Now, don't begin any of those harpies," said Warren unfeelingly. "Get down to business and tell me how it happened—there must be some way to fit it."

Wilkes-Barre Stove and Pea \$5.95 No one kind of coal will give good results under every condition. Wilkes-Barre Stove is usually recommended for Steam Heat and Hot Water Furnaces. Under ordinary circumstances this is a very good coal and if we know nothing about the heating plant we always say "Use Wilkes-Barre Stove Coal." But there are houses where the Stove size is too large. It takes too long in the morning for the fire to come up and you must have a strong draft all day if you want heat. For such a residence our Wilkes-Barre Stove and Pea mixed in equal amounts will give much better results. The small Pea size catches up quickly and the dampers need not be opened wide to have good regular heat. United Ice & Coal Co. THE WAR BOOK IS NOW READY Our Readers Can Now Obtain the Book That Reveals the Causes of the War The dogs of war are loosened in all Europe! A new map of a continent is in the making. Nations will be obliterated and new nations will be established. Europe is running red with blood, while field-gun and cannon belch forth fire and death, and men are shot down like rows of clay-pigeons. Before the newspaper bulletins—boards in European cities thousands of frenzied men and women are shouting their national anthems and urging fresh troops and regiments into the cataclysmic fray. The inevitable has come. The burden of preparation has staggered Europe. There will arise from the whirlpool new dynasties—new methods—new purposes. Do you know the long string of events—like a cancerous growth—that have brought this about? Do you know the causes of this greatest war of history? Do you understand it? The great book, "The Story of Europe and the Nations at War," which tells the whole story, is now ready for distribution.
