

SURE WAY TO SAVE TEETH

"Never pull a tooth" is the slogan of the American dentist and the world accepts that slogan and the light comes well. You will find him in the courts of Europe and by the places of China, Japan, India. The best authorities affirm the mouth is the breeding place of disease germs—these little microbes eat away the outer shell which renders the teeth discolored and subject to decay.

It is a well known fact that many teeth now lost, broken or loosened out of the mouth, could have been saved to their owners had precaution been taken in time. One lost tooth begets another lost tooth. When you smile people should see clean, white, healthy teeth. You owe it to yourself socially or in business to have such teeth; otherwise people will say "it's too bad their teeth are in such shocking condition."

Pyorrhea is one of the baffling disorders in dentistry. You will notice it in the loosening of the teeth, swollen gums, tender mouth, bleeding, ulceration and aching gums, bleeding gums. Now these conditions will disappear, never to return again, if you will go to your dentist and get four ounces of fluid ergan (no more will be needed), put a teaspoonful in your mouth, wash, save to the owners, had precaution been taken in time. One lost tooth begets another lost tooth. When you smile people should see clean, white, healthy teeth. You owe it to yourself socially or in business to have such teeth; otherwise people will say "it's too bad their teeth are in such shocking condition."

VILLA CONTINUES HIS MARCH TO CAPITAL

Garrisons All Along Line Are Turning in to Help Rebel Chief

TOWN OF LEON EASILY TAKEN

Northern Army Expected to Reach Mexico City With Very Little Fighting

By Associated Press

Washington, Nov. 19.—Two thousand Carranza troops voluntarily surrendered to General Villa when he took Leon, and other garrisons all along the line are changing allegiance to the northern chief, as he marches on toward Mexico City.

American Consul Agent Carothers, with Villa, reported there had been no fighting since the southward movement began and ventured his opinion that there would be no hostilities because the range and file of the constitutional army seemed to favor Villa. Leon was taken yesterday without the firing of a shot and other reports tell of the occupation of Irapuato, and Guanajuato, also without resistance.

No report was received here of the alleged interruption by Villa of the telegraphic conferences between General Gutierrez and General Gonzalez, but it was thought in official quarters that Villa had ordered all telegraphic communication with the troops south of him to cease so that the enemy would be unable to learn of the coming of his forces.

The general expectation in official circles is that General Villa would reach Mexico City without much difficulty, fighting perhaps one battle as his troops clashed with those of Obregon or Gonzalez near the capital.

STATE ROAD MEETING IS BEING PLANNED

Supervisors of Dauphin County Hear Practical Talks at Session in Courthouse

J. W. Hunter, deputy of the State Highway Department, addressed the Dauphin County Supervisors' Association at a session in the grand jury room of the Courthouse to-day.

Hunter told the supervisors what was needed in the advancement of the cause of good roads and urged the cooperation of the township supervisors in the entire State. He said that a State meeting of the county supervisors would probably be held between now and January.

President E. D. Messner gave the opening address and said that he had done all in his power for the betterment of the roads in the county. J. C. Nissley, Assemblyman-elect, then spoke to the supervisors and pledged his support to the supervisors in the cause of good roads. After his address Frank B. Bosch, president of the Motor Club of Harrisburg, condemned the township supervisors and said that they were responsible for the good or bad roads that were in their township.

Officers were re-elected as follows: President, E. D. Messner; Upper Paxton vice-president, J. M. Zook; Perry, second vice-president, C. F. Harman; Wayne, secretary, I. F. Bogner; Middle Paxton; treasurer, George August, Lower Paxton.

New York, Nov. 19.—How the German cruiser Karlsruhe set its traps for British merchantmen and vessels flying the flags of other nations at sea with Germany was told to-day in detail by one-time passengers of the Laipziger & Holt's liner Vandevoort captured by the Karlsruhe while on a voyage from Buenos Ayres to New York. These passengers arrived here on the steamship Sao Paulo from Para.

Tabernacle service at 2 o'clock by Dr. Stough.
4 o'clock, meeting for girls at the Steulton high school by Miss Saxman.

text of the sermon in which Dr. Stough brought his hearers face to face with the problem of death, and lead them through the valley of the shadow to the brilliant promise of redemption through Christ, leading to "that Elysian hill where the sun never sets, nor clouds obscure, where there is no more sorrow, tears nor separation, and where the shadows never fall."

As his sermon rose and fell in its waves of emotion and passed from one crisis of pathetic pleading to another and concluded in the presentation of the noble and heroic man, who is the Way, the Truth and the Life," with the appealing call for confession, the varying effect on the audience could be plainly observed. Many eyes glowed with the certainty that the militant evangelist as he strode back and forth on his platform, and the most stolid showed at times the stirring of the soul within.

What the Faces Showed
Some faces were blanched with fear, some downcast in solemn thought and others stared in wide-eyed wonder at the power of the certain that were fierce, worried faces above restless, shifting bodies as the consciences of some were stirred at the conviction of sin. The eyes of the man who became wet before the end of the service, and were few that were not touched at some part of the sermon.

"Death," he said, "is one of the tremendous solemn realities that we do not care to read or hear about, but as a soul you must face it on your course to eternity. It is appointed once for man to die, and death is on our trail with the certainty that we will some day meet God face to face. We are separated from death at all times by only a few seconds; at each count of six, at every breath we fight with death. The margin of life can be upset by the least change in temperature, the action of the heart or the disturbing of the delicate balance of the physiological facts of life. It is a fight from the cradle to the grave."

Deathbed Scenes
He gave a graphic description of a deathbed scene in which the patient heard his death warrant by the doctor and sees the drawn haggard faces of his loved ones watching over him. As he slowly creeps up the ragged hill of life to convalescence, the man recovers and lives a few years more only at last to find himself slipping into the trap of old age, the assassin that ends all.

"Your thoughts of God to-night prove that you need preparation. You are not ready to meet God. You have blasphemed, desecrated the Sabbath, neglected your Bible and set at naught the church. Your thoughts and fear of death itself prove that you are not prepared to-night. You shudder at the mention of the shrouds, the death chamber, the undertaker, the hearse and the mourners. You try to close your ears to my talk, but at the same time you know you are to be the food of worms."

Is Heaven For You?
"Your thoughts and hope of Heaven to-night prove that you are not prepared for that abode just as you are not prepared for the land fairer than day, with its streets of gold and its many mansions, that paradise of beauty of which your mother sang when she rocked you in the cradle, the place where she has gone before, that place is not for you if you are one of those who would rather play bridge-whist and attend the theater and parties than attend to your Christian duties."

"But do not mistake death as my text to-night, it is God I am talking about. It is appointed men once to die but that is not all, after that is the judgment. Dare you face your record in that day?"

He drew a picture of the deathbed of a man not prepared for the future who felt the throes of the journey alone. He described the death rattle of the victim in the throes of a spell of angina pectoris, one of the most severe and painful forms of heart disease. He said that he had seen the man on the chair on the platform and brought shudders to the audience, as he asked how many would have to go out to meet God alone as this man had done.

Field Marshal Roberts Is Buried in London

London, Nov. 19, 12:12 P. M.—The body of Field Marshal Lord Roberts, borne on a gun carriage, moved slowly through the streets of London to-day to its last resting place in St. Paul's Cathedral.

The streets were lined with troops, while hundreds of thousands of civilians stood with bared heads in a cold rain as the funeral cortege went by.

The cortege reached St. Paul's at noon, where funeral services were held before a reverent throng that included King George. The body will be interred alongside the remains of Wellington, Nelson, Wolsey and other famous Britons.

Lord Roberts died from natural causes last week at the headquarters of the British army in France. He was 82 years old.

The men's, publicity and shop committees will meet in section No. 77 in tabernacle at the close of this evening's services.

The "booster chorus" with a membership of 2,200 boys and girls, will sing with Professor Spooner this afternoon and to-morrow afternoon at 4:15 in the tabernacle.

Aunt Sally's Advice to Beauty Seekers

Red Nose. The nose is a more delicate organ than most people imagine. It should be touched as little as possible. For undue redness the treatment recommended in following paragraph will be found effective. Apply without rubbing.

Muddy skin. The safest, surest and surest method of giving a clear, healthy, transparent appearance to the complexion is to cleanse the mottled wax every night for from one to two weeks. This wax, obtainable at any drug store (one ordinary soap), actually takes off a bad complexion, gently and gradually absorbing the impurities of the skin. The new skin then in evidence is as fresh and velvet as a young girl's. The wax is applied like cold cream and washed off mornings.

Wrinkles. A harmless lotion made as follows has been found very effective in cases of wrinkles and crow's feet: Powdered saxolite, 1 oz., dissolved in witch hazel, 2 oz. Rub the face in this daily for a while.—Woman's World.
