How Thin People Can Put On Flesh

A New Discovery Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food didn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction. Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and add every one of those single Sargol tablets. In two weeks note the difference. Five to eight good pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares for the blood in easily assimilated form. Thin people gain all the way from 10 to 20 pounds in a month. While taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of elements known to produce fat. They come 40 tablets to a package, are pleasant to take, and are sold by all druggists in Harrisburg and vicinity. Write for a free, absolute guarantee of weight increase or money back.—Advertisement.

French Remedy Aids Stomach Sufferers

France has been called the nation without stomach troubles. The French have for generations used a simple mixture of vegetable oils that relieve all stomach and intestinal ailments and keep the bowels free from foul, poisonous matter. The stomach is left to perform its functions normally. Mr. Geo. H. Mayr, a leading druggist of Chicago, cured himself with this remedy in short time. The demand is so great that he imports these oils from France and compounds them under the name of Mayr's Wonderful Stomach Remedy. TO MOVE 8th WARD HOTEL TO WEST END

Patrick Sullivan to Try December 8 For North Third Street Site

Another effort to move an Eighth ward hotel to the western end of the city will be made Tuesday, December 8, when the Dauphin County Court will be petitioned by Patrick T. Sullivan to transfer the license he now holds at 727-729 State street to 1819 North Third street, the southeast corner of Third and Dauphin streets. Sullivan, it appears, must soon vacate his property in order to make way for the razing of buildings for the extension of the Capitol Park zone. His effort to get into the West End will be the second attempt of the kind made by an Eighth ward hotelier, as more than a year ago E. Leslie Potter, whose hotel was located on the corner of State street from Sullivan, tried to locate at Muench and Third streets. So much opposition was raised to the transfer of the hotel to that point, however, that Potter withdrew his application and finally got established at Second and Washington streets. Wells' Creditors to Meet Nov. 30.—John P. Olmsted, federal referee in bankruptcy, has fixed November 30 at 2 o'clock for the meeting of the creditors of Charles R. Wells, Marysville, adjudicated a bankrupt November 18. The creditors' session will be held in the referee's office, 7 North Third street, where their claims will be heard and a trustee will be named. Preparing Trial List.—By Saturday District Attorney M. E. Stroup expects to have ready the trial list for the continued term of September quarter sessions, which begins November 30. Nearly a hundred cases will be listed, including three murder trials. The argument list will be completed tomorrow and argument court will be held Tuesday, November 24. At the Register's Office.—The will of H. M. Holstein was probated to-day and letters on the estate were issued to his son, Howard O. Holstein.

VIVID WAR PICTURES OF PERMANENT INTEREST

Superb Illustrations in the Book Which We Are Distributing One of the many valuable features of "The Story of Europe and the Nations at War," which we are distributing to our readers, is comprised in the magnificent collection of historical pictures of current and permanent interest which the book contains. In this collection are photographs of the rulers, great statesmen and great military and naval leaders of all Europe, including both those who have made their impress upon world events of the last century leading up to the present conflict, and those who are foremost in the public eye to-day. They show also the scenes of great battles of history described in the book, and trace the wonderful developments of modern instruments of warfare from the comparatively crude implements with which the great Napoleon fought his battles and achieved his victories. No similar collection of vivid photographs has ever before been brought together in a single volume. These full-page halftone engravings are printed on specially finished paper which brings out all the beauty of their execution and details. The illustrations also include a large map in color. Be sure to clip the coupon on another page and obtain your copy of this remarkable book containing the history of Europe and the causes and issues of the present war.

"Safety First"

To no better service can this timely phrase be applied, than to our new elevators. They were installed that we might give better service to the public, but first of all, absolute safety was to be considered. We found many important devices that could be employed in making them a standard of modern safety, and the difference from those installed but a few years ago is surprising. They are safe because they are encased in a solid, fire-proof wall. They are safe because they are equipped with the most modern safety devices. They are safe because they cannot leave the floor unless the doors are closed tight. This prevents anyone from falling into the shaft. They are safe because we employ only competent operators.
