

### Faces As Fair As An Orchid

Are Possible When Stuart's Calcium Wafers Are Used After Meals to Clean Up Skin Eruptions and Discolorations

When a face is covered with blotches, liver spots, pimples, blackheads, etc., Stuart's Calcium Wafers will act like some magical charm. However, there is nothing magical about them. They are nature's own way of cleansing the human blood and preventing it from filling the surface of the body—the skin—with pimples and little skin eruptions.

"With a Face as Fair as a Day in June."

The abolishing of all skin disorders must begin with the blood. Lotions, salves, cosmetics, etc., will do no material good. The trouble comes from within and there the remedy must be applied.

If you really desire quick action and at the same time a common sense natural, harmless blood purifier, then Stuart's Calcium Wafers is this remedy.

The correct and best blood purifier known to science is—Calcium Sulphide. This great cleanser is contained in proper quantities in Stuart's Calcium Wafers and that is why all blood troubles and skin blemishes rapidly disappear after their use.

An unsightly and pimply face due to impure blood is one of the most disgusting sights one can see, and yet all about us, upon the streets, in the theater, when traveling, etc., we see these horrible results.

There is no need for this condition if you will take Stuart's Calcium Wafers daily and keep all salves, lotions, cosmetics and other harmful preparations from clogging the pores.

Every first-class druggist in this country carries Stuart's Calcium Wafers, which are pleasant to take, harmless, and may be obtained for 50 cents a box. A small sample package will be mailed free by addressing F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

### PUBLIC SERVICE WANTS TO BE SHOWN

Not Making Recommendations Except Where the Necessity Is Clearly Established

### WILKES-BARRE CASE SETTLED

Commission Fixed Portions of Cost of a Bridge When Parties Could Not Agree

The Public Service Commission has ruled that it must be "shown" and last night dismissed the petition for additional train service on the East Penn branch of the Philadelphia and Reading Railway. The petitioner—C. C. Fiscus, of Morristown—wanted train accommodations from the city of Allentown to his home after the train from New York reaches Allentown at 7.35 p. m., but there was no testimony offered to show to what extent people would take advantage of such train service in the evening, or to what extent the demand for it was based upon the needs of the community. The commission's view is that it would not be reasonable to compel the respondent to incur the expense of installing an additional train for service that is not more clearly and fully established by the complainant.

The commission issued an order approving the petition of the city of Wilkes-Barre for an overhead bridge from Kiddor street to Butler street, across the tracks of the Lehigh Valley, the Delaware and Hudson and the Central Railroad Company of New Jersey. The parties to the proceeding failed to agree upon the respective proportions of the expense each should bear, and the commission ordered that it should be paid in the following proportions: City of Wilkes-Barre, 40 per cent.; Lehigh Valley, 25 per cent.; Delaware and Hudson, 17 1/2 per cent.; Central Railroad Company of New Jersey, 17 1/2 per cent. The commission adds that it will expect the city of Wilkes-Barre to exercise reasonable care and diligence in seeing to it that the contract for the construction of the viaduct will be awarded to the lowest responsible bidder.

The commission also ordered the Pittsburgh, Harmony, Butler and New Castle Railway Company to provide adequate sanitary facilities for its patrons at its station in the borough of Ellwood. This improvement is to be made in conformity with plans satisfactory to the health officers of the borough and to be completed by January 1 of next year.

The question of what service an industrial railroad must render to enable it to receive allowances for services from a trunk line was placed before the commission last night for determination. Attorneys for trunk lines and railroads owned by various steel and other manufacturing corporations argued the proposition before the whole commission practically all day, hearings having been held on appeals by a dozen or more "short lines" in the last six months. The question arose last summer when the Interstate Commerce Commission declared the industrial not entitled to allowances and agreements were canceled. The Pennsylvania commission held in the Monongahela Connecting Railroad case that the "short lines were entitled to allowances and a number of more lines appealed for orders to have allowances restored. The commission will give its decision later on.

### Thanksgiving Ode of the Olden Time

Poet in the Quaint Phraseology of Centuries Ago Expressed Gratitude for the Kindness of the Creator. From a "Thankful Heart."

Lord, thou hast given me a cell, Wherein to dwell; A little house, whose humble roof Is weather proof; Under the spars of which I lie Both soft and drie; Where Thou, my chamber for to ward, Hast sent a guard Of harmless thoughts, to watch and keep Me, while I sleep.

Low is my porch, as is my fate, Both void or state; And yet the threshold of my doors Is worn by th' poore, Who thither come, and freely get Good words or meat.

Like as my parlour, so my hall And kitchen's small; A little butterie, and there, A little byn, Which keeps my little loafs of bread Unchipt, unflead; Some brittle sticks or throne or briar Make me a fire, Close by whose living coale I sit, And glow like it.

Lord, I confess, too, when I dine, The pulse is Thine, And all those other bits that bee There placed by Thee; The worts, the purslain, and the messe Of water cresse Which of Thy Kindness Thou hast sent,
