WAR AND FASHIONS

War has moved the center of fashion from France to America, and styles popular with American women are now accepted as the last word in modishness. In footwear, however, American styles have always been supreme and a boot very popular with well-dressed American women is a model shown at the Walk Over Boot Shop, 226 Market street, of patent leather with soft dull leather uppers and straight Cuban heel. The welt sole makes it a splendid style for walking and it may also be had entirely in dull leather. The workmanship on this, as on all Walk Over shoes, is excellent. The price of this model is \$4.50.

## Eye Talks

A Series

By J. S. Belsinger

No. 3

Whoever originated that little expression about a bird in the hand being worth two in the bush took good care of his eyes.

He must have done so, for any man who would think that way would naturally take care of what he possesses.

And what possession have you as priceless as your eyes?

Under normal conditions your eyes should give you no trouble. If you are experiencing the slightest discomfort you should, at once, consult an oculist ---a physician, He will know what your eyes need. Perhaps it will be only a little treatment---perhaps

In the latter instance is when you should see to it that your prescription for glasses comes to the hands of a prescription optician. Pick out one who is thoroughly reliable, efficient and capable---one who in grinding your lenses has the facilities for giving you service above the ordinary.

The correct grinding of the lenses that the oculist orders is important. And the fitting of the frames is quite essential too. That's why we suggest a thoroughly efficient, reliable, optician.

If you are considering eye examination, we shall be pleased to furnish you with a list of Harrisburg oculists. Ask them about us.
