PURE RICH BLOOD PREVENTS DISEASE Bad blood is responsible for more ailments than anything else. It causes catarrh, dyspepsia, rheumatism, weak, tired, languid feelings and worse troubles. Food's Sarsaparilla has been wonderfully successful in purifying and enriching the blood, removing scrofula and other humors, and building up the whole system. Take it—give it to all the family so as to avoid illness. Get it to-day.—Advertisement.

WON'T MIX Bad Food and Good Health Won't Mix The human stomach stands much abuse but it won't return good health if you give it bad food. If you feed right you should feel right, for proper food and a good mind is the sure road to health. "A year ago I became much alarmed about my health for I began to suffer after each meal no matter how little I ate," says a Denver woman. "I lost my appetite and the very thought of food grew distasteful, with the result that I was not nourished and got weak and thin. "My home care were very heavy for beside a large family of my own, I have also to look out for an aged mother. There was no one to shoulder my household burdens, and come what might I must bear them. I thought nearly drove me frantic when I realized that my health was breaking down. "I read an article in the paper about some one with trouble like mine being helped by Grape-Nuts food and acting on this suggestion I gave Grape-Nuts a trial. The first dish of this delicious food proved that I had struck the right thing. "My uncomfortable feelings in stomach disappeared as if by magic and in an incredibly short space of time I was again myself. Since then I have gained 12 pounds in weight through a summer of hard work and realize I am a very different woman, all due to the splendid food, Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. Read the famous little book, "The Road to Wellville," in pkgs. "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.—Advertisement.
