TRAILHITTERS TO ORGANIZE SOCIETY

Stough and Billy Sunday campaigns have been, these trailhitters societies have been formed for the purpose of self-help and to maintain the work of militant nonsectarian evangelism.
Branch of National Society
The local trailhitters society will be a branch of a national organization, which publishes a weekly magazine, The Trailhitters. There will be a board of officers, and regular business meetings will be conducted.
In connection with the trailhitters society, the committee of personal workers so active in the tabernacle services will be definitely organized to maintain the good work among the converts. The Rev. F. T. Cartwright

of the Stough party is now making necessary arrangements among the leading personal workers and he expects to have the committee completely organized before the end of the campaign.

2,600 Hitters to Date
The trailhitters up to date number approximately 2,600, including church members and children. According to the statements of members of the Stough party the results of the last half of a campaign always exceed by great numbers the returns for the first three weeks. The sermons of the evangelist and the work of the local committees are just beginning to have their effect, and according to past experiences hundreds of trailhitters who have been wavering will now begin to respond to the calls for confession. The collections total \$9,246.35, at most half of the \$19,000 needed.

LIVE WIRE WORKERS
Captain M. Neilson and wife, of the Salvation Army, came to this city January 9, 1913, and they are live-wires in saving souls and helping the poor and needy throughout the city. It is no unusual sight to see Captain Neilson leading some poor, wandering child down the streets trying to find its parents and helping sinners to hit the trail. The Salvation Army headquarters are at 522 Race street, where "Cap" and his family reside and hold some of their indoor meetings. Captain Neilson is assisted in his work by Cadet Jewell, of Corry, formerly a prizefighter and trainer.

Mrs. H. P. Motter, of the Methodist Episcopal Church, is one of the most helpful workers in church circles as can be found. She is a live-wire teacher of an organized Sunday school class, fourth vice-president of the Epworth League and president of the Temperance Society of the Sunday school. She has been connected with the preliminary work of the campaign from the beginning as secretary and treasurer of the Hazelton trippers. She is lieutenant of neighborhood prayer meetings, a member of the young ladies' committee and assisted in taking the church census of this city. She is a prominent alto singer in the campaign chorus, a personal worker and usher.

Mrs. C. E. Williams, of Ridge Avenue Methodist Episcopal Church, is a live-wire in religious work. She is president and assistant teacher of the

O. A. B. C. Sunday school class and a member of the Young Women's Christian Association of this city. She is a personal worker and alto singer in the campaign chorus. She has been doing considerable work at factory and outdoor meetings.

George Slothover, of Park Street United Evangelical Church, plays the first violin in the church orchestra and has a prominent part in the campaign chorus.

Stough Pianist Practices Nearly Six Hours a Day

W. P. Erwin, pianist for the Stough campaign party, is proving himself an artist of more than ordinary ability and has all the prospects for a bright career ahead of him.
He shows a remarkable memory, not using notes for any of his accompaniments and into the hymns he weaves brilliant scales and arpeggios. Technically his playing is of unusual finish and clarity, and he performs with much delicacy and grace.
Mr. Erwin has studied with some of the leading pianists of the United States and they are all loud in their praise to the young musician. He was born in Kansas and has made a study of music ever since he was old enough to reach the keyboard with his hands. He remarks that he has "not much time for anything besides music," and at that he practices between five and six hours a day.

Panama Canal Proves Saving in Time and Money to Merchantmen

Washington, D. C., Nov. 24.—The largest single item of cargo passing through the Panama Canal thus far has been shipments of grain for Europe from the United States Pacific ports, according to the canal record. In the two months and a half ending November 1, seventeen eastbound vessels passed through the canal carrying a total of 122,258 tons of grain, consisting of 72,922 tons of barley and 49,326 tons of wheat. Counting 37 bushels of wheat and 46 of barley to the long ton, the cargo amounted to 1,825,062 bushels of wheat and 8,541,857 bushels of barley, a total of 5,179,934 bushels of grain.
The next largest single item of cargo carried through the canal during the same period was nitrates, principally from Chile. This was carried in 14 vessels and amounted to 99,126 tons. The distance saved by the vessels from the United States by the use of the canal instead of the Bagellan route is estimated at 5,550 miles. If the average speed of the vessels be rated at 10 knots, the saving in time at sea per vessel was 23 days. On the basis of a per dem cost of operation of sea of 10 cents per net registered ton the average saving in cost of operation per vessel was \$309 per day, or \$7,115. The average tolls paid on 4,050 tons at \$1.20 per ton were \$4,860. The average net saving per vessel by use of the canal was accordingly \$2,256.
