GOOD HABITS ARE TO BE CULTIVATED

Dr. Dixon Gives Some Ideas That Are Well Worth Remembering by the People

State Commissioner of Health Samuel G. Dixon is giving some very good advice out of his store of experience in life and with people in his weekly talk. He discusses habits, good and bad, and what they mean to a person. In his remarks the doctor says: "Someone said that 'Man is a creature of habit' permitting us to draw our own conclusions. We are perfectly familiar with bad habits. Even if we were not liberally supplied with conscience, teachers and moralists have said enough to familiarize us with this side of the question. Fortunately there are good habits and they are often a blessing thinly disguised. Our general health and well-being depends largely upon the character of our habits.

Regularly partakes something of virtue. This is especially true when it pertains to eating, sleeping, labor and recreation which covers the daily program of the majority of mankind. In the primitive state it was impossible for our ancestors to eat regularly. The hunter might be successful and again he might not. Periods of enforced fasting were followed by corresponding overindulgence when the chase was successful. The demand for food at regular intervals was the first stimulus to civilization. We have achieved a state where three meals a day are possible to the most of us. In gratitude we should strive for moderation knowing that in a few hours more food will be forthcoming.

Sleep is the great restorer of both body and brain. Irregular hours of rest result in an excessive strain upon the nervous system which in turn reacts unfavorably upon the human economy. Regularity in the periods of rest make for even temper and physical stability.

Labor to achieve a worthy accomplishment must be steady and persevering. The habit of work is a necessity for one who would realize his ambitions.

Even in our recreations the majority of us are better for a certain degree of system for otherwise it is apt to become a case of over or under indulgence.

It is the same with our bodily functions—temperance and regularity are conducive to obtaining the maximum of efficiency for the longest period of time. Excessive friction and rust are equally hard upon machinery.

The formation of good habits in the care of the teeth, bathing, daily evacuation, eating, sleeping, exercise and living in fresh air will go far toward making the doctor's visit less frequent.

WATER SHUTS DOWN CITY IMPROVEMENTS

[Continued From First Page]

The subway and in Front street southward from the Front street subway must be finished. The new formal entrance and roadway in Reservoir Park at Twenty-first and Market streets must be completed. The setting out of the remainder of the trees and the continuance of the depressed concrete walk north of "Hardscrabble," and the erection of the concrete retaining wall for the Second street subway—these are a few of the items which will occupy the contractors during the next few weeks.

31,000 Yards of Paving More than 31,000 yards of paving has been put down this year, while the new sewers, if laid end to end, would cover the city. The work for the summer of 1915 will include the laying of an equal amount of paving and sewers. Since the West Construction Company has taken hold of the Paxton creek improvement job has been pushed rapidly ahead. Samuel L. Thomsen, Baltimore, is the engineer in charge under his supervision the creek has been hustled along. The creek has been finished from the river to about 200 feet north of Mulberry. From there to Market is a gap of 200 feet. The concrete for the creek bridge street bridge has just been finished and work was resumed to-day on the stretch just north of Market. A gap of about 100 feet must be completed there. Northward from State street for a distance of about 500 feet the channel will be changed from a twelve to a twenty-four foot width. With the exception of these gaps the whole job is complete.

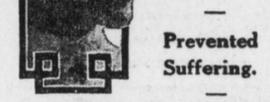

Clearing Silt From Creek During the past year some silt and other debris has been washed into the completed concrete gutter between Maclay and Rely streets and this is now being cleared out. The grading and sodding along the creek banks will not be undertaken until Spring. One small section of sidewalk remains to be cut down on the river wall near Tuscarora street and this will be finished within a day or two. Then the whole line of the city's "front steps" will be completed from Iron alley to Maclay with the exception of the stretch of sidewalk that must be placed between Maclay and Market. "This will require about forty days' work next Spring, according to President Charles D. Stucker of the contracting firm.

Some plan for a better treatment of the Market street dock may be adopted by the Board of Public Works, but this change would not, under the circumstances, become effective before Spring. A preliminary plan suggested is to extend the line of the steps from its present terminus below the Market street bridge to the wharf wall and the raising of the wharf wall to the level of the steps. The final layer of concrete slabs for the dam will be laid in the Spring.

FOR MYSELF AND FAMILY

Peruna has Done Wonders.

Saved Doctors Bills. Prevented Suffering.

Mrs. Emma Stolt, No. 697 Atlantic St., Appleton, Wis., writes: "Peruna has done me a great deal of good since I began taking it, and I am always glad to speak a good word for it. "Three years ago I was in a wretched condition with backache, bearing down pains, and at times was so sore and lame that I could not move about. I had inflammation and irritation, and although I used different remedies they did me no good. "A neighbor who had been using Peruna advised me to try it, and I am glad that I did."

In a later testimonial, Mrs. Stolt says: "Allow me to express my lasting gratitude for the good your valuable remedies, Peruna and Manalin, have done for myself and family. We have used Peruna for the past twelve years, with never failing results, and could not get along without them in our household. They have saved us many doctor bills."

Those who object to liquid medicines can now obtain Peruna Tablets.—Advertisement.

crete slabs for the dam will be laid in the Spring.

Sewers in 29 Streets New sewers were put down in twenty-nine sections of streets and an equally large number have been authorized, but not advertised for. These will be started in the Spring and will be paid for from the remainder of the \$100,000 sewer loan item for 1915. The proposed new sewers include the following:

In Green, from a point ninety-five feet south of Emerald; River Daley, from a point 29 feet north of Seneca to Schuykill; Asylum Run—one of the largest jobs—extending from the Paxton creek interceptor to Sixteenth; in Sixteenth from Asylum Run to Calder; in Calder from the intersection to Seventeenth; in Rudy, Eighteenth to Delancy; Delancy, Rudy to Spencer; Spencer, Delancy to Twentieth; Brookwood, from 122 feet west of Edson to Bolton; in Bolton from Brookwood to 250 feet north of Brookwood; in Nineteenth-and-a-Half to Derry, and in Derry, from Nineteenth-and-a-Half to Twentieth.

The Isle of Safety

Some changes in the sewerage in Market Square and vicinity are also planned and upon the rearrangement will depend the construction of the proposed "isle of safety" and public comfort station. The citizens voted \$25,000 in 1912 to erect an "isle" and work on the job will be started just as soon as the necessary sewer changes are completed in the Second street subway.

Paving in 1915

The sewer program includes the laying of a pipe in Second street from 150 feet south of Chestnut to Blackberry, in the east and west side of Market Square from Market to Strawberry street, and in Market street from the Square to the east end of Front street. Another big sewer to be constructed in the Spring will be the drain in Nineteenth street from Spencer to Hildrup.

The paving work for the next year will cover about 30,000 square yards all of which has been contracted for. These streets are Emerald, Front to Fifth; Apricot, Fourth to 100 feet east of Hoerner; Whistler, Apricot to Wingert; Primrose, Fifteenth to Eighteenth; Gruber, Carry to Emerald; Swab, Elizabeth to Gruber; Nineteenth, Market to Gruber; Wharf to Sixth; Howard, Woodbine to Camp; Ethel, Eighteenth to Nineteenth; Market, Nineteenth to Twenty-first; Nineteenth, Market to Chestnut; Market, Twenty-first to Broadway; Derry, Twenty-third to the eastern city limits.

The Asphalt Repair Plant

In connection with the paving work, it is probable that after next April Harrisburg will do its own asphalt repair work. An item of \$25,000 was voted in 1913 for the erection of such a plant and during the last few months City Commissioner W. H. Lynch, superintendent of streets and public improvements, has been looking about for a site. This will be located at some point convenient to the railroads. The city's \$15,000 year repair contract with Alderman Charles L. Walter will expire in April.

For Parks and Fire Apparatus

City Commissioner M. Harvey Taylor, superintendent of parks and public property, has expended a little more than \$11,000 for one new playground in the lower part of the city, and has started the construction of the new Reservoir park entrance. During the next year he expects to spend the remaining amount of the fund for the continuation of the parkway chain, to purchase at least one new playground in the upper end of the city. More tractors and perhaps another piece of equipment will be bought for the fire department. From the bridge loan item about \$5,000 has been, or will be expended for the construction of the Kerg street bridge over the Jonestown road, and for concrete viaducts over Paxton creek at Rely, Walnut, Cumberland and Mulberry streets. Work on these bridges has already been started.

WEDDING AT MECHANICSBURG

Miss Mary E. Vogelsgong, bride of Clarence Shover. Mechanicsburg, Pa., about fifteen members of the immediate families, also had their share for the occasion. Miss Mary Emma Vogelsgong and Clarence Shover, of Mechanicsburg, were united in marriage last evening at the bride's home, in South Market street, at 6:30 o'clock, by the Rev. D. M. Keyer, pastor of the United Brethren Church of Enola. The wedding march was played by Miss Verna Vogelsgong, of Point Comfort, and Edwin C. Hoffman, of Harrisburg, sang "O Promise Me." The bride wore a stylish traveling costume of brown velvet hat, brooch, with a brown velvet hat. Miss Myrtle N. Arney was maid of honor, wearing a pink crepe tulle net. The bridegroom wore a brown velvet suit. The best man was David A. Vogelsgong, a brother of the bride, and a resident of Mechanicsburg. The officiating minister was Rev. D. M. Keyer, pastor of the United Brethren Church of Enola. The wedding march was played by Miss Verna Vogelsgong, of Point Comfort, and Edwin C. Hoffman, of Harrisburg, sang "O Promise Me." At \$4.33—regularly \$6.50; 8x10 ft. size. At \$2.55—regularly \$3.78; 6x9 ft. size. At \$1.83—regularly \$2.95; 4x6x7.6 ft. size. Fourth Floor—BOWMAN'S.

INAUGURATION IS UNDER DISCUSSION

Arrangements Will Be Made as Soon as New Legislature Can Be Called Together

With the inauguration of the new Governor and the change of administration less than sixty days ahead, Capitol Hill is commencing to get ready for the assembling of the Legislature and the induction of the new Governor into his office. The two legislative chambers are about ready for the start of the session and tentative plans for the inauguration are being discussed, although nothing will be definitely determined until the joint legislative committee is named to take charge of the ceremonies. According to custom, it is probable that the Dauphin county senator, who is E. E. Beideman, will be in charge. John E. Fox, who was senator in 1911, was the active man of the committee last inauguration. The ceremonies will likely take place from the west front of the Capitol, where the Governors have been inaugurated for a century, although upon some occasions the weather forced curtailment of the program. It is likely that a fair-sized representation of the National Guard will attend, it being the idea to have each arm of the service and the State police in the parade. Political clubs will form a division and the firemen will have their historic share in the procession. When Governor John K. Tener was inaugurated the major-general commanding the National Guard was named as grand marshal and it was expected to create a precedent at that time, just as in Washington the chief of staff of the army com-

SENATOR SNYDER'S SON BURNED

Special to The Telegraph. Pottsville, Pa., Nov. 24. — Drose Snyder, 14-year-old son of Senator Charles A. Snyder, of this city, is suffering with serious burns about his head and face. He went to his father's garage and dropped a stick into an empty gasoline tank. He lighted a match and peered into the tank to find the stick and there followed a flash. His eyelashes, eyebrows and hair on top of his head are singed. His eyes are safe.

Armour's SILVERCHURN OLEOMARGARINE. Pure Delicious Economical. Made under U. S. Government supervision. It is not "imitation butter"—but a distinct product, having its own merit. It consists of choice fats, cream and salt—all essential food elements of every day use, properly blended by churning before being packed in hygienic paraffined cartons. ARMOUR COMPANY

WORK FOR UNEMPLOYED Reading Will Use City Funds For Improvement. Special to The Telegraph. Reading, Pa., Nov. 24. — With a view to aiding the unemployed here, Mayor Stratton at a conference yesterday with officials of the Chamber of Commerce, Associated Charities and the Federated Trade Council, decided upon the use of various unexpended balances of city funds for public improvements to give work to Reading citizens. Several thousand dollars will be ap- propriated for the work at Wednesday's session of Council. The improvements contemplate repairs to highways, cutting of brush along the mountains and the laying of the foundation including the erection of new filter beds at Fritz's Island. BOY KILLS BROTHER Bloomsburg, Pa., Nov. 24. — Four-year old Henry Allegor, son of James Allegor, of near Jonestown, took a revolver from his father's hunting jacket and in playing with it discharged the weapon. The bullet shot off the end of his finger and lodged in the chest of his fifteen-month-old brother, John, playing on the floor. The baby died early yesterday. WISHED MAN OFF CLIFF Bloomsburg, Pa., Nov. 24. — Charged with being responsible for the death of Thomas Methewill, who was found alongside the lonely Frackville turnpike and died before he could be removed to a hospital, George Harding was committed to the county jail yesterday. He is alleged to have pushed Methewill off a steep rock cliff near Mahanoy Plane following a quarrel.
