ENDS DRY, HOARSE OR PAINFUL COUGHS QUICKLY

A Simple, Home-Made Remedy, Inexpensive but Unexcelled

The prompt and positive results given by this pleasant tasting, home-made cough syrup has caused it to be used in more homes than any other remedy. It gives almost instant relief and will usually overcome the average cough in 24 hours.

Get 2 1/2 ounces Pinex (50 cents worth) from any drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. This makes a full pint—a family supply—of the most effective cough remedy at a cost of only 54 cents or less. You couldn't buy as much ready-made cough medicine for \$2.50. Easily prepared and never spoils. Full directions with Pinex.

The promptness, certainty and ease with which this Pinex Syrup overcomes a bad cough, chest or throat cold is truly remarkable. It quickly loosens a dry, hoarse or tight cough and heals and soothes a painful cough in a hurry. With a persistent loose cough it stops the formation of phlegm in the throat and bronchial tubes, thus ending the annoying hacking.

Pinex is a highly concentrated compound of genuine Norway pine extract, rich in gualaol and is famous for its whooping cough, bronchial asthma and winter cough relief.

To avoid disappointment in making this, ask your druggist for 2 1/2 ounces of Pinex, and don't accept anything else, a guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

MOTORISTS TO MAKE THEIR OWN ZOLINE

Individual Stills to Be Sold to Consumers of New Fuel Will Be Made at Once

Special to The Telegraph. Indianapolis, Ind., Nov. 24.—The final test of the effect of "zoline," the new 2-cent a gallon substitute fuel for gasoline, on the motor of the car used in the 1,000-mile run at the Speedway last week, was completed to-day. The technical committee reported that there had been no chemical effect on the motor and that it was in the same condition as if gasoline had been used.

Another important announcement was made to-day regarding the fuel. Instead of marketing the product at so much per gallon, it has been decided to market the still. This will allow the individual consumer to make his own fuel. Aside from the secret chemical and the still, all that is needed is plenty of rain water. In fact, the fuel is made nine-tenths from rain water, which goes through the still and comes out "zoline," ready to perform in the same manner as gasoline.

The manufacture of the stills will begin at once, and those back of the project state that with the stills on the market the high cost of motor fuel has been solved forever. The East will have to see the new product will be at the New York Automobile Show. A still is to be placed at the show and "zoline" made right in the hall. The mixing of the chemical with the rain water will be open to public inspection.

HOW PARIS STYLES MADE MUCH HAIR FROM LITTLE

You have noticed the prevailing hair styles, which are Parisian, make it impossible to use false hair because of the simple lines which conform to the natural shape of the head. It therefore becomes necessary to make your own hair look as heavy as possible. This is not a difficult task if you are careful to keep it perfectly clean. In washing the hair it is not advisable to use a makeshift, but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy it will look much heavier than it is. Its luster and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Advertisement.
