DEMONSTRATION OF DEEP SEA DIVING TO BE GIVEN AT ORPHEUM NEXT WEEK

Cap. Louis Sorcho, the expert deep sea diver, who was employed by the United States Government in 1898 to recover the dead bodies from the sunken Maine, will appear at the Orpheum theater next week in an act that is unique in the history of the celebrated diver carries a large tank, with glass front in which he demonstrates the hazards and possibilities of submarine work.

is carried to put this act on in realistic fashion. An interesting part of the captain's demonstration is the showing of the submarine telephone, which is his own invention. Capt. Sorcho carries with him a devil fish that he encountered and beamed in a light beneath the surface of the ocean. The fish measures 13 feet from tip to tip of its tentacles. A big show of high class vaudeville is grouped about this novel feature for next week's bill. -Advertisement.

HARRISBURG IS TO BE "WIRELESS CITY"

(Continued From First Page)

ing of city wires in conduits now at the disposal of the municipality. Under an agreement with the Bell Telephone Company, that company is required by the city wherever it lays a conduit for its own underground wires to provide a separate duct through which the city may string its poles also fire alarm wires free of charge. The Bell Company has been one of the most progressive in the city in this respect, and the entire business district and many of the outlying sections of town are now being wired with underground systems carrying Bell wires and the additional duct for city wires.

scattered over the city, several hundred, in fact, carrying wires many of which are no longer in use and which are a constant menace in times of storm, for the reason that it is not possible to know at headquarters when one of these wires falls.

EVER SEE A DEVIL FISH? Captain Sorcho Will Exhibit One at the Orpheum Next Week

Have you ever seen a devil fish? Captain Sorcho, the deep sea diver, has one and it will be placed on exhibition next week when the Captain and his crew of deep sea divers will headline the bill at the Orpheum theater. The fish is one of the terrors of the deep that confront divers and has claimed many victims. Its tentacles measure from tip to tip eighteen feet and is a most weird looking creature. Captain Sorcho, the most famous deep sea diver in the world, brings to this city for the first time in vaudeville the only diving act of this kind on the stage. It is a tremendous production, the action is swift, entertaining, educational, amusing and thrilling.

This city has not taken advantage of this agreement and the additional conduits laid by the Bell Company for municipal wires are empty and waiting while the fire and police wires remain strung overhead.

Bell Company's Progress The Bell Telephone Company has done a vast amount of work in the past two or three years and has plans laid for the removal of hundreds more of its poles as rapidly as its business warrants. The Bell and the Harrisburg Heat and Light Company have entered into a co-operative agreement that has brought down many poles all over town.

LEGAL RATES

EQUITABLE INVESTMENT COMPANY 9 N. MARKET SQUARE Room 21, Spooner Building

TO HOUSEKEEPERS, WORKINGMEN AND SALARIED EMPLOYEES

When it procured its franchise it was with the understanding that a certain number of conduits would be laid, and this has been done. The entire block between Mulberry and North streets and the river and Sixth streets is provided with conduits. In addition, Market street, from Fourth to Cameron, is underground and the territory between the river and Sixth street and North and Boyd streets is provided with underground systems in which the wires of the company are carried.

It is understood, however, that this company has quite a few dead poles scattered over the city, several hundred, in fact, carrying wires many of which are no longer in use and which are a constant menace in times of storm, for the reason that it is not possible to know at headquarters when one of these wires falls.
