DANTEST COSTUME OF THE SEASON

Will Lose Its Effect Unless the Hair is Pretty and Properly Dressed

The woman who looks to clothes for her charm and attractiveness is likely to find her most expensive outfit a failure if she has thin, faded or lifeless hair. The most beautiful evening gown will appear dowdy and out of style unless crowned with a head of pretty hair, soft, fluffy and lustrous.

Beautiful hair does not just happen to be so, but is always a matter of care and proper nourishment of the hair roots. No matter how unsightly the hair, how badly it is falling, or how much dandruff, Parisian Sage, an expensive tonic, will rub into the scalp, and the hair will be bright, vigorous, soft and fluffy.

If the hair is oily, dry, brittle, or you have dandruff, Parisian Sage immediately removes the cause, and by toning up the scalp quickly restores the hair to its original brilliancy and vigor.

Parisian Sage can be had from H. C. Kennedy, or any drug or toilet counter. It is a delightful and harmless treatment that never fails to act as a real and lasting benefit to the hair and scalp.—Advertisement.

The Hague convention of 1907 to which all the principal belligerents are signatory, which provides for notice of 24 hours before bombardment or attack in order that non-combatants may remove themselves from the danger zone.

Whether there have been any unofficial responses from the belligerents was not known here to-day but American newspapers are reporting that the President, it is understood to handle the matter with such discretion and diplomacy as would tend to end aerial attacks without notice further toward the belligerents involved.

It is not believed that the President mentioned any specific violation, but expressed his views on the general subject of aerial attacks.

Following a wedding trip to Baltimore, Washington and New York city Mr. and Mrs. Scharadin will be "at home" at 206 Rely street after December 10.

SCIATICA GIVES FAIR WARNING

Start Taking Rheuma at Once and Prevent Rheumatism From Becoming Chronic

Sharp, darting pains from the hips down the legs to the knees are signals of approach of sciatica, and should be treated at once to prevent rheumatism becoming chronic.

Rheuma dislodges the little uric acid crystals in the blood vessels feeding the great sciatic nerve and creates a free movement of the muscles and joints. It stimulates the kidneys, liver, bowels and skin to extra work in throwing off the irritating poisons throughout the system.

Read the testimony of Guy Torley, the great cyclist, of 265 Dayton avenue, St. Paul, Minn.: "I was so crippled with sciatic rheumatism in my hips that I could not walk without crutches. I spent over \$500 without relief. Was persuaded to try Rheuma. After taking three bottles the rheumatism had entirely left me."

H. C. Kennedy and all druggists sell Rheuma. It is good for all forms of rheumatism, and costs so little you cannot afford to suffer for want of it.—Advertisement.

The Union Sales Company, Second and North streets; John Trace, salesman; Robert F. Gorman and Wellington G. Jones, of the Harrisburg Telegraph; and R. H. Dare, owner and driver of the Cadillac car on the front wheels of which were the famous Union tires and tubes.

Rim trouble started sixteen miles from Gettysburg.

Well, the Cow Was Hungry

Eight miles out of the great battlefield there was more rim trouble on a rear wheel. Dare, the chauffeur, off with his coat, hung it over a post and started to work.

A cow peacefully grazing on the scene strolled up to get a closer view of the most interesting situation. Bossy splied Dare's coat. When Mr. Gorman saw the cow she had lunched on one sleeve. Taking pity on the poor bovine after rescuing the garment, Mr. Gorman fed the animal a few dozen handbills which were in the car for distribution along the highways and byways.

A trip to Gettysburg on a motorcycle was necessary before repairs could be made. At New Oxford word was telephoned to Harrisburg regarding the accident, and a new start was made for home. But the trouble was not ended. Near Abbottstown there was more rim trouble on the rear wheel. While "Well" Jones guarded the auto along the lonely country road for two hours, other members of the party hiked to Abbottstown for help. Two members of the party went to Hanover and caught a train to Harrisburg. Another member was taken to York in a Ford car and returned home by train.

The balance of the party remained three hours at the hotel until Chauffeur Dare had made a trip to York and secured the necessary equipment to complete repairs. The run home was completed without further trouble, the party reaching Harrisburg at 3:30 o'clock this morning.

Is a Powerful Influence in Blood

Works With a Definite Purpose and Is a Known Antidote.

There are some things in medicine that are certain and definite. They do the work. S. S. S. is one of these reliable and is a known antidote for all blood troubles. More than that, it is harmless for it does not hurt the stomach, does not affect the bones or joints, nor does it alter the integrity of the nerves and spine. But it does sweep through the blood, a powerful, searching, cleansing influence, remarkable for results and a tremendous relief to those who suffer the humiliation of skin eruptions.

Nearly all sickness is due to sluggish blood. And if you let S. S. S. bathe your system with its wonderful influence your nervous troubles, your waxy, faded, listless, lifeless body will revive and become so renewed with the sense of enjoyable health you will scarcely know yourself. Try S. S. S. today. Get a bottle at any drug store. It will put you on your feet; keep you going all day and enable you to sleep sound and restful. S. S. S. is not a "dope," not a physic, but a fine, bracing, purifying medicine that is sure to do you a world of good.

It is just what you need. S. S. S. is prepared by The Swift Specific Co., 60 Swift Bldg., Atlanta, Ga., and if you are troubled with any stubborn blood disease their medical department will guide you safely to health. Write them.

GERMANS SAID TO HAVE BEEN BEATEN

(Continued From First Page)

points, farther west in France and in Belgium, there were small brushes. The situation in Russian Poland, the present object of such great concern to officials in Paris and Berlin, is stated in one short sentence. It is merely said that there were no decisive engagements in the east yesterday.

At few times since the European war began nearly four months ago have reports from the various fields of battle scattered from the North Sea to the western fringe of Asia, been so incomplete and confusing as was the case to-day.

So far as could be learned from official announcements there was little change in the alignment of the opposing forces in any quarter, notwithstanding the fact that operations of the highest importance were under way.

The situation in Russian Poland, at present, the scene of the most important conflict, has become one of the most puzzling phases of the war.

In this particular a similar situation prevails in the west. London expected this week would witness one of the most important and deadly struggles of the war as a result of a renewed German effort to break through to the English Channel. Official statements, however, indicate that only sporadic fighting is in progress, and as to the results there is no reconciling reports from Berlin and Paris.

There is a corresponding conflict concerning the campaign in Serbia. The Austrian war office asserts that the advance into Serbia is being pushed forward successfully and that the Serbs were beaten in two engagements. An official statement issued at Nish however contains no reference to such occurrences, merely saying that the battle continues along the main front, near the Kolubara river.

Holy War Proclaimed

A holy war, which might seriously affect the issue should it bring to arms the millions of Moslems of the eastern countries, has been formally proclaimed, as decided upon ten days ago. The proclamation, signed by the Sultan of Turkey, calls on Moslems the world over to join in the war against Great Britain, France and Russia.

Fears of friction between European powers and countries of South America over alleged violations of neutrality in southern waters has led the principal South American nations to ask the co-operation of this country in negotiations with the nations at war looking toward exclusion of belligerent warships from the waters of the two Americas.
