RAILROAD NEWS

WAGE DIFFERENCES WITH ABOUT TRAINS

Western Railroad Men Present Claim For More Money; Evidence to Come First

Chicago, Ill., Nov. 30.—Arbitration of the differences over wages and hours of employment of ninety-eight Western railroads and their 55,000 engine-men began here today before a board of arbitrators appointed under the provisions of the Newland act.

In a general way it is stated that the wage increase sought by the men is about 10 per cent. They were represented in court by Warren Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, and William S. Carter, president of the Brotherhood of Locomotive Firemen and Engine-men.

The railroads were represented by the twelve committees of the Managers' Association, assisted by legal counsel. The evidence, it is predicted, will be largely statistical, although it is probably about forty witnesses, divided equally between the two sides, will be heard.

Ninety days are allowed to present evidence and an award is expected ten days later. The arbitrators are W. L. Park and H. E. Byram, representing the railroads; F. J. Burgess and Timothy Shea, for the employes, and Judge Peter C. Pritchard and Charles Nagel appointed by the government.

Costly Trains Cut Out.—Beginning today many through trains running out of Chicago will be cut out. Between Chicago and the Pacific coast seven trans-continental lines will eliminate two trains each and change the schedule of others.

Between Chicago and Denver, ten trains will be taken off. Between Chicago and St. Louis, eight trains will be discontinued. Between Chicago and New York, twenty trains are marked to come off.

Shop Time Reduced.—Beginning tomorrow the time of the Reading Railway Company will be reduced from 50 to 40 hours per week. The order affects all of the company's employees.

In the future the men will only work five eight-hour days. The big plant will be idle on Thursday. The electric cars by Spring.—Work upon the electrification of the main line between the Pennsylvania Railroad Broad Street Station and the Pennsylvania Railroad Station will be completed in March, 1915, at an approximate estimated expenditure of \$2,000,000.

Division Engineer Dies.—Walter T. Thomson, division engineer of the Williamsport Division of the Pennsylvania Railroad Company, died at his home in Williamsport, Saturday.

In his opening statement to the arbitration board Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, in brief said that the wage movement of the employes was begun two years ago and that later it was decided that the Brotherhood of Locomotive Firemen and Engine-men should work jointly with the Brotherhood of Locomotive Engineers in the presentation of requests to the railroads, and in October, 1913, the statement was read and approved by the membership of both organizations.

Mr. Stone insisted that any award of the board of arbitration should not decrease the wages of the men. He imposed less favorable service and in this connection quoted from a statement of the railroad managers "that it was not intended to make any reduction in wages."

"This being true," he said, "we have not come here to give away a single thing we have, but we want and believe we are entitled to the increase we ask to go with it."

Burdens Borne by Men.—After describing the hardships of the men in the cab the chief engineer said:

"And it must not be overlooked that all of these increased burdens fall on the same men, their number not having been increased for the purpose of dividing this increased burden."

"There never was a time in the history of the railroad world when as much was being taken out of the men in the cab as now, and the conditions that are beyond the limit of human endurance."

Summing up, he declared: "We shall endeavor to show that during the past twenty years the western railroads have made remarkable gains in productive efficiency by the installation of locomotives of great tractive power. By the elimination of curves and reduction of grades, remarkable increases in trainloads have been made. The burden of all these economies in the interests of railroad transportation has been borne by the men in the transportation service."

"The effect on engineers and firemen has been threefold. There has been an increase in both their labors and responsibilities. Their productive efficiency has been greatly increased. Their earning capacity even at the slightly increased rates of payment they have received has declined."

"We hope to show that these railroads, not satisfied with the present hard conditions, which have reached the limit of human endurance, are intending to add further to existing trainloads, thereby increasing the labors and responsibilities of the engineers and firemen."

His "Financial Pirates" Quoting a statement of the railroad managers last June, in which it was pointed out that increase in the expenses of railroad operation through compliance with the employes' request would in the long run make the public the sufferer, Mr. Stone said: "A little group of financial pirates will exploit the expense of railroad operation through the public which generations yet unborn will have to bear, and you hear not even a whisper of the rights of suffering of the public."

Special Train Enroute West.—Enroute from New York to Minneapolis, a special train de luxe via the Pennsylvania railroad, passed through Harrisburg Saturday night. The train was made up of eight cars and on board were 118 representatives enroute to the National Commercial Gas Association convention which opens in Minneapolis to-morrow.

To Tell Scouts of Deer Hunt At the Covenant Presbyterian Church this evening S. H. Garland will talk to the Boy Scouts about his recent hunting trip with a party that brought home five deer. Last Monday night the Scouts listened to an interesting talk on flag signals. These instructive meetings are held every Monday night.

FISCAL YEAR END GOES DOWN TONIGHT

Belief That the Total Receipts Will Not Be So Far Behind After All This Season

ASKING ABOUT WAR TAXES

Hargest Puts It Up to the National Government; Public Service Will Meet Here

The fiscal year of 1914 ends at the close of the department to-day at the Capitol and the State Treasury to-day added \$58,000 to the total receipts.

Estimates made late to-day were that excluding the personal property tax of \$5,100,000 which is now a county tax because of the act of 1913, the State revenue will sum to about \$300,000 ahead. In this sum is included a payment of taxes in litigation.

The statement is expected to be interesting as it will show collections of county tax to have been fair.

Commissioner to Meet.—The State Forestry Commission will meet Friday to discuss the auxiliary reserve and the forest fires which have been raging lately.

Typoid at Homestead.—Dr. C. J. Hunt and S. F. Parks, of the Department of Health, have gone to Homestead to investigate the typhoid outbreak.

Representative Here.—Representative C. A. Shaffer, of Berwick, was at the Capitol to-day.

Dr. Dahlgren Named.—Dr. Samuel G. Dahlgren, commissioner of health, has named Dr. E. E. McGinnis, of Philadelphia, to prepare the exhibit of the State Department of Health at the Panama Pacific Exposition at San Francisco, which will illustrate the work of the department for the conservation of life. Topographical and geological details of the State sanatoria and other details of the department will be prepared and the whole is to be displayed at San Francisco. Dr. Dahlgren has had charge of similar work for the American Academy of Natural Sciences, the Smithsonian Institution, the Wistar Institute and the Field Columbian Museum, his work forming part of their collections.

As people on Capitol Hill are trying to find out whether they have to pay war taxes or whether the applicant for official papers has to pay or whether any must be paid at all, the State Department of Public Service Certificates issued in the course of its business was to-day referred to the Attorney General's Department and Deputy Attorney General M. M. Hargest asked the United States Treasury Department for its view.

Want Auto Tags.—Not far from 5,000 applications for 1915 automobile registration were filed at the State Highway Department and it is expected that more will be heard from within a few days. Shipment of taxes will start very shortly.

Debts Increased.—Notices of increases of debt were filed at the Capitol to-day by four gas companies as follows: Counties Gas and Electric Company, Harrisburg, \$1,858,000 to \$1,298,000; Chesapeake and Potomac Telephone Company, Philadelphia, \$333,000 to \$337,000; Dauphin County Gas Company, \$402,000 to \$413,000 and Harrisburg Gas Company, \$1,423,000 to \$1,515,000.

The Farre Increase.—Edmund C. Abbott, attorney for the combined committee of the United Business Men's Association of Philadelphia and Company, occupied the pulpit and preached a complaint against the Philadelphia and Reading and the Baltimore and Ohio relative to the proposed increase of rates. It was urged that an early vote be set for the hearing and that the respondents be asked to produce their books showing all receipts, etc., relative to the conduct of their system between the various terminals in Philadelphia and at other points within the State affected by the changes. The commission is also requested to suspend the rates and to advance until after the hearing. The weekly session of the commission begins to-morrow, and the probability is that the rate question will be taken up in the report of the commissioners who attended the preliminary meeting in Philadelphia on Friday, after which a definite plan of action will be determined. A lengthy petition was received from the Bethlehem branch of the Philadelphia and Reading, representing various towns along that route.

Wants Service.—Charles W. Palmer, of the Wyoming Valley Trust and Company, Wilkes-Barre, has filed a complaint against the Luzerne County Gas and Electric Company alleging that the company refuses to make service connection with his home at Trucksville.

Jackson to Speak.—Commissioner John Price Jackson will be one of the speakers at meetings of the American Academy of Natural Sciences in Philadelphia Saturday. Child labor laws will be discussed.

To Sell Paper.—The State will sell the water tables of the departments at public sale to-morrow and the Superintendent Pomeroy will boss the job.

Belgians' Relief Cash Is Still Flowing In People of this part of the State continue to give to the funds for the relief of the starving Belgians and to-day the Telegraph received \$16 which was raised at the Thanksgiving service held by the United Brethren and Lutheran congregations at Oberlin. The Rev. C. B. Boughter, the pastor, presided, the contribution which was at once sent to Philadelphia.

Other contributions given included: Previously acknowledged \$2,204.00 Hope No. 2 Juniors 10.00 Kinder, treasurer 10.00 Mrs. J. W. Simonton 10.00 A. M. 50.00

PASTOR FORTY-FIVE YEARS Hagerstown, Md., Nov. 30.—Forty-five years ago yesterday the Rev. Dr. S. W. Owen, a native of Pennsylvania, became pastor of the Lutheran Church of this city. The anniversary of his long pastorate was appropriately observed with special services during the week. In the morning the Rev. Dr. Owen occupied the pulpit and preached an historical sermon, in which he reviewed his pastorate and the growth of the church. Dr. Owen, who was born in Pennsylvania, was formerly the pastor of the Lutheran Church at Selinsgrove, Pa., is 77 years of age and one of the oldest Lutheran pastors in the active ministry in the United States. He is a member of the General Synod of the Lutheran Church in the United States and also president of the Maryland Synod.

STEELTON

NEED NIGHT SCHOOL

Suggestion Given by Rev. Zuvich; English Should Be Taught; Sure to Succeed

The Rev. Father Anthony Zuvich, rector of St. Mary's Croatian Catholic Church, one of the most influential foreign churches in Steelton, in an informal address to the school board of the Steelton school board established a night school for the instruction of the foreign-speaking residents of the borough in the English language.

"While this school is bound to do a lot of good, it is not the only one of its kind," said the Rev. Father Zuvich, "it could be conducted on a larger scale and reach more foreign-speaking people if it were conducted by the school board and was undenominational."

Father Zuvich explained that there are about 8,000 foreign-speaking people in Steelton, there being more than 100,000 in the United States. Many of these people, he asserted, are taxpayers from which the borough derives sufficient revenue to have a separate school for their instruction.

Father Zuvich believes, could be established at a small cost to the borough. It is his suggestion that the public school in South Second street be thrown open several evenings each month for this purpose. Competent instructors could be employed at small cost to give instructions in English, he believes.

When asked whether he would make any effort to lay the plan before the school board Father Zuvich intimated that he would probably lay the plan before the board of the borough in the near future and urge him to embody the suggestion in his annual report.

New Rolling Mills Tested Before Officials

In the presence of Vice-president J. V. W. Reynolds and their high officials of the Pennsylvania Steel Company, Saturday, the new 44-inch rolling mill at the local plant was tested for the first time. Four ingots were sent through the rolls and turned into seven-inch blooms by the merchant mill.

This new mill will replace the slab mill which is being replaced by a blooming mill in supplying rolled material for the other departments of the plant. It is the largest of its kind in the world. The mill is to be erected here entailing the expenditure of over \$4,000,000. The new mill is to be started in the near future.

In the party that witnessed the first "rolling" were J. V. W. Reynolds, vice-president; F. D. Johnson, general superintendent; C. P. Turner, chief engineer; G. W. Craighton, who will have charge of the mill, and J. Nelson, superintendent of the roll department.

STEELTON PERSONALS

W. H. Nell, Dr. H. M. Cumber, Richard Nebinger, Richard Mumma, Douglas Beidel and Ira Stone attended the annual meeting of the Municipal League of Steelton, to be held in the Electric Light building this evening, will be a lively affair.

The officers to be elected include: President, Harry C. Wright; first vice-president, T. T. McEntee; second vice-president, Harry Dress; secretary, Charles R. Holton; treasurer, M. Long. These officers were nominated at a meeting of the nominating committee last Monday.

Probably the greater part of the evening will be taken up with a discussion of plans for the development of a park and playgrounds scheme. There has been a strong demand for better playground facilities here in recent years and the Municipal League will probably offer some suggestion as to how they may be secured. A luncheon will follow the business session.

HAGERSTOWN COUPLE GO IN FOR RECIPROcity AT OBERLIN

Just by way of reciprocity a Hagerstown couple came to Pennsylvania to be married Saturday evening. And when they reached Pennsylvania they went to Oberlin, where the Rev. D. E. Ruple, pastor of the Salem Lutheran Church, performed the marriage ceremony. Miss Florence Humbrick and Ernest L. Sweeney, both of Hagerstown, were the principals. The ceremony took place November 28 at 8 o'clock. There were no attendants. Mr. and Mrs. Sweeney visited Steelton relatives over Sunday and returned home this morning.

BURY TROLLEY VICTIM

The funeral of Albert Farina, the 6-year-old son of Mr. and Mrs. Frank Farina, who was killed by a trolley car Friday, was held this morning from St. Ann's Catholic Church. The Rev. Father B. Sama officiated and burial was made in Mount Calvary Cemetery.

RICHARD F. HEISEY

Funeral services for Richard F. Heisey, who died Friday evening, will be held to-morrow morning at 10.30 o'clock from his late home in Oberlin. Burial will be made in the Oberlin Cemetery. Heisey was formerly employed in the frog and switch department.

GILDAY AN ARBITRATOR

Clearfield Mine Workers' Leader Named by President Washington, Nov. 30.—Government officials who have been keeping in close touch with the Colorado coal strike situation were hopeful to-day that there would be no repetition of the present troubles in the Colorado fields as the result of the action of President Wilson in naming a commission to deal with such controversies. The commission is composed of Seth Low, of New York; Charles W. Miller, of Philadelphia, and Patrick Gilday, of Clearfield, Pa. All of them have been identified with the settlement of labor troubles.

Thin Blood and Dyspepsia

Thin-blooded people generally have stomach trouble. They seldom recognize the fact that thin blood is the cause of indigestion, flatulence, and nervousness, stimulates the tired muscles and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite and digestion and normal nutrition that good, rich, red blood. Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and the enriched blood strengthens weak nerves, stimulates the tired muscles and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite and digestion and normal nutrition that good, rich, red blood. Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and the enriched blood strengthens weak nerves, stimulates the tired muscles and awakens to normal activity the glands that supply the digestive fluids. Catarrah Hurts More Than is Realized

For Weak, Watery Eyes, to Cure Deafness, Sore Throat, Lame Kidneys, Weak Chest--Here's the Remedy.

Let It Come! The Red Blooded S. S. Man Defies the Weather. A host of people have been completely cured of Catarrh by the famous blood purifier S. S. S. There's another host daily fusing with their aches, gages and acids who haven't waked up to the fact that Catarrh comes from impure blood.

To begin with S. S. S. clears the stomach of those accumulations that cause gastritis and Catarrh of the intestines. By doing this only pure blood enters the lungs. Pure blood is thus supplied to the entire body. It requires pure blood to get the weakness out of the eyes; pure blood must be supplied to the delicate machinery of the ears, the throat, the kidneys and all other parts of the body. All of these are made up of a myriad of tiny cells and all surrounded by a net work of small blood vessels. It is in these cells and the intricate network of vessels that S. S. S. does its work. The entire blood supply is thus inoculated with the active principle of S. S. S. Thus instead of the abnormal secretions of mucus spreading their inflammatory influence into the kidneys, the lungs, the throat and bronchiae, watering the eyes, plugging the ears and causing a constant dribbling at the nose, the membranes and the structural tissues of the body.

It has been fully demonstrated that in S. S. S. there is one ingredient which serves the active purpose of stimulating each cellular part of the body to select from the blood its own required nutriment. And this activity includes the membranes and the structural tissues of the body. It will soon realize its wonderful influence by the absence of frontal headache, a decided clearing of the air passages, the disappearance of thick lumps of mucus in the nose and throat and a

MUNICIPAL LEAGUE TO DISCUSS PARKS

Third Annual Meeting Tonight; Election of Officers; Playground Plans Offered

With the election of officers, the discussion of plans for securing a comprehensive park and playgrounds system and other civic improvements for Steelton and a social hour, the third annual meeting of the Municipal League of Steelton, to be held in the Electric Light building this evening, will be a lively affair.

The officers to be elected include: President, Harry C. Wright; first vice-president, T. T. McEntee; second vice-president, Harry Dress; secretary, Charles R. Holton; treasurer, M. Long. These officers were nominated at a meeting of the nominating committee last Monday.

Probably the greater part of the evening will be taken up with a discussion of plans for the development of a park and playgrounds scheme.
