## COLUMBIA'S DISPLAY SLOGAN TO BLAZE ON

### Council Refuses to Remove Electric Advertisement From the Town Hall

Columbia, Pa., Dec. 3.—Borough council at a regular meeting last night refused to recede from its previous stand on a progressive policy for the town, and by a big majority turned down a resolution to discontinue the display of its electric slogan on the tower of the town hall, which has been displayed every night since the Old Home Week celebration over a year ago. The resolution was introduced in order to do away with the expense of \$150 a year on the ground economy, but council thinks the display is an excellent method of advertising the borough to strangers and so "Columbia Onward! Why Not?" will continue to be flashed from the tower.

## LIFE INSURANCE COMPANIES

### They Are Closely Observing Public Health Conditions

An examining physician for one of the prominent life insurance companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing real healing and curative properties, would be a blessing to thousands.

Dr. Kilmer & Co., Binghamton, N. Y., who prepare Dr. Kilmer's Swamp-Root, the well known kidney, liver and bladder remedy, claim that judging from evidence received from druggists everywhere, who are constantly in touch with their customers, and also indisputable letters from thousands of grateful testimonial letters, this preparation is remarkably successful in sickness caused by kidney and bladder troubles. Every interesting statement they receive regarding Swamp-Root is investigated and no testimonial is published unless the party who sends it is reported of good character. They have on file many sworn statements of recoveries in the most distressing cases. They state that Dr. Kilmer's Swamp-Root is mild and gentle in its action and its healing influence is soon noticed in most cases.

Swamp-Root is purely an herbal compound and Dr. Kilmer & Co. advise all readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—50c and \$1.00. However, if you wish to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Harrisburg Daily Telegraph.—Advertisement.

## Practical Prescription Against Stomach Acidity

Nine-tenths of all cases of stomach trouble nowadays are caused by too much acid. In the beginning the stomach itself is not diseased but if this acid condition is allowed to continue, the acid is very likely to eat into the stomach walls, forming stomach ulcers which may render a radical surgical operation necessary even to prolong life. Therefore, "acid stomach" is really a dangerous condition and should be treated seriously. It is utterly useless to take medicine and ordinary stomach tablets. The excess acid or stomach hyperacidity must be neutralized by the administration of great efficient antacid. For this purpose the best remedy is bisulphated magnesia taken in teaspoonful doses in a fourth of a glass of water after each meal. Larger quantities may be used if necessary as it is absolutely harmless and they have not the same action on the stomach as the bisulphated.—Adv.

## What Thin Folks Should Do to Gain Weight

Physician's Advice For Thin, Underdeveloped Men and Women  
Thousands of people suffer from excessive thinness. Many have tried advertised flesh-makers, food-fads, physical culture stunts and rubber creams, resign themselves to life-long skinniness and think nothing will make them fatter. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nervous system. This remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient. A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. George A. Goran and other leading druggists supply Sargol and say there is a large demand for it. While this new preparation has given splendid results as a nerve-tonic and vitalizer, it should not be used by nervous unless they wish to gain at least ten pounds of flesh.—Advertisement.
