

HAD HYSTERIC AND FAINTING SPELLS

Asbury Park Woman Had Complete Nervous Break-down—Restored to Health by Vinol.

Asbury Park, N. J.—"I was in such a nervous, weak, run-down condition that I could not sleep nights, every little thing disturbed me, my appetite was very poor, and I was losing flesh. I was so nervous at times that I used to faint and have hysterics. I do my housework for a family of four, and they became alarmed at my condition. I tried beef, iron and wine and cod liver oil emulsions without benefit. One day our druggist suggested that I try Vinol and told me how it had helped others. I did so, and it has simply done wonders for me, as I am a well woman and entirely cured of my nervousness."—Mrs. Katherine E. Klein, Asbury Park, N. J.

Such reliable testimony should convince others of the value of Vinol, therefore if you are worn out, weak and nervous and want new strength and more vitality, we ask you to take Vinol, our delicious cod liver and iron tonic. If it fails to benefit you we give back your money.

Vinol is a constitutional remedy for all weak, nervous and run-down conditions of men, women and children. George A. Gargas, Druggist; Kennedy's Medicine Store, 221 Market street; C. F. Kramer, Third and Broad streets; Kitzmiller's Pharmacy, 1325 Derry street, Harrisburg, Pa.

COLORED MAN ATTACKS WOMAN

A colored man whose identity is not known, yesterday beat up Mrs. Rebecca Rosen, aged 42 years, 506 North Cameron street, proprietress of a small store. The man, it is believed, intended to rob the place. Mrs. Rosen was struck on the head with an iron pipe. The woman's screams brought a lodger from the second floor and the assailant was driven away.

How She Discarded Unsightly Complexion

How often I exclaimed as I beheld my ugly complexion in the mirror, "If only I could get rid of this old skin! And, do you know, I've learned how to do that very thing! Not to actually remove the entire skin all of a sudden, but to gradually—requiring about ten days to complete the transformation—it doesn't hurt a bit. Day by day the beautiful complexion underneath comes forth. Marvelous! No matter how muddy, rough, blotchy or aged your complexion, you can surely discard it by this simple process. Just get an ounce of ordinary mercerized wax at your druggist's, apply nightly like cold cream, washing it off mornings.

My wrinkles I got rid of by an equally simple method. By dissolving an ounce of powdered saxolite in a half pint witch hazel and bathing my face in the solution, every line completely disappeared. First the finer lines, finally even the deep crow's feet, vanished entirely.—Mona Morrow in Town Tattler.

GARDNER APPEALS FOR LARGER ARMY

[Continued From First Page]

national peril upon citizenry trained and accustomed to arms," says the President," said Representative Gardner. "But how are we to get enough citizenry, as he calls us ordinary people? Does the President realize that there are only 120,000 militiamen in this whole nation? Does he understand that 23,000 of them did not even show up last year for annual inspection? Does he know that 31,000 did not appear at the annual encampment? Is he aware that 53,000, or nearly half of this citizenry never appeared at the rifle range during the whole course of last year?"

Wood's Request Rejected

"Where is this citizenry to get the weapons of war? According to the last report of the chief of staff, we are short 315 field guns and 1,222,384 rounds of ammunition necessary to equip our military in time of war. Last year General Wood asked for enough guns and ammunition to bring the United States up to the standard of Bulgaria. That immodest demand was rejected.

"I will not say that we have only enough field artillery ammunition to last for a single day's battle if all our guns were engaged, but I will say that such is the statement which has been made to me by one of the highest officers in the United States Army. I do not, however, hesitate to assert that if war were to break out to-day it would be found that our coast defenses have not sufficient ammunition for an hour's fighting.

"Our officers and officials have told us that we lack men for our navy, men for our coast defenses and men for our armament. We lack artillery, we lack the ammunition with which to charge that artillery; that we lack great warships to sail the seas and little scouts to act as their messengers; that we have a sadly deficient undersea navy and practically no overhead fleet at all.

"I have proposed that an independent commission be appointed to investigate all these things, to recom-

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work and lifting heavy things. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 24 A. Marcellus Avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Advertisement.

Secretary Daniels Favors Larger Navy

Washington, Dec. 10.—Secretary Daniels was the star witness to-day before the House naval committee.

"I have recommended this year, that we continue the regular and normal construction recommended last year," said the secretary. "It seems to me wise policy for steady enlargement. This includes two dreadnaughts, six destroyers, eight submarines or more (one of sea-going and seven or more of the coast defense type), one gunboat and oneoller. The President approves this."

Mr. Daniels characterized as "extravagant" suggestions that in the light of the European experience there should be 100 submarines and fifty battleships. The President, he said, believes, "in the steady development of the navy."
