PENROSE PREDICTS SWEEP FOR 1916

Senator Who Has Just Been Reelected With an Immense Majority Submits His Views

Republican control of the government as a result or the election to be held in 1916 was predicted by Senator Penrose, of Pennsylvania, in an intergiven out at Washington last

The Pennsylvania senator said that an analysis of political conditions in the different States demonstrated that

evidences of tainted blood will pass away never to appear again.

How He Views It

"A careful examination of the sit-uation," said Senator Penrose, "discloses the fact that there is a prospect of getting a Republican majority in of getting a Republican majority in the United States Senate in the next presidential election. The majority, if not large, ought to be a good working one. The prediction can be safely made that the Republicans would not have lost three senators in the last election, which ordinarily they should have had, if there had not been local complications. The Republicans fully expected to elect Burke in South Dakota, and his defeat was a surprise. They should have elected a member in Nevada, Wisconsin and California.

Wants Aunt's Money. — Mary G. Brackney, of Pittsburgh, has asked for a writ of mandamus to compel the banking commissioner to order his chief clerk to direct all institutions coming under his direction to advertise annually unclaimed deposits so that she may know if her dead aunt had any money. The writ is said to have been brought some days ago and service accepted Tuesday, but it was kept quiet at the Attorney General's office until late yesterday afternoon for some occult reason. In fact, there is a great deal of mystery about it all at the Capitol, although everyone would doubtless like to have Mary get all the money that is coming to her. The rule is returnable in ten days. At the prothonotary's office it is dated December 8 and why nothing was said about it at the law department until the yesterday is not known.
