CONSOLIDATION IS LABOR PROPOSAL

Would Amalgamate the Mines and Labor Industry Departments of State Government

Among the suggestions which the legislative committee of the State Federation of Labor received at its meeting here this week and which will be considered between now and January 18 are for consolidation of the State Departments of Labor and Industry and for an investigation of detective agencies. These matters were not put forward in the form of resolutions but suggested for such action as the committee might determine.

IS ARREST DECREASE DUE TO EVANGELIST?

[Continued From First Page]

drunkenness since the campaign opened, but he is convinced nevertheless that the revival has done much to sober up a lot of the fellows who ordinarily fall into the police web.

27 Per Cent. Falling Off in Arrests

A reporter for the Telegraph went over the police docket to-day and he found there had been fifty fewer arrests during the last six weeks than during the same time last year. From November 1 to December 11 last year there were 180 arrests for drunkenness and disorderly conduct. Since the Stough campaign opened there have been only 130 arrests for the same cause. The percentage of decrease is about 27 per cent.

Something Has Hit Liquor Business

Liquor dealers and brewers throughout the city would not admit to-day that they have been hard hit by the campaign. They do admit, however, that business is away below past records. They attribute the falling off in the consumption of liquor to holiday shopping which they say always effects trade more or less.

No dealer here was willing to let the reporter quote him, but all insisted that general business conditions are responsible for the falling off in sales. Business men seem to differ in regard to the good done. Some say the Stough campaign has temporarily hurt business rather than helped it; others are just as warm in their declarations that the campaign has been a help to business.

Churchmen Differ, Too

Church people interviewed, too, differ in their opinions on the results of the campaign. Most of the churches, however, agreed that when the churches are reopened and Dr. Stough is inviting men and women down the trail in other cities, will it be seen whether the evangelist brought men into the fold.

The figures show that in round numbers 4,500 people have hit the trail thus far. Many of these were church members who have been brought into the fold according to the statistics available at the Stough headquarters, 26 South Third street, were men and women who never in their lives belonged to a church. And scores of them according to the same authority were self confessed drunkards and wifebeaters.

Republicans Still Getting Majorities

Judges Evans and Haymaker, who presided in Common Pleas Court during the computation of the vote in the recent election by the official returning board of Allegheny county, yesterday at Pittsburgh, gave that order amending the official tally for this county for various candidates for United States Senator and Governor.

The new totals computed on adding machines give Jules Penrose 56,308 votes, instead of 56,200; for Governor the correct figures have been certified as: C. McCormick, 45,913, instead of 45,229, an increase of 684; Martin G. Brumbaugh, 63,466, instead of 61,467, an increase of 1,999.

The recount was made as the result of the filing of a petition by Walter J. Christy, chairman of the Republican county committee. The corrected figures have been certified to the Secretary of the Commonwealth.
