Handkerchiefs Solve Many a Gift Problem When It Comes to Choosing for a Man

Men are alike when it comes to receiving gifts at Christmas. Very often you will hear them say, "Oh, don't bother about giving me anything." And yet when the distribution of gifts occurs on Christmas morning a man is as glad of the presents he gets as any other member of the household. Important in the list of gift things for a man are handkerchiefs.

- Men's initial all-linen hemstitched handkerchiefs. One-half dozen boxed 75¢
- Men's initial fine quality linen handkerchiefs. One-half doz. boxed, \$1.40; each, 25¢
- Men's plain hemstitched all-linen handkerchiefs. Each 12½¢ to 50¢
- Men's fine cambric initial handkerchiefs, in two new styles of initials. One-half dozen boxed, 70¢; each 12½¢

LEMOYNE PLANS BIG CHRISTMAS EVE EVENT

(Continued From First Page)

cut it and will help bring it to Lemoyne. Men from the Dauphin Electric Supply Company, 434 Market street, this city, will do the wiring and arrange for the lighting. John Musser, president of the company, will furnish the wires and sockets for the globes and C. H. Bishop, of the Valley Railway Company, will lend the committee in charge the lights for the tree. A four-foot star will be placed at the top of the tree and the remainder of the decorations will be electric lights of different colors strung around the branches. The council of Lemoyne has furnished the money for the payment of the electricians and other small expenses.

Everybody's Working
Every one in the town is working to make the affair a success. The committee in charge of arrangements includes: Professor W. C. Bowman, chairman; S. J. Jennings, C. L. Eby, Earl Baker, L. F. Baker, Mrs. E. S. Everhart, Mrs. M. L. Rice, Mrs. Whit-

ney Mumma and Mrs. Robert McCormick. L. F. Baker is chairman of the music committee. Other members of this committee are L. M. May, director of music in the Church of Christ, Lemoyne; T. J. Bard, choirmaster of the United Brethren Church, and W. E. Kimmel, of the Lemoyne Band. The musical program which will be presented at the outdoor exercises on the eve of Christmas has not been completed but Mr. Baker said that the Lemoyne Band, the pupils of the schools, an orchestra, choruses of men and women and quartets will furnish one of the best musical programs ever given in the village. The remainder of the program will consist of the presentation of toys to the children, and several short talks by some of the prominent residents of the town. Mr. Eby, Mr. Jennings, C. E. Hoerner, W. D. Mumma and St. F. Kahney have consented to be Santa Clauses for the event. The sixth one will be appointed in a few days.

Food For Poor Families
Toys for more than six hundred children were purchased by the women of the committee who collected the funds from the residents of the town and nearby districts. The plans for the work were made at a mass meeting held December 7. More than a dozen baskets will be given to the poor families who are in need. Rich and poor children will be treated alike in the toy distribution. The girls of the Lemoyne high school have made a complete canvass of the territory around Lemoyne and have secured the names of more than five hundred children. Each child will receive a ticket on which his name, age and sex will be written and this will be presented to one of the Santas in exchange for a present. The girls will distribute these tickets before the end of the week.

Any child that may have been overlooked will be taken care of by Dr. E. S. Everhart, of Lemoyne, is told about it and given the child's name. The toys have been divided into four groups, one lot for boys from 1 to 6 years of age, the second for boys from 6 to 12, the third for girls from 1 to 6 and the fourth for girls from 6 to 12. This was done so that each child will receive something appropriate according to age. The toys will be wrapped and marked Friday and Saturday evenings by the high schools girls in the school building. Members of the committee will be present to help the students in their work. About 350

children from the schools will sing at the entertainment. The tickets and printing of announcements for the mass meeting was done by E. S. Mills, job printer in Rossmore street below the Square. In addition to the big entertainment all of the churches of Lemoyne will have their regular Christmas exercises on Sunday, December 20, and on Christmas Day.

EMPEROR GIVES MEDALS TO WOUNDED IN HOSPITALS

By Associated Press
Kars, Transcaucasia, Russia, Dec. 15, via Petrograd, Dec. 16.—Emperor Nicholas reached here December 13 from Petrograd. He was welcomed at the railroad station by the military authorities and received with enthusiasm by the populace. He drove through the city and visited the local hospital where he distributed medals to the wounded. Later he looked over the fortifications of Kars and thanked the local commander for the excellent condition in which the fortresses were being maintained.

The following day Emperor Nicholas went to Sarakamye, which is the head of the railroad leading to the positions occupied by a large proportion of the Russian troops in the Caucasus. Along this line are concentrated large numbers of reserves and supplies of munitions of war and food.

GETTING THE MIDDLE VALUES IN PHOTOGRAPHY.

The actual work of breaking up the bromide of silver, where it has been acted upon by the light, is performed by one of the constituents of the developing solution, called the **reducing agent**. The balance of the emulsion, in the deep shadows and dark parts of the picture, which received no reflected light from the subject, will remain creamy white as before, but this unaffected portion is completely dissolved and eliminated by the hypo (hyposulphite of soda), leaving these parts of the plate clear and transparent. Between these two extremes, of transparent film and dense, black high light, is a wide range of middle values constitute the gradation of the negative, and they may be altered to a considerable extent by different methods. Negatives in which the gradations are many and gradual are termed soft, while those in which they are few and abrupt are said to be hard and to have contrast. It is of the utmost importance for the beginning photographer to train his eye to these differences in gradation, both in negatives and prints, as it is possible to work consciously for either-softness or contrast.—January OUTING.
