## QUARRIES ARE TO BE GIVEN A CODE

State Will Draft Rules and Regulations For Conduct of Operations in Stone

A committee of experts on operation of quarries, employers and quarry workmen has been asked by Dr. John P. Freese, State Commissioner of Labor and Industry, to frame a code of regulations for safety in quarry management, which will be submitted to the State Industrial Board for ratification. Next to the regulations for iron and steel mills, textiles, foundries and a few other lines, this code will be one of the most important to be framed and will cover hundreds of operations in quarrying.

The first meeting of the committee has been called for January 7 and it is expected to complete the code in a few months.

Board Wants Armories.—Officials of the State Armory Board will meet next month to outline a plan for appropriations to cover erection of armories for organizations of the National Guard not owning their own homes and the program will likely extend over several years. ## NEWS OF THE RAILROADS

### WHAT INJURIES MEAN TO MANY RAILROADS

Safety First Methods Urged to Prevent Outlay of Millions of Dollars

In a bulletin urging still closer attention to safety first methods, the Pennsylvania Railroad gives a few figures showing amounts paid out for personal injuries. Reference is made to the severe blows dealt the railroads by interstate commission rulings, and for this reason a curtailing is necessary wherever possible. The bulletins continue:

"The cost to forty of the principal railroad systems in this country, operating 812,283 miles of track, for personal injuries, for the year ending June 30, 1914, was practically thirty million dollars—\$29,996,617, to be exact."

"An official of a Western railroad has recently estimated that the cost per year of personal injuries to all of the railroads in the country is not less than \$57,000,000."

"The Pennsylvania Railroad Company paid for personal injuries in the year ending June 30, 1914, \$1,098,226, while the Pennsylvania Lines West of Pittsburgh paid \$976,177, making a total for the System of \$2,074,403."

"The number of car miles a railroad produces per one dollar paid for personal injuries is accepted as a proper basis for comparing cost to the railroads of personal injuries. In the year ending June 30, 1914, the Pennsylvania Railroad paid one dollar for personal injuries for every 1579 car miles. The average last year for all paid for forty-four systems for which statistics have been compiled was 740 car miles per one dollar paid."

## THE NAKED TRUTH—PHOTOPLAY TODAY

"The Naked Truth" a five-act drama, presents a story of real woman taken from the joys and sorrows of life as they are to-day. This picture has been adapted by the center of the industry into one of the greatest "kiddie" attractions in vaudeville.

"The Girl in Question," in one reel, and "The Pathic Daily News" conclude to-day's program at the Victoria.—Advertisement.

## CHRISTMAS AT THE ORPHEUM

Santa Claus and his reindeer are headed for Harrisburg, according to a letter received by Manager Hopkins, in which it is stated that the Jolly Old Saint is now on his way to this city, via the clouds route, and that he will go down on the Orpheum chimney some time Sunday and Thursday, to see with him myriads of toys, something to delight each girl and boy, and beginning with the Monday matinee, Santa will appear on the Orpheum stage and will have something nice and something to eat for every child in the audience in any part of the house. And then he will be on the job Tuesday, Wednesday and Thursday—each matinee during the week prior to Christmas Day.

After when the management decided on bringing the "Dream Pirates," a rollicking juvenile production, to the Orpheum, the management is also planning in mind, to say nothing of Derk's Annual Circus, a veritable menagerie of educated animals, offering one of the greatest "kiddie" attractions in vaudeville.

In accordance with their annual custom, the Orpheum management is also arranging to give a treat to Harrisburg's orphan children, its crippled and feeble minded, at the various charitable institutions, by giving them a free theater party on Tuesday afternoon. The children will be privileged to see the performance as well as receive their gifts from Santa Claus.

The interior of the theater will look its best. The Yuletide spirit will be at its height in the elaborate and festive decorations, and Santa Claus will also go a long way toward adding a genuine Christmas touch.—Advertisement.

## AMUSEMENTS

### ORPHEUM

Opportunities for helping the Rotary Club to raise funds for the other boys who lose the week passes by. These are reasons why local theatergoers should turn out in fine numbers to give these remaining performances a whirlwind finish. The Orpheum's bill is a regulation metropolitan vaudeville show and even if we didn't care to help the stricken Belgians, the show itself is worth several times the price in vogue at the Locust Street Playhouse. The Orpheum's Christmas tree is due here Monday. That is, figuratively speaking, of course, but nevertheless the choice line of material on its way should delight the hearts of grownups as much as give the children ornaments of a real Christmas tree. At the top of the Orpheum's Christmas tree, standing head and shoulders above all the other trees, are Bart McHugh's "Dream Pirates." This is one of those classy, infectious and tuneful juvenile productions. The act carries special scenery representing the deck of an ocean liner, and the pretty "girles" appear in several changes of fetching costumes to inject the tuneful musical scores. It will be remembered that Mr. McHugh was the producer of "The Law Party," seen at the Orpheum several weeks ago. Josephine Davis, who was at the Orpheum about four seasons ago, and who was such a big favorite then, appears here next week also. Since she was in Harrisburg, Mrs. Davis has encircled the globe, and this season is her first in America since she was at the Orpheum.—Advertisement.
