1915 and the Church

After a few more days have passed we will say farewell to 1914, and greet a New Year. There is always more or less sadness in seeing the old year die, but with the birth of a new period of time there comes the opportunity for us to examine carefully our record of the past, and to formulate our plans for the future.

Through the experiences of the old year we have gained knowledge which we should apply to our lives in 1915. Such experiences should make us lead better lives.

The birth of the New Year is a time of resolution; not any more so than every day of the year should be, except in that we face a new period of time 365 days in length, not one minute of which we can borrow or use in advance. But with the coming of the year we can plan how we are going to live our lives in that time.

There is never any time like the present for doing good---doing that which we know we should do. 1915 will bring with it many problems which we individually and collectively will have to solve. Some of them will be new problems---some of them the ever-recurring fights with ourselves.

Both individually or collectively we need to be more strongly fortified so that we may accomplish a greater amount of good than we achieved in 1914. Whether this good be for ourselves or a community --- for the nation or the world,

The Church Will Be the Greatest Factor in Making 1915 Happy

As we face the coming of the year 1915 we should examine our lives of the past and if we find that we have not supported the church of the Living Christ as we know we should have, our one earnest resolve should be that we will
