

HARRISBURG TELEGRAPH

Established 1832
PUBLISHED BY THE TELEGRAPH PRINTING CO.
E. J. STACKPOLE
President and Editor-in-Chief
F. R. OYSTER
Secretary
GUS M. STEINMETZ
Managing Editor

Published every evening (except Sunday) at the Telegraph Building, 214 Federal Square, Both phones.

Member American Newspaper Publishers' Association, Audit Bureau of Circulation and Pennsylvania Associated Dailies.

Eastern Office, Fifth Avenue Building, New York City, Hasbrouk, Story & Brooks.
Western Office, Advertising Building, Chicago, Ill., Allen & Ward.

Delivered by carriers at six cents a week. Mailed to subscribers at \$3.00 a year in advance.

Entered at the Post Office in Harrisburg, Pa., as second class matter.

Sworn daily average for the three months ending Dec. 31, 1914. 22,692

Average for the year 1914—23,102
Average for the year 1913—21,577
Average for the year 1912—21,175
Average for the year 1911—19,851
Average for the year 1910—17,405

WEDNESDAY EVENING, JAN. 6

WHAT THE STATE LEGISLATORS SHOULD KNOW

GOVERNOR JOHN K. TENER yesterday told the legislators of 1915 what they ought to know. And he told it in the very first section of his farewell message to the lawmakers. Out of the experience of four years and from his own good hard business sense he set forth the fact that the next Legislature will have less than \$49,000,000 to appropriate.

Father Penn gets the bulk of his income from corporation taxes of various kinds, and the revenues of 1915 will be paid on values in 1914. We know what a year we have just survived. The legislators ought to realize from the statements of the Governor that there will be nothing like what there was two years ago, or even four years ago. The money is not in sight.

Then the Governor calls attention to the work done by the State Board of Public Charities in recommending the amounts to be appropriated, saying he has profited by what it has done.

Appropriations form a great factor in legislation, and, without regard to the other valuable suggestions in the message, the lawmakers can find much of profit in the references to public finances in the final Tenger state paper.

"NOTHING OF CONSEQUENCE" SAYS A MORNING CONTEMPORARY of the message submitted yesterday by Governor Tener to the Legislature:

The one thing that might be considered as making it commendable is the fact that there is nothing of consequence in it to forget. "Nothing of consequence?" Nothing but recommendations for workmen's compensation, woman's suffrage, water power conservation, development and control; for a canal system that shall tend toward lower freight rates, for the purchase of additional forestry reserves, more State police, the better equipment of the National Guard, better insurance and banking laws, reform in State appropriations, the extension of Capitol Park, the establishment of a bureau of housing, the adoption of a State building code, and the creation of an adequate forest fire fighting force.

"Nothing of consequence," indeed. Why the message fairly teems with the constructive and the humanitarian. It reflects the Governor's experience and his observations. It is both practical and progressive.

There is consolation in this thought, however. In light of a recent public event that attracted somewhat of the State's attention at the time, Governor Tener need not disturb himself much as to what the aforesaid contemporary may or may not say regarding this or any other topic. The voters have taken its Fertillion measurements and have them on file for ready reference.

TRYING TO DECEIVE STRENUOUS attempts are being made by some of the opponents of the retiring administration to create the impression that discord exists between Governor Tener and Dr. Brumbaugh in regard to appointments. The action of the Senate in creating as a formal committee the subcommittee heretofore named to consider appointments to be considered has been twisted, distorted and turned about and efforts made to picture Governor Tener as resenting the action.

When the facts are known one can understand why Governor Tener laughed last evening when asked about the matter. It has been the custom for years for the appointments made by the retiring Governor to be held by the Senate, where they are sent for confirmation, to defer action until the new Governor comes in. As a rule they have been confirmed and there is nothing whatever to indicate that appointments by Governor Tener will not receive approval of the Senate after January 19.

KEEPING PLEDGES NOTHING was more significant in the opening sessions of the Legislature yesterday than the action of the two houses in naming a committee to meet with Governor-elect Brumbaugh to discuss legislation. The avowed object is to carry out the pledges of the Republican platform.

Not only is this action unprecedented, but it denotes the intention of

the leaders to work right with the new Governor. Dr. Brumbaugh has taken the position that pledges are pledges and so have the legislative leaders. The new Governor has indicated a desire to have the legislative majority work with him, shoulder to shoulder, for the keeping of promises.

The legislators have answered the call to duty and the pledges will be kept.

CONSCRIPTION JUSTIFIED

If they think they are going to enjoy a life of freedom at the other fellow's expense, they won't enjoy it much longer.

So declared Thomas J. MacNamara, parliamentary secretary of the British Admiralty, the other day, in referring to the fact that there are many thousands of young men in the United Kingdom, without dependents, who have not yet answered the call to colors. Army and navy increase by conscription is evidently what Mr. MacNamara means.

Is England justified? We think she is. While war is never justifiable in the light of modern civilization, yet when war does come and a nation is in danger young men upon whom no others depend should be made to aid in the country's defense. It does not speak well for England's young men that conscription must be resorted to in a time when her all is at stake. But if such measures are necessary England should not hesitate to use them.

HUMANITARIANISM PAYS

WARDEN OSBORN, of Sing Sing, has issued a report showing that under the new humanitarian rules trouble in the big penitentiary has greatly decreased. It is not strange that men should act less like beasts when they are treated less like beasts. Put any man of average decency in a pen such as Sing Sing was before the new humanitarian system went into effect and in a year he would come out far worse than when he entered. The day of treating criminals as though they were dogs is past. It has been found that the prison farm is the best solution to the problem of making men out of the scum and raffle that fill the jails. Harrisburg, itself, took a step in the right direction recently when it decided to send men to the stonpile and to the poorhouse farm rather than to jail for petty offenses.

COMFORTING NEWS

ACCORDING to an American physician just back from abroad, shrapnel wounds resemble those inflicted by dum-dum bullets. On this fact he places the blame for the charges of war rules violations made by officers of armies now in the field. Such an opinion, if based on fact, is comforting in that it shows the warring nations are not without honor in holding to the rules of the game. Irvin S. Cobb and other noted correspondents, who have been in close contact with the fighting forces, have repeatedly declared they saw no dum-dum bullets at any time. Many of the correspondents report also that there is little or no truth in many of the stories of barbarity and cruelty reported in this country. It is with feelings of relief that America learns the real facts in the case, for if the stories reported from the battlefield and the invaded countries were true, all Europe must have been peopled with madmen.

GOOD HOUSEKEEPING

SUPERINTENDENT BOWMAN is to be congratulated upon his administration of the water department for the past year. Not only did he reduce the water rents shortly after taking charge, but his annual report, submitted yesterday, shows that he has saved \$32,367.56 in the operations of the department and has been able, nevertheless, to set aside a surplus of \$89,915.93, which it is understood he will use for the purpose of purchasing outstanding city improvement bonds.

Thus the taxpayers in one year have paid less for their water, the running expenses of the department have been reduced and a handsome sum set aside for the reduction of the city's bonded debt. This is most excellent housekeeping, indeed, and Mr. Bowman might have rested on his laurels and the public would have been content. But he is bent on doing more. This year water rates are to be lower still, other savings are to be effected, and, even so, the superintendent's estimates for 1915 indicate that there will remain a surplus after all bills are paid.

If Mr. Bowman intends to be a candidate for re-election next Fall, he can do no better than to rest his campaign on his achievements in office.

COASTING DANGERS

CORES of injuries and one death have been reported through the local hospitals as a result of coasting accidents during the last three weeks.

In nearly every case these accidents were the result of foolhardiness and lack of caution on the part of the coasters themselves. A street car motorman is almost powerless to prevent accidents when a swift-moving sled comes dashing across the rails in front of his car. It takes a teamster of more than ordinary nerve and coolness to avoid injuring the boy or girl who runs beneath the very hoofs of his horses.

Parents should warn their children against taking chances where there is the least danger from vehicle or motor traffic. And it would be well if the police would arrest such coasters who step beyond the pale of common sense and forget the principles of "safety first."

AN EVENING THOUGHT

We need to guard against making a show of our praying, talking about it. —J. R. Miller.

EVENING CHAT

Many Harrisburgers learned with regret to-day of the death in Florida of James K. P. Hall, former Congressman and late State Senator. Mr. Hall died on the day of the organization of the first Legislature in which he has not been a great factor since 1903, and the sad coincidence was much commented upon. "The Senator from Elk," as he was familiarly known, was a type of the man who goes out in life with a definite program and makes good at it. He started life as a lawyer and served as district attorney of his county, retiring to devote himself to his numerous interests in the coal and lumber regions. Then he became active in politics again and was elected to Congress and then to the State Senate. Mr. Hall came of a notable family and his connection with Harrisburg really began when he was a boy. He came to this city to attend conventions and with his brothers was interested in legal matters here. Consistently he knew Harrisburg for fifty years and his reminiscences of the men who figured in State affairs were very interesting. All these years he was a staunch friend of the city and aided in getting through legislation that benefited Harrisburg, not the least being his constant interest in the In Demographic affairs he was active and often in this city during his service as State chairman and as delegate to conventions. To many Harrisburgers and brilliant successes, will be of much interest.

A good story is going the rounds on Capitol Hill. It concerns Senator W. C. Sprull and came out the other evening at a caucus. Senator D. P. Gerberich referred to him as the man arrested as a spy. It happened that when the war broke out the Senator was in Germany. He was taken as an Englishman and was arrested three times, being able to prove that he was an American. He says he does not want to go back until things settle down.

One of the interesting things in connection with yesterday's organization of the Legislature was that it went back to the old way of doing things with a few additions. Last session radical changes were made under the impetus of the political movement, especially in Congress. The speaker's power was curtailed and the appointment of committees and pretty nearly everything else given to a special committee. This did not work out well and yesterday the House and Senate put the power back in the presiding officers' hands. This means that the committees will be selected by the men in charge of the committee. In many other ways the return to the old methods was emphasized but the houses also took the step of consulting with the new Governor. This did not work out well and yesterday the House and Senate put the power back in the presiding officers' hands. This means that the committees will be selected by the men in charge of the committee. In many other ways the return to the old methods was emphasized but the houses also took the step of consulting with the new Governor. This did not work out well and yesterday the House and Senate put the power back in the presiding officers' hands. This means that the committees will be selected by the men in charge of the committee. In many other ways the return to the old methods was emphasized but the houses also took the step of consulting with the new Governor.
