

Women AND THEIR INTERESTS

Women With Empty Lives

By BEATRICE FAIRFAX.

Of course, we all know the old truism that Nature abhors a vacuum—and we dismiss the idea without applying it in any personal way to our own lives. But if a vacuum is abhorrent in science and all the "ologies" and "isms" of book and laboratory life, it is equally so in the vast field of humanity. There is nothing that is more unnatural and harder to endure than a life that is based on nothing and filled with nothing.

of treated so that they are like boxes with a few trifles rattling around inside. Then there is the wife who delegates all the real work of her life to paid help, and never tests her thinking any working powers to the utmost; the young man who prefers to be a waster instead of a worker; the boy who never puts his mind to his tasks, but says instead, "You ought to have fun when you're young," and the middle-aged man who lets himself go to a word and prefers a game of golf to a seventh-day day in the office.

ECZEMA ALL OVER SISTER'S HEAD

Back of Neck and Both Sides Face. Lost Hair. Two Cakes Cuticura Soap and One Box Cuticura Ointment Healed in Two Months.

P. O. Box 73, Allison P. O., Pa.—"My sister was very badly troubled with eczema all over her head, the back of her neck and both sides of her face. She lost all her hair, too. The trouble began with a small sore not bigger than a dime which my sister brushed out and thought it went away, but later her whole head began to be covered with small pimples. Not only her whole head was covered, but also her neck and face. Later they became large sores. Her hair was all plastered to her head. She always wore a little hood. "She used salves, but without success. A doctor recommended Cuticura Soap and Ointment. She used two cakes of Cuticura Soap and one box of Cuticura Ointment which completely healed her head and face in less than two months, after six months of torture." (Signed) Miss Mary M. Naggs, September 17, 1914.

Sample Each Free by Mail With 32-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Thickness

Common garden sage brewed into a heavy tea with sulphur and alcohol added will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching, itching, itching. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

Cumberland Valley Railroad TIME TABLE In Effect May 24, 1914. TRAINS leave Harrisburg— For Winchester and Martinsburg at 8:35, 7:50 a. m., 2:40 p. m. For Hagerstown, Chambersburg, Carlisle, Mechanicsburg and Intermediate stops at 8:42, 8:50, 9:58 a. m., 3:40, 5:32, 7:40, 11:00 p. m. WHERE TO FIND NATIONALLY ADVERTISED GOODS

The World's Best Merchandise In and Near

HARRISBURG, PA.

Merchandise that will bear national advertising has to have exceptional merit. else the manufacturer could not afford to spend large sums of money for the advertising, and to attach his name and reputation to an article that was not extraordinarily meritorious, for it is the repeat sales that he depends on. It is therefore quite evident that when an article is nationally advertised and nationally sold, year in and year out, year after year, it is exceptionally good goods to stand the test and prove worthy of continued sales and growth. It is conceded by experts that when an article is advertised generally—nationally—it is the best possible product. The wise always, in consequence, prefer nationally known goods and ask for what they want by name. Read the magazines and keep posted on nationally advertised goods.

Directions For Clean Cellars; Lime Best For Dampness

If rain gets into the cellar or there is any leakage whatever to cause dampness, have it attended to at once. A damp cellar, aside from being dangerous, will ruin practically all foods. Large boxes of lime should be placed in the cellar and lime should be sprinkled over the floor. For several days there should remain in the cellar cans of chloride of lime in water. This purifies the air. Provide dry boxes for fruit, which should be raised from the floor by bricks. One brick may be placed under each corner of the box. Even barrels should rest on bricks, or, better still, should be set on long pieces of scantling. A swinging shelf placed on iron hooks away from the wall is excellent for holding baskets of onions, potatoes, tomatoes and other things that one wants within easy reach. When the side walls, ceiling and floor of a cellar have been swept and the shelves carefully cleaned you may apply a good coat of whitewash, or two of them if necessary. This finished, wipe up the floor, throw open the windows, and the cellar will at once smell sweet and wholesome. Strictly speaking, cleaning the cellar is a man's work and should not be undertaken by a woman unless in case of dire necessity, but it is essential that a woman superintend the task. A mere man is apt to leave dirt in the corners and cobwebs in out-of-the-way places.

ADD FINISHING TOUCHES TO PARKLAND SLOPES

Finishing touches to the rough "fill" work on the River Front embankment south of Paxton street were added Saturday by a big gang of men under the supervision of Park Commissioner M. Harvey Taylor. All Saturday morning the big dump wagons from the Second street subway job hauled loads of earth to the section where the workmen spread it over the slopes. By noon this end of the improvement work was practically completed. The results of the filling in of the park slopes between Paxton street and Iron alley are readily observable now; the park strip in the extreme lower end of the city has been broadened until it slopes abruptly but uniformly to the River Wall. Grass seed will be sown there in the Spring.

TO IRON HANDKERCHIEFS

When ironing handkerchiefs begin by ironing the middle. If you iron the edges first the middle will swell and make the handkerchief very difficult to iron and fold properly. Always test the heat of the iron on a piece of rag or paper before ironing handkerchiefs, as being thin they scorch very easy.

"A BREATH OF OLD VIRGINIA," CLEVER SKIT AT THE ORPHEUM

Miss June Keith, who will appear at the Orpheum this week surrounded by a clever company in the new sketch, "A Breath of Old Virginia," is one of the most fascinating little women on the vaudeville stage. The piece she is featured in is a new act by Joseph Hart, producer of "The Green Beetle" and other successes that have been shown from time to time at the Orpheum in Harrisburg. "A Breath of Old Virginia" is declared to be one of Mr. Hart's best offerings.—Advertisement.

FINISHING FRONT STREET PIPE

By the middle of this week Contractor Millard F. Saul expects to add the finishing touches to the Front street pipe line job. The new water mains have been extended to within a few feet of Paxton street and the contractor and a gang of sixty or more men are now closing up the excavations. Cold weather, snow and rain and some old and nearly forgotten sewers which crossed the pipe line's right of way at certain points, delayed the work from time to time but generally speaking Mr. Saul made remarkable progress on the job.

SANITARY HOSPITAL CLOSED

The city sanitary hospital is closed again after the discharge, on Saturday, of R. L. Hinkson, a dancingmaster, who was confined several weeks ago with a mild case of smallpox.

WHITE BROADCLOTH AND SERGE

The Dry Goods Economist says that during the last few weeks a number of suits of white broadcloth and of gabardine have been seen in Fifth avenue and in the smart tea rooms of this city. These suits were handsomely trimmed with fur, were very striking in appearance, and caused considerable comment. For winter resort wear many white suits have been ordered in gabardines, serges and in poplins. The majority of these are trimmed with white braid and white buttons. In some instances, however, touches of black are effectively used, and black-and-white linings are also employed with good effect, thus carrying out the black and white combination idea which is also expected to be very smart during the coming season.

PIPE CAUSES FIRE

A \$10 fire was caused about noon yesterday at the home of Daniel Schoff-stall, 1217 North Second street, when a lighted pipe was upset on a table by a policeman. The fire was extinguished by Policeman George Petrow.

Pictorial Review Patterns

alone, lend to your dress that certain chic and style so much desired by all good dressers. That is the reason why all first-class dressmakers use them. If you have never used a Pictorial Review Pattern Try one just to convince you of their superiority over any other pattern.
