Madam, How Is Your Range Coal?

Does it catch up quickly in the morning? Or must you wait for an hour or more, after the drafts are turned on, before you can get breakfast on the stove?

This is not as it should be.

If the fire burns too slowly you are without doubt using coal that is too hard. The softer the coal the quicker it catches up and the more heat you will get.

If you are using all hard coal try hard and soft mixed in equal amounts and if that don't work satisfactory we can make the mixture one-third hard and two-thirds soft. Or we can send you Anthracite coal that is all soft.

We are prepared to mix coal in any proportions. Let us send you a sample.

RED CROSS SALES CHAMPIONS

From left to right: Miss Winifred Welcomer and Miss Maria Mausteller, twins, who made greatest individual sales of Red Cross Christmas seals in public school campaign.

SMALL FOLKS HELP FIGHT WHITE PLAGUE

Pretty Winifred Welcomer Best Red Cross Seal Salesman; Twins Rank Second

Official returns of the 1914 Red Cross Christmas seal sale that are now being compiled in this city, however, indicate that more than \$2000 will be available from the crusade to help wage Harrisburg's fight against tuberculosis and of this amount, considerable more than 30,000 were contributed by the city's 11,000 school children. On an average each school boy and girl sold about six seals, as the total school distribution amounted to 65,034.

Miss Annie L. Weitmyer's room in the Cameron building led all the other schools in this city, however, with the remarkable record of 4809, while Miss Kennedy's room in the same building was second with 3132. The extraordinary sales there were due largely to a system inaugurated by Principal G. Herman Getz, who suggested that every child assume the responsibility to dispose of forty or fifty seals. In extending his thanks and appreciation for the wonderful co-operation of the school children in the campaign, Dr. C. R. Phillips, chairman of the committee, called particular attention to the system and suggested its application in all the buildings in the future. "Harrisburg cannot ever thank its school children enough for their share in this big work," said he. He paid a special tribute to the pupils of Miss Weitmyer's room and to Miss Weitmyer herself.

In that room the high sales-pupil was pretty Miss Edna, who, with her sister, who disposed of 1100 stamps alone, while Louis and Maria Mausteller, twins, together sold 1180 or 730 and 450 respectively. Edward Roeder sold 532.
