work and devices and through which all suggestions will be sifted. This co-operation between the offi-clais and employes of the company may be expected to have a markelly beneficial effect. The keys of the boxes in which the safety first suggestion will be deposited are held by the cen-tral committee, so there is no danger of any tampering in transit and every suggestion will reach headquarters. The simple and more inexpensive ones will be handled by the local-commit-tees, and the more elaborate and ex-mensive will be passed upon by the central committee. It is often the "man on the job," the workman familiar with conditions and with knowledge of the dangers that surrounds him, who is best able to devise preventative means. The Dela set an example for other companies by encouraging the miners to think con-structively along these lines.

Tener's secretary, makes it certain in the minds of many that he will be pri-vate secretary. —Dr. Brumbaugh declined to make any announcements yesterday and after his inspection of the mansion, motored to the home of Senator Ed-ward E. Beidleman, chairman of the joint inaugural committee, who has been ill for a week and talked over the plans for Tuesday's ceremony ex-pressing the hope that the Senator would soon be about. Then he went to the residence of E. J. Stackpole, a life-long friend, to tender best wishes for a speedy recovery. On his trips about the city the new Governor saw the inaugural stand. About 5 he returned to the mansion for a bite of supper and left at 6.24 for Philadel-phia. Mr. Cunningham joined him at the station. —Dr. Brumbaugh will not have his legal residence here during his occu-pancy of the executive mansion. He will vote in Germantown.

100 Years Old

I This institution has just closed its hundredth year in banking.

It is but natural that at the end of a century we should pause and take note of what has been achieved.

I And what a contrast we find in the conditions under which we face the second century, when compared with those that surrounded the little group of men who inaugurated this bank back in 1814.

I Compare the limited facilities at their disposal with the paid-in capital, surplus and profits and stockholders' liability of to-day, totaling a million dollars--a security that stands back of every dollar deposited in this bank.

Theirs was to win confidence---ours is to sustain.

I As we cross the threshold of the one hundred and first year, we pledge ourselves to maintain those principles that will merit a continuance of the public's trust reposed in us---a trust to which must be credited all our accomplishments and successes of the past century.
