VIGOROUS CAMPAIGN AGAINST LICENSE

Carlisle Indian School and Conway Hall Figure Prominently in Movement

Special to The Telegraph
 Carlisle, Pa., Jan. 20.—After a vigorous campaign, full of charges and counter charges, and in which the furnishing of liquor to students and graduate residents at the Indian school figured prominently, the end of the early stages of the movement being waged for the return of the remonstrances to eight Cumberland county hotels came to-day with the filing of remonstrances by the temperance forces. The cases will come up in court next Monday.

Action was begun by branches of the No-License League and W. C. T. U. in various sections of the county with the result that the granting of licenses to four Carlisle hotels, two in Newville, the Churchtown Hotel and

the Mount Holly Inn, a well-known summer resort, will be opposed.

Both the Indian school and Conway Hall have come into the limelight as the result of the movement with the alleged sale of liquor to students at these institutions. Recently a bar clerk, at the New Wellington Hotel, was arrested for selling liquor to Lewis Twinn, a former student. On Monday evening, immediately following the arrests in the Wellington case, three Indians in citizen's clothes applied for liquor in various quantities. They were refused. When red-headed Indians, dressed as Italian street laborers apply at the bars, liquor men say, that it is practically impossible to distinguish them without the services of a race expert.

Yesterday remonstrances were filed against the Holly Inn and Churchtown Hotel. The former bore the name of 225 men and women. The Churchtown application was signed by over 100 persons. Signed by several hundred citizens remonstrances against granting licenses the applicants for the Newville hotels were filed late yesterday afternoon.

The streets of the Shamokin Valley for a distance of twenty miles the storm was felt the hardest.

Standard Remedy For Many Homes

Indigestion and constipation are two conditions closely related and the cause of much physical suffering.

The tendency to indulge one's appetite is general, so that most people suffer at some time or another from rebellion of the over-taxed organs of digestion and elimination. A simple, pleasantly effective remedy that will quickly relieve the congestion of poisonous waste and restore regularity, is the combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. This is a mild, pleasant laxative- and digestant, absolutely free from opiates or narcotic drugs and has been the standard household remedy in countless homes for many years. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ill.

J. EDWARD WARDEN
 Lieut. of Police, Who Served Two Terms as a Sergeant.

By "WELLY" JONES
 Harrisburg has a wide-awake lieutenant of police. He is known officially as J. Edward Warden. "Silent Ed" is another name for this member of the police department. He has a system which keeps him in close touch with every district and on emergency jobs he is "Eddie on the spot." Lieutenant Warden keeps a record of all arrests made at night, events leading up to the arrests and of the dispositions made of persons arrested. He is called "Silent Ed" because he has very little to say. He is quite modest in his manners and never fails to do his duty.

He served before J. Edward Warden is well and favorably known throughout Harrisburg. He was born at Chambersburg, Franklin county, during the year 1871, and two years later came to Harrisburg with his parents. He received a public school education.

Fritche appointed J. Edward Warden sergeant of police, and he was re-appointed under Mayor Vance C. McCormick. Afterward he followed his trade at the Pennsylvania Steel Company until appointed lieutenant of police by Mayor John K. Royal.

\$200,000 Overcharges Are Alleged by City in Phila. Light Bid

Evidence, seeking to show cause why the bid for contract between the Philadelphia Electric company and the Quaker City should not be approved was presented to the Public Service Commission, to-day.

Much of the morning session was taken up with arguments between the attorneys as to the proper method of procedure. William Draper Lewis represented M. L. Cooke et al., who in the name of the city, are fighting the terms of the company and Frederick W. Fleitz for the light company.

After considerable argument Mr. Lewis agreed to the approval of the bid in an ordinance providing the city should have recourse to the commission for the returning of excess charges under the terms of the agreement.

W. A. Pike, chief of the Philadelphia electrical bureau, was the first witness called. He contended the company should not charge more than \$65.91 for extra arc light. The present rate is \$81.21. The excess charges are estimated at more than \$2,000,000. Mr. Pike recommended the placing of four amperes masonite arc lamps in the city instead of the present 6.6 amperes lights. He claimed they would furnish better light at a cost of \$55.25 each and still give the company a 7 per cent. profit.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Advertisement.
