 HARRISBURG'S POPULAR DEPARTMENT STORE

THE GREAT JANUARY CLEARING SALE

Offers Tremendous Savings in Men's and Young Men's Wearing Apparel

This Sale of Women's Shoes

Started out with 3,273 pairs of high grade, stylish shoes, and instead of being marked at proportionate reductions according to the newness of the styles, or goodness of the quality, every pair has been marked

\$1.49

Of course, they had a standard "regular" price, but then some have never been in stock before, having been bought for Spring selling, and these are **\$1.49** just the same.

Important to Remember

The lot is NOT a shoe clearance. The entire stock was purchased at one time, and had it not been for the extremely low prices at which they were bought, and the very large quantity, they would have been placed in regular stock for regular selling. There are **ALL** sizes. It will pay you to investigate.
 Third Floor—BOWMAN'S.

A New Price on Every Hat in This Clearance Sale

There are flat hats in green, tan, brown and gray—cloth hats in blue chinchillas and mixtures—black derby hats. Reduced as follows:

- \$1.00 hats **65¢**
 - \$1.50 hats **95¢**
 - \$2.00 hats **\$1.10**
 - 50c caps **35¢**
 - 25c caps **15¢**
 - \$1.50 fur caps **\$1.00**
 - \$2.50 fur caps **\$1.65**
 - \$3.50 fur caps **\$1.95**
- Third Floor—BOWMAN'S.

A Lively Dismissal of Boys' Overcoats & Suits

The following number represent a great saving in winter needs for the boy—excellent garments for hard school wear combining warmth and service.

Boys' Chinchilla Overcoats at \$3.75—regularly \$4.45, \$4.95 and \$5.95—in gray, blue and brown; shawl collars; belted; sizes 2 1/2 to 17 years; all the latest models.

Boys' Balmacaans at \$3.45—regularly \$4.45 and \$4.95—in gray, blue and brown; also fancy mixtures; sizes 2 1/2 to 10 years.

CITY BIRTH RATE CAUSE FOR ALARM

(Continued from First Page.)

Important matters dealing with the health and sanitation of the city which are included in the health officer's recommendations and suggestions.

The report is probably the most voluminous and instructive as to detail and data that has been submitted to council. Every phase of the work

of the year is mentioned and wherever possible there are tables of comparative figures to show at a glance just how certain departments of the health bureau stand.

Among the more important problems to which Dr. Raunick gives special attention are the flood and sewerage conditions in the lower end of the city, school room windows, a tuberculosis camp site near town, and housing conditions.

"Every year practically, when our river reaches flood stage," says the report, "this bureau is confronted with

the serious problem of affording prompt relief in certain low lying sections of the First and Second wards and we would recommend that a careful inspection of existing conditions be made under the direction of the department of streets and public improvements, to determine and if possible devise ways and means to permanently relieve these districts of this serious health menace."

Open Air Schools

In dealing with the "open school room window" problem Dr. Raunick says: "Of more than passing import is the open air school, which, like many others so-called 'foolish' hobbies has already done wonders and while it may not now be possible to provide more of these schools we can surely apply their primary principle to other schools. Why not have all the windows opened wide in every room and make all schools—open air schools?"

To the subject of the establishment of a tuberculosis camp the health officer devotes the following section: "It is to be regretted that after such strenuous efforts of the local Red Cross Christmas seal committee with funds available and made possible through the generosity of our fellow citizens, no site for the establishment of a camp for our needy tuberculosis cases, could be secured. The needs of such a camp are self evident." The health officer concludes with an earnest recommendation that Council use every effort to secure a site and establish a hospital at some accessible point.

Should Draft "Housing Code?"

What really amounts to a note of real warning is sounded by Dr. Raunick in his reference to housing conditions: "A superficial inquiry into housing conditions is sufficient to indicate that

this particular and serious public health problem, is not receiving the consideration it demands and in addition to the revision of our building code—which we have before urged upon council—prompt action should be taken to draft a "housing code" in keeping with our demands. While we do not have the tenement house problems of larger cities to deal with, our investigations disclose conditions equally bad and as the result of the Capitol Park extension and the subway operations in the Third ward, the tenants from these affected districts are crowding into already badly congested districts and to-day we are confronted with housing problems the reality and importance of which are beyond question. These conditions are not at all confined to a certain district and under such conditions no wonder tuberculosis flourishes. We submit for example, comparative statistics from the Seventh ward, which for several years shows not only the greatest number of cases but the greatest annual increase, all of which no doubt is largely attributable to bad housing."

NO TROUBLE IN VIENNA

By Associated Press

Vienna, via London, Jan. 20.—A. M.—An official communication issued here, declares that all reports of the growing seriousness in the situation in the interior of the monarchy are unfounded. There are no disturbances owing to a lack of bread, it is declared, and no demonstrations against the war have been made in Vienna or elsewhere.

Paris, City of Light, Is Shrouded in Gloom

Special to The Telegraph

Paris, Jan. 20.—Last night Paris definitely abandoned its title of "The City of Light," and assumed a shroud of mourning. According to police regulations, emphasized by official visits to all business houses, no unshuttered or uncurtained windows are allowed to give light, no cafes or shops may brighten the sidewalk with gas or electric radiance. Even windows overlooking courtyards must be shaded, while the wet boulevard pavements reflect but faintly a few occasional lamps.

The public takes the innovation calmly. Since the beginning of the war Paris has been rather contented with Zepellins. Consequently no one seems alarmed by the latest measures, which are considered simply precautionary, uninspired by definite official knowledge regarding contemplated attacks.

DEMOCRATIC LEADERS PLAN EXTRA SESSION OF CONGRESS

Special to The Telegraph

Washington, Jan. 20.—The last thing that the people of the country want is an extra session of Congress, said Representative Oscar W. Underwood, the Democratic floor leader, in a brief speech in the House of Representatives yesterday. That expresses

the opinion among Senators and Representatives generally, but in spite of it all, signs indicate that the new Congress, elected last November, will be called together shortly after the end of the present Congress on March 4. After discussing the situation, the Democratic leaders began making their plans for an extra session.

The apparent pressing necessity for calling the new Congress together arises from the insistence of the Administration that the pending ship-purchase bill shall be enacted into law without delay. This bill has been passed by the House and is now before the Senate, where a determined filibuster is in progress.

NANTICOKE BUCKWHEAT \$3.75

Here's one of the popular sizes for steam heating systems.

Many home keepers prefer Kelley's Nanticoke Buckwheat because it is absolutely all pure coal without any slate and other foreign matter to mar its burning qualities.

Best results obtained at a minimum consumption of fuel.
