Near Chicago two weeks ago two lives were lost when a moving picture film exploded in a passenger car. The messenger, it is said, was in the smoking car and a spark from a cigar dropped on the film.

The notices calls attention to the orders to have all films enclosed in fire proof boxes and urges every employe to see that this order is carried out. There is less danger in the shipment of films than by sending them with a special messenger, it is said. The law provides that films taken into cars must be packed in a metal casing. Films carried in paper mache or postboard casings will not be accepted for shipment.

Statements of the three Reading companies for December, made public last night, shows that their operations for that month were far from favorable. General Venustiano Carranza, the first chief of the constitutionalists, will, according to Vera Cruz advices, return to the capital immediately and it is probable that he will re-establish his government there in the near future. This is the second time that General Carranza has been in power in the Mexican capital. He first entered the place on August 20 last, following the retirement of General Victorian. Huerta, having the entire constitutionalist force as his support.

For a time peace reigned and then an old dispute between Carranza and General Francisco Villa was revived. General Villa issued an ultimatum that Carranza must retire and a convention of all the revolutionary chiefs was called to meet at Aguas Calientes on October 10 to decide upon the best way in the establishment of a governia ment. The majority sentiment favored Villa and Carranza was asked to resign but he refused to give up control of the government.

Early in November the convention provisional president of the republic and Villa took steps to install him office. Villa began a march on the indirect of the convention of the convention
