Times — contains the story of the war, up to the date of its publication. The trained writers of The London Times, assisted by twenty-eight military, naval and diplomatic experts, have written this standard history from original data in posses-sion of The Times. It is the one authoritative book about the war-the one book that is accepted everywhere as the standard -the one book to which you must refer.

Cost \$70,000 to Make

Having been written with encyclopedic accuracy, with every fact verified, it has cost a fortune in editorial preparation.

The volume contains hundreds of interesting illustrations and numerous clear-cut, valuable maps. These maps have been specially prepared for this history, and they alone are worth the price of the book. The binding is done in handsome blue cloth. Thousands of copies have been sold for \$3.00 a volume.

Our arrangement with The London Times gives us the right to make this low-priced offer for only a limited time. Be sure to take advantage of this opportunity. After our supply of books is gone, we cannot furnish this famous history for less than the full price. Remember, our offer is the \$3.00 book of 98c, presented at our office with one coupon. A coupon is printed on another page today. Look for it—and cut it out. Bring it to our office with 98c and get your copy of the book. We can sell only one copy of the book to a single purchaser. (If ordered by mail, add 17c for postage and mailing, making \$1.15 in all.)

series, ranging in capacity from one to six tons, inclusive, possesses nu-merous features that spell economy to the user and overcome the difficul-ties formerly identified with the in-stallation of worm drive. The one-ton Packard is a new ad-dition to this well-known family and marks the entrance of the company into the light duty field. Each unit is designed especially for the duties required of a truck of that capacity. So carefully have the Pack-ard engineers developed the new product, that it has taken three years for the forework. The preliminary trucks, during the final test, were times around the earth. minimum attention and enore on the part of both the owner and his em-ployes. Evidence of the improved design of the new Packards is indicated in their quietness of operation and their cer-tralized control. The latter feature is entirely new in heavy duty trucks and means complete mastery of the ve-hicle from the driver's seat. The new models have left drive and left side levers which provide a greater ease and safety of operation in congested terminals. The Packard motor is automatically governed to prevent overspeeding by reckless drivers and the resultant abuse of the vehicle. The carburetor is automatically controlled and hot water jacketed while the ignition sys-tem is so ingeniously protected as to be practically waterproof.
