

CHARITIES BOARD CUTS BILLS HARD

Big Reductions Made in Appropriations For State Appropriations For Two Years

STRONG RECOMMENDATIONS State Laws to Investigate "Harmful Products" and Changes in Building System

The State Board of Public Charities has recommended \$95,500 for hospitals and homes in Harrisburg, including the State hospital. Adhering to its recommendation policy of two years ago the Board does not favor any buildings except for institutions under State control.

The recommendations, which go before the Legislature to-night and will be taken up by the appropriations committees give the following: for Harrisburg and vicinity:

To-morrow Is the First Day of Our Great

FEBRUARY FURNITURE SALE

It is a pleasure to hear the oft-repeated statement that folks wait for our Furniture Sale to furnish, refurnish, or add just a piece or two, to the home, because they realize that they are saving considerably in doing so.

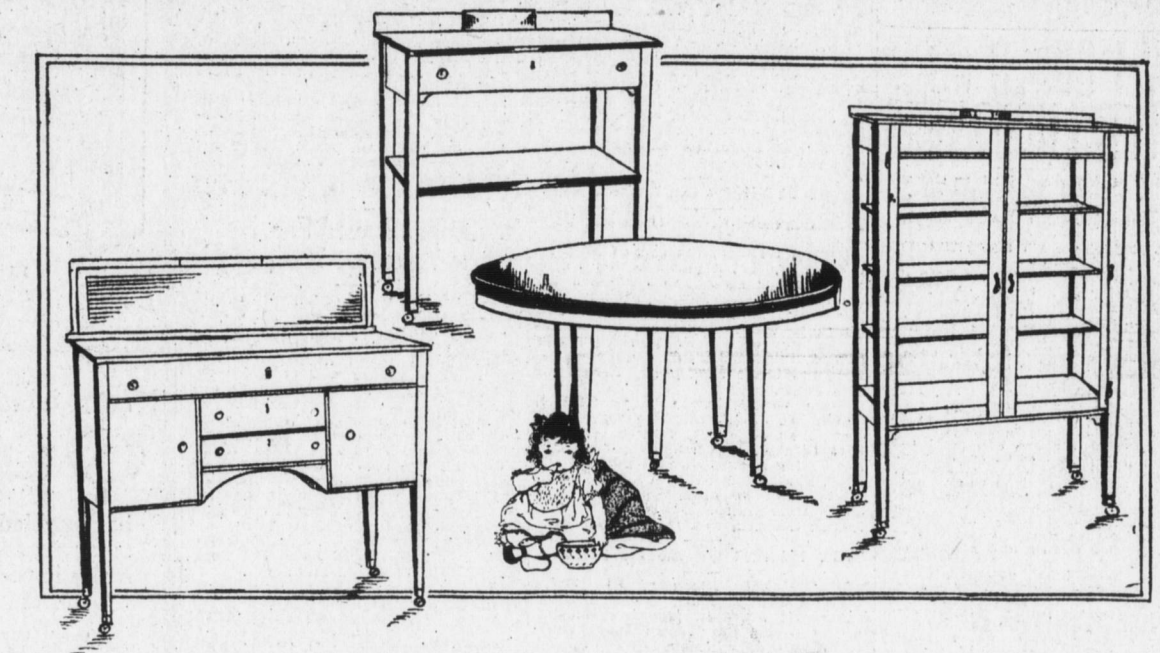

This event is made possible by the ever-increasing, and rapidly-growing volume of business transacted on our Furniture Floor, resulting in the old story of our school days about each depending upon the other—we can sell more; we can purchase more; the manufacturer can make more—Reversing: the manufacturer can make more, and because of this, he can sell cheaper; we can purchase cheaper; we can sell for less; you can buy for less.

But let it be known that furniture offered in this sale—and that means every piece, must measure up to the desired standard of workmanship before it is placed on our floor.

You may also be interested in knowing that no portion of this furniture came through "hurry-make-them-any-old-way" orders, as ample time, in fact, weeks and months were given to each order.

We invite every homekeeper to visit this store and inspect the wonderful showing, from a small chair to the largest suite.

This initial advertisement tells of only a few, and mostly of the better grades. Popularly priced lines are here for your judgment—make comparisons if you choose.

This Handsome Dining Room Suite Could Be Offered Only in Our Furniture Sale at \$110

The above illustration truly describes this handsome four-piece dining room set, which is a feature of this sale. The sale price is \$110.00 instead of \$134.00.

of the various institutions at the end of the last statistical year was 75,410, classified and distributed as follows: Insane asylums, hospitals, State and county institutions 18,062; home for children and aged 15,103; State hospitals for miners 704; in various private hospitals 9,835; in private sanatoria for consumptives 477; institutions for weak minded 2,292; various reform schools 1,637; institutions for deaf and dumb 913; institutions for blind 337; penal institutions 2,919; jails and workhouses 2,050; almshouses 6,101. In addition to this current population 217,261 persons were cared for in State and private hospitals for a longer period during the year. The above does not include population in the State tuberculosis hospitals at Mont Alto, Cresson and Hamburg. Briefly as to hospitals and homes there were 589,126 dispensary patients treated free, 2,229,914 free hospital days and 4,523,430 days in various homes aided or supported by the State.

provision for classes not already provided for makes imperative demands on the State for increased capacity of the present institutions and speedy provision for other institutions. Recommends Laws. The report also says that the depression in business affected hospitals by causing smaller donations and that institutions were also adversely affected by the higher cost of items entering into maintenance and the high cost of medical and surgical supplies caused by the war in Europe. The Board recommends the bill to prevent procreation of idiots; the bill to change management of all jails now under government of wardens; a State system of workhouses; that the State carry its own insurance on buildings; investigation into the advisability of legislation to prevent manufacture and sale of harmful products; a State

institution for incurables; that the custom of having institutional buildings erected by commissions be abolished and that when any construction is authorized the legislative enactment be given with the selection of trustees and that they construct the plant subject to approval of the Board of Public Charities; a pension system for superannuated and disabled employees of State institutions.
