COUGHED ALMOST CONSTANTLY

Great Victory For Vinol Over a Severe Bronchial Cough. Vinol Succeeded After Everything Else Failed.

Bogalusa, Ala.—"I am a housekeeper and have three in my family, and I have terrible cough and pain in my chest for so long was discouraged. I coughed almost constantly and would almost lose my breath. My trouble interfered with my work because I was not able to run my household without coughing. I took cod liver oil emulsions and other medicines which did me no good. Finally our druggist told me about Vinol and I tried it and noticed an improvement almost immediately and its continued use has completely cured me. Vinol is certainly wonderful and I praise it wherever I go."

The reason Vinol is so successful in curing chronic coughs, colds and bronchitis, is because of the healing and tissue building influence of the medicinal principle of cod liver oil, assisted by the tonic and blood making properties of tonic iron, all contained in Vinol.

At Vinol fails to benefit any person in this vicinity who suffers from chronic coughs, colds or bronchitis, or to build up the weak, rundown or debilitated, we will pay back their money. George A. A Simple Way to Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve an entirely destroy, even the single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging on the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.
