Additional Mill and Factory News on Page 14

NEWS OF THE RAILROADS

VETERAN INSPECTOR HAS SERVICE RECORD

Harry A. Boyer, General Car Inspector on Reading System, Retires With Honors

After a continuous service of nearly half a century, Harry A. Boyer, general foreman of car inspectors of the Reading railroad, was retired yesterday. This veteran resides in Reading but his duties made him a frequent visitor to Harrisburg.

Mr. Boyer entered the services of the Reading Company on March 3, 1866. On April 7, 1873, he was made foreman of car inspectors in the yards at Reading.

An Easy Way to Remove Superfluous Hair

Ladies who suffer from the humiliating disfigurement of hair on face, lips or chin, will be interested in the following formula which has the advantage of being simple and inexpensive, as well as marvellously effective. It is not claimed that one application will permanently destroy the hair roots, but it is claimed, and the claims are borne out by actual tests, that one application completely removes the hair. If you have hair which you wish removed ask G. A. George, Harrisburg, Pa., or any other leading druggist to mix 4 1/2 drams Pulverized Sulphine Concentrate with 2 1/2 drams Zinc Oxide, and 1 dram of Powdered Orris Root, and put in a wide mouth bottle. For use, mix a little of the powder into a paste on a plate by adding a few drops of water. Apply with a narrow knife blade and remove at the end of two minutes with the back of the knife, when the dissolved hair will come with it.

Caution—This must not be used as a substitute for shaving, as if the roots are once destroyed, hair will not grow again.—Advertisement.

Mr. Boyer was a soldier during the Civil war. He enlisted in Company E, Fiftieth Pennsylvania Volunteers on August 20, 1861, at the age of 16 years. He served throughout the entire war. Mr. Boyer was badly wounded in the right side by an exploding shell at the storming of the fort at Petersburg after the explosion of the mine dug by the Forty-eighth Pennsylvania Regiment on July 30, 1864.

Mr. Boyer is past commander of McLean Post, No. 16, G. A. R., of Reading. He was a delegate to the G. A. R. national encampment held at Detroit last year and is a delegate to the State encampment to be held at Easton next June.

Fine Test Rail Orders Necessitate New Process

The 10,000 tons of steel rails distributed by Pennsylvania Railroad, 2,000 tons each to five rail mills as experimental orders preparatory to placing contracts for the balance of the 150,000 tons the early part of the year, are being rolled, and early delivery is expected. Of the 10,000 tons ordered, 5,000 tons will be rolled under the old process and 5,000 tons under the new.

Middle Division Freight Traffic Shows Increase

Freight traffic over the Middle division during January showed an average daily increase of 130 cars. The total car movement was 16,782. Of this number 92,470 cars were loaded; and 71,312 empty.

It required 2,585 trains to haul these trains. The total movement for December was 156,842 cars. During January one year ago, 170,000 cars were handled.

Railroad Earnings Poor; Lowest in Many Years

Officials of both the Pennsylvania and Reading, while maintaining optimistic and hopeful sentiments as to the future movements, admit their disappointment over the failure of the resumption and extension of industries to

be reflected in the earnings of their respective companies. The earning statements of both companies for December were the poorest in years. The Pennsylvania decrease of over \$4,000,000 in gross earnings that month has not been equaled or approached since 1907. The Reading Railway's surplus of \$22,000 for December was the smallest since December, 1905, when it fell to \$221,821, the next nearest approach being \$402,401 in December, 1906.

Too Many Subscribers For P. R. R. Bond Issue

New York, Feb. 2.—The issue of \$49,000,000 Pennsylvania Railroad company consolidated mortgage 4 1/2 per cent. bonds offered by Kuhn, Loeb & Co. last week at 103 3/4 has been heavily over-subscribed. Bankers handling the issue did not state the extent of the over-subscription or say on what percentage basis the bonds were to be distributed. In Wall street it was heard that the subscriptions had reached \$200,000,000, or four times the available issue.

Supt. Hoffman Improving

Nelson M. Hoffman, 1405 State street, superintendent of Philadelphia division freight agents, who has been ill is improving. Mr. Hoffman has been confined to his bed since inauguration day.

Standing of the Crews

HARRISBURG SIDE

Philadelphia Division—106 crew to go first after 3:45 p. m.: 101, 124, 107, 110, 128, 114, 108, 104.
Engineers for 101, 106, 107, 114, 124, 128.
Firemen for 106, 107, 114, 128.
Conductors for 124, 128, 114.
Flagmen for 124, 107, 110, 114.
Brakemen for 107, 114.

checker, Lex, Nye, Rumbaugh, Fulton, Chronister, Kelly, Dobbins, Bingaman, Snader, Murray, Anspach.
Conductor up: German.
Brakemen up: Ely, Carlin, Mumma, Hoover, Shader, Grimer, Miles, Wynn, Epley, Painter, Warner, Dunkle, Maxton, Hinkle, Yoder, Taylor.

First Sales of Wheat in Chicago Touch \$1.60 1-2

By Associated Press

Chicago, Feb. 2.—Wheat raced upward in price to-day, first sales showing a jump of as much as 3 1/4 a bushel. The May delivery touched \$1.60 1/2.

Extraordinary rises in quotations at Liverpool excited wheat traders here. C. H. Canby, president of the Chicago Board of Trade, said the Liverpool prices were probably due to an advance in war risk insurance and to fear that submarine attacks would hinder the arrival of British supplies and make shipments from other countries to Great Britain more difficult.

CAUSE AND EFFECT.

It must be great to be a man! One dress suit lasts you for years and years, and a woman must have a new gown for every party.

That's why one dress suit lasts a man for years and years.

A SALE IN PROSPECT.

Friend—What is that picture intended to represent?

Artist (absent-mindedly)—Board and lodging for six weeks.

OBJECTIONS TO RUM GROWING STRONGER

Nearly One-fourth of Daily Newspapers of United States Exclude Liquor Ads

Among the five hundred and twenty daily newspapers in the United States which will not accept any whisky, beer or other alcoholic liquor advertisements are twenty-seven Pennsylvania newspapers, two of which are published in Harrisburg, one being the Harrisburg Telegraph.

These figures were compiled by the Research Department of the Methodist Episcopal Church with national headquarters in Topeka, Kan. More than 2,000 papers were asked to give their stand. Of these 679 replied. Only 179 will accept liquor advertising of any kind and a large number of these will accept only beer advertisements. Three hundred and sixty papers are editorial advocates of national prohibition, while 200 oppose. Three hundred and sixty favor state prohibition, with 193 opposing. Local option is favored by 397, with only 176 in opposition.

"A very large number of newspapers," continues the report, "declare their editorial columns are neutral on the liquor question, while a surprising number of papers which accept liquor advertising assert they are in favor of national prohibition. The growing tendency to bar liquor ads is also made apparent by the announcement of many that they have recently adopted that policy. The case of the Indiana Times, of Indianapolis, which took this stand January 1, is typical.

Some Don't Appreciate Stand

"In answer to the question, 'Do you editorially favor national prohibition?' a great New York newspaper significantly says, 'We have not as yet,' and another large paper which accepts whiskey advertising declares 'We have

never taken a definite stand, but expect in a few weeks to come out for state and national prohibition.' Quite a number say their policy in regard to liquor advertising is not sufficiently appreciated by church people. Others are waiting for public opinion to swing in favor of prohibition.

"A number of papers declare they are not taking on new liquor advertising, but are filling old contracts. Many say, 'We do not solicit liquor advertising by church people. Others are waiting for public opinion to swing in favor of prohibition.'

Editors Favor Educational Work

"A number of papers call attention to the fact that their columns are open to the temperance people, although editorially they are neutral. A great many editors seized the occasion to point out that only education can bring about a state of mind which will make national prohibition effective, and they declare that sufficient educational work has not yet been done."

"Some take advertising of whisky only when they consider it medicinal; others point to the fact that they bar even patent medicines with a large proportion of alcohol. Others ask double rates for liquor ads."

WHEN YOU WASH YOUR HAIR DON'T USE SOAP

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.
