VALLEY FORGE PARK ALONG CAMP LINES

Will Resemble Spot When Washington Was There If Bill Goes Through

Valley Forge Park will take in all of the original site of Washington's encampment if a bill which was introduced in the House to-day becomes a law.

Samuel W. Pennypacker, when Governor, induced the legislature to purchase several hundred acres, including encroachments of the Continental Army, and to make a State park of the land, and on this commission he appointed Dr. Brumbaugh, who was then superintendent of public schools in Philadelphia.

Governor Brumbaugh takes an active part in the commission, as does also ex-Governor Pennypacker, and it is Governor Brumbaugh's desire to see the State acquire the whole original camp site and make it a State park during his administration.

The bill for the purpose of purchasing more land and for the park's maintenance was introduced by Samuel A. Whitaker, from Chester county, and contains provisions for the suitable transfer of the \$100,000 arch now being built as a gift from the United States government to the State of Pennsylvania, for the restoration of the forts and redoubts as nearly as possible to their original condition, and for the erection of shelter houses for visitors, from Chester county, and other improvements.

A similar bill was introduced in the last session by the present Speaker of the House, Charles A. Ambler.

A man who gave his name as Samuel Weaver and North Sixth street, Harrisburg, as his residence came into the Steelton Saturday, made a few inquiries as to the personnel of the police force and then set out to make some easy money.

LEAGUE PRESIDES TO BUILD ROW OF HOUSES

Buildings of Semi-bungalow Type Will Be Erected in Spruce St.; Plan Other Improvements

Believing that the best way to boost your town is by setting an example, Harry C. Wright, president of the Steelton Municipal League, an organization which has been agitating the erection of more moderate priced homes here, to-day announced that he would build a number of new houses in Spruce street as soon as weather conditions permit.

At the same time Mr. Wright announced that plans have been made for wiping out one of Steelton's landmarks—the old boardwalk on Cottage Hill will be torn away and 900 feet of smooth concrete pavement will be laid in its place. The new walk will start at the foot of Swatara street and climb the side of the hill in a gentle grade to Spruce street. DAINTIEST COSTUME OF THE SEASON

Will Lose Its Effect Unless the Hair Is Pretty and Properly Dressed

The woman who looks to clothes for her charm and attractiveness is likely to find her most expensive outfit a failure if she has thin, faded or lifeless hair. The most beautiful evening gown will appear dowdy and out of style unless crowned with a head of pretty hair, soft, fluffy and lustrous.

Beautiful hair does not just happen to be so, but is always a matter of care and proper nourishment of the hair roots. No matter how unsightly the hair, how badly it is falling, or how much dandruff, Parisian Sage, an expensive tonic, well rubbed into the scalp, is all that is ever needed. The hair roots are nourished and stimulated to grow new hair. Dandruff is entirely removed with one application, and itching scalp and falling hair cease; the hair will be bright, vigorous, soft and fluffy.

If the hair is oily, greasy, brittle, or you have dandruff, Parisian Sage immediately removes the cause, and by toning up the scalp quickly restores the hair to its original brilliancy and vigor.

Parisian Sage can be had from H. C. Kennedy, or any drug or toilet counter. It is a delightful and harmless treatment that never fails to act as a real and lasting benefit to the hair and scalp.

HEAVY RAINS CAUSE BIG RISE IN SCHUYLKILL AT READING

Reading, Pa., Feb. 2.—The Schuylkill river at this point, by a regular rampage, due to an almost continual rainfall of 26 hours. Its tributaries are overflowing their banks and the lowlands are flooded. At 10 o'clock this morning the water was nearly ten feet above normal. After approaching this danger mark, it gradually receded.

The rain is reported worse south of Reading where the Perkiomen, Monaca and other big streams are adding their volume to the torrent in the river. North of Reading hundreds of people are being displaced tonight. The sleet storm disarranged the trolley service.

DOWNPOUR IN PHILADELPHIA HAS EXCEEDED ALL RECORDS

Philadelphia, Feb. 2.—The water in the Schuylkill river at Philadelphia is higher than at any time in the past thirty years. Flatrook dam, in the upper section the water is 12 feet above normal. Streets in the Manayunk and Falls of Schuylkill districts are flooded and many of the big textile mills in that section were forced to close. The United States Weather Bureau says the precipitation exceeded all records.

OHIO RIVER GOES ABOVE FLOOD STAGE AT PITTSBURGH

Pittsburgh, Pa., Feb. 2.—The Ohio river passed 24 foot mark higher than the accepted flood mark, at 7 o'clock this morning and continued to rise at the rate of six inches an hour. The Monongahela river was stationary but flooded streams in northern West Virginia have only commenced to put out water and it will not reach here until to-night. Scores of families in the lower wards of this city of an accident are moving. The warm rain continues.

FLOOD DANGER HALTED BY COLDER WEATHER

in the lower Schuylkill which crested at 5 o'clock this morning. The groundhog failed to see his shadow.

January Very Dismal

Total precipitation of 6.04 inches in January made last month the wettest January in the twenty-seven years' history of the local weather bureau and, according to some historians of the city, the worst for wet weather in seventy-four years.

According to the monthly meteorological summary issued by E. R. DeLong, local forecast, the precipitation was 2.12 inches in excess of normal. The heaviest rainfall in twenty-four hours was 2.32 inches on January 11 and 12.

Rain fell on fifteen days and there were ten clear days in the month. Temperature varied from 61 degrees on the 19th to 11 degrees on the 29th.

SUBWAY SAFER FOR TRAVELING AFOOT

tend along the base of the wall southward for a distance of 447 feet. The pavement will be six feet wide and will be protected from the plaza proper by a six-inch curb.

By the present plan no sidewalk is provided for the plaza or the base of the approach wall, the brick pavement for vehicular travel extending from the proposed freight station line to the street. The change in the plan will be done at the expense of the Pennsylvania Railroad Company.

Railroad Company to Pay

The ordinance as introduced to-day was framed by Mr. Lynch following a considerable correspondence with W. K. Martin, the subway contractor.

"That many people using the subway will prefer the least graded side of the street is only natural," said Commissioner Lynch. "That means that many of the people who use the subway will prefer the approach down past the plaza of the freight stations. Proper protection should be provided for such traffic in preparing this idea in mind that I am preparing the ordinance offered this afternoon. Furthermore, it won't cost the city a cent."

Death Likely to Hasten Back-to-party Movement

Washington, Feb. 2.—The first movement of the Washington party of Pennsylvania back to the Republican party is expected to appear in the special election to choose a successor to W. M. Brown, congressman, who died in New York Sunday. He was elected to Congress from the Washington-Beaver-Lawrence district last November, defeating Dr. Henry M. Temple, the incumbent, in the primary by a majority not exceeding 1,000. Doctor Temple, who ran on the Washington party ticket, is expected to seek the Republican nomination for the vacancy.

Doctor Temple's name was placed on the Republican ticket in the primary last May, although he made no effort to secure nomination. He carried Washington county on the Republican ticket and came near winning out as a Progressive against Brown in the election.

Friends of Doctor Temple in the Progressive party in Pennsylvania are anxious to have him enter the Republican primary. He will probably do so. He declined to say anything about his plans to-day.

In the last election the vote was Brown, R., 14,694; Temple, Wash., 10,771; Barnum, D., 7,051.

BOND MAY HALT REVIVAL

Owner of Tabernacle Site at Reading Asks \$500,000 Surety

Reading, Pa., Feb. 2.—Another serious obstacle in the way of the erection of the Stough evangelistic tabernacle at Hill road and Clymer street arose to-day when William H. Luden, Reading's millionaire, who is the owner of the premises, announced that he would require a bond in the sum of \$500,000 to indemnify him against any loss in the event of an accident resulting in the loss of life or serious injury to persons attending the services.

He took this step as a result of the experience of Frank P. Lauer, who has been required to pay heavy damages as the result of the collapse of a double-deck grandstand at the Lauer Park baseball ground after he had leased away the ground.

GERMAN OFFICER DYNAMITES BRIDGE

connecting Montreal with the ports of St. John and Halifax.

In the winter season St. John, N. E., is the principal eastern port of Canada and thither have come from Wilson and further west great quantities of provisions and other munitions of war for shipment to England and France. The shipments have passed over the bridge which it was sought to destroy. This is the most direct route from the west as, cutting across the State of Maine, it is several hundred miles shorter than the northern route operated by the Canadian government. Van Horn was made a prisoner of the State of Maine. The Canadian authorities indicated that they would claim his extradition to the United States with a view to extradition. It was held that Van Horn would be defended against extradition, basing his claim for the protection of the United States on his assertion that he had committed an act of war and that his offense was political.

Railroad officials said repairs can be made within a day.

GOOD WORKS OF STATE OFFICIALS GIVEN

Mr. Woods Gives Security For a Thousand Colonial Pounds For His Good Behaviour

COMMISSION IN SESSION

Attorney General Will Have Conferences on the Compensation Bill Next Week

The three State officials recently appointed by Governor Brumbaugh have filed the demands required of them by the laws of the State and one of them is a Security for a thousand Colonial pounds which dates back to Colonial days.

Cyrus E. Woods, the Secretary of the Commonwealth, gives a bond for \$100. These pounds are Colonial pounds, amounting to \$2.66 each, and the form followed is as old as the State. It has just been passed, through the officials who act upon such affairs.

Attorney General Brown gives a bond for \$30,000, the amount being one of those dating back many years, while Adjutant General Stewart gives a bond in the sum of \$20,000.

When Secretary of Internal Affairs Henry Honck gives a bond for his third term in May he will give bond for pounds, too.

WILSON SEES DEFEAT OF SHIP PURCHASE

clear a policy and not surrender a right.

Among the amendments up for consideration by the caucus in an effort to obtain the support of the Progressive Republicans without recommending the bill were those to eliminate cabinet members from the proposed shipping board and to give the board control of the rates on cargo transportation of cargoes by government vessels. It was feared, however, that to win this support would require too many important concessions. It was said that while the Progressive Republicans would not object to minor changes to meet the objections of opponents of the measure.

Only Course Left

The only course that will save the bill is the adoption of several amendments that are favored by Republican Progressives, especially one safeguarding the United States against foreign complications through purchase of the German and Austrian vessels laid up in United States ports.

The failure of the Administration's campaign for the passage of the ship purchase bill was the hardest blow President Wilson has yet received from the Senate.

It indicates a growing resentment among many members of Congress against executive domination and demonstrates what has been suspected from the beginning, that a majority of the Democrats in the Senate are faint hearted in their support of this measure.

DEMOCRATS FIBUSTER

So complete was the turnover in the Senate against the President's measure that the Administration leaders were forced to a filibuster to prevent its defeat before adjournment yesterday.

Thus there was presented the curious spectacle of the Administration Democrats, who have been abusing the Republicans for a week or more on account of their long distance ordinary and time killing tactics, resorting to the same expedients to save the day for the President.

Furthermore, the chances are that you, too, like the future Lady Mawson, would have been waiting at the pier on the far-away tip of Australia when HHS ship came in.

Whether or not Harrisburg folks will have an opportunity of seeing the pratty heroine of that romance when Sir Douglas appears at the Majestic, February 9, as the guest of the Natural History Society is doubtful; it is quite likely that Lady Mawson will not accompany her husband on tour. The famous Australian explorer and scientist will, by the way, be presented by Governor Brumbaugh. The Governor told a committee of the society which waited upon him yesterday with the request that he would be delighted at the privilege.

year or perhaps more until the question be finally settled in the courts, the property owners may assign their judgments against the city to a bank and so obtain the cash.

Could Issue Bonds

Just now there are no funds available by which the city could pay the claims and it is probable that bonds would have to be issued to cover the expenditure. This being understood, the city without putting the question up to the people by vote as the city's borrowing capacity is sufficient to cover the contingency.

fully adopting the solicitor's suggestion council provides the way for Mr. Seitz to ask the court to appoint a board of three viewers who may go to work as early as convenient. In discussing his plan City Solicitor Seitz says:

Mr. Seitz's Plan

The viewers who must determine the claims are the damnable benefits resulting from said opening, after the city has failed to agree with the property owners, may be appointed READER or at any time after the taking and appropriation of said properties. This will enable the city to have all the damages determined in each case by the viewers before disturbing the possession of the owners, who may retain the use of their properties in the meantime free of interest charges on the part of the city.
