stored in Chicago elevators at present was said to be the object of the new inquiry.

The price of bread was advanced from five to six cents a loaf to-day as a result of announcement by the Master Bakers' Association, which represents about 400 small dealers. Some of the larger manufacturers, who still are selling a five-cent loaf, are expected to announce an advance before the end of the week, as their supply of flour bought months ago, is nearly exhausted. Prices of doughnuts, cakes, buns and other products of the bakerles also will be raised, it was said.

Fear of the opening of the Dardanelles had considerable to do with the witness of the fluctuations in wheat. Reports, though, that several of the chief forts defending the strait had been demolished were not fully credited, and did not have a lasting effect. The same was true of the peace talk, which rested on gossip as to action by financiers likely to be taken by May 1.

During the break, May reached for a moment as low as 1.56%, a fall of 8%.
